

## POISON WAS THE CAUSE OF HER DEATH. STANFORD MYSTERY FAR FROM BEING SOLVED.

### CONFLICTING STORIES COME FROM HONOLULU.

#### PHYSICIANS HOLD TO POISON

Say Mrs. Stanford Did  
Not Die From Natural  
Causes.

TESTIMONY BEING TAKEN AT  
THE INQUEST THIS  
AFTERNOON.

HONOLULU, MARCH 7.—HIGH SHERIFF HENRY TOLD THE CORRESPONDENT OF THE ASSOCIATED PRESS TO-DAY THAT THE CHEMISTS, IN A TEST OF THE ORGANS OF MRS. STANFORD'S STOMACH THIS MORNING, HAD FOUND A COLOR WHICH INDICATED STRYCHNINE POISONING AND THAT THEY WOULD SO TESTIFY AT THE INQUEST.

HE ADDED THAT THE CHEMISTS HAD FOUND STRYCHNINE IN THE BICARBONATE OF SODA OF WHICH MRS. STANFORD PARTOOK ON THE NIGHT OF HER DEATH AND THAT THEY WOULD SO DECLARE TO THE CORONER'S JURY.

SAN FRANCISCO, March 7.—For the past two days the police have been considerably more active in their investigation of the circumstances surrounding the death of Mrs. Jane Lathrop Stanford.

ON THE RACK.  
Albert Beverly, the ex-butler and Miss Elizabeth Richmond, the former maid, have been put through a severe examination lasting nearly three hours, and the police are not yet through with them.

Their examination will be resumed this afternoon at 4 o'clock, Mr. Mountford Wilson, attorney for the Stanford estate; District Attorney Byington and Captain of Detectives Burnett will do some questioning.

GOT COMMISSIONS.  
Although the police have steadfastly refused to divulge the line of questioning to which Beverly and Miss Richmond have thus far been subjected it has been gleaned from a reliable source that ex-butler Beverly has admitted to them that he was in the habit of taking commissions on purchases made for the household while in Mrs. Stanford's employ.

This much the police have admitted but they refuse to affirm or deny the correctness of the further statement of Beverly that Miss Berner shared with him in these illegal commissions on purchases.

In a cable dispatch from Honolulu

MISS ELIZABETH RICHMOND, EX-MAID AND ALBERT BEVERLY, EX-BUTLER OF THE STANFORD HOUSEHOLD.

Miss Berner makes an absolute denial of the charge.

Miss Richmond declared to the police that it was butler William McWhinney who opened the bottles of mineral water on the occasion of the attempt made to poison Mrs. Stanford last January.

She said she carried one of the bottles to Mrs. Stanford and that the other was intended for Miss Berner.

NEW WITNESS.

This statement injects McWhinney into the case and he will be closeted with the police this afternoon. The inquisition of McWhinney will begin at 2 o'clock.

McWhinney succeeded Beverly as butler and had been in Mrs. Stanford's service for five weeks prior to the first attempt made to poison her.

NO ACCUSATION.

Captain Burnett authorized the following statement this morning:

"The San Francisco police accuse no one and have not even the right to suspect any one at this time.

"The witnesses who have been examined thus far have come to us voluntarily. Our position is simply this:

If the verdict of the coroner's jury in Honolulu be that Mrs. Stanford came to her death through strychnine poisoning, we want to be in a position to turn over to the officials there every bit of evidence obtainable in San Francisco."

#### STORY TOLD AT INQUEST

HONOLULU, March 7.—The coroner's inquest in regard to the death of Mrs. Jane L. Stanford was begun at 2 o'clock yesterday afternoon in the Moana Hotel, and at 7:30 last evening an adjournment until today was taken. Miss Berner, secretary to Mrs. Stanford, and Dr. C. B. Wood and Dr. F. R. Day, two of the surgeons who conducted the autopsy, were the witnesses heard. Tomorrow the chemists will be called to testify.

Dr. Wood testified that in general the symptoms indicated that Mrs. Stanford had died of strychnine poisoning and he told at considerable length the condition of the body as he had observed it after death.

The questioning of Miss Berner occupied nearly all the afternoon, but nothing new in the way of material testimony was obtained. Miss Berner's statement before the coroner was practically the same as that which she gave to the press.

Deputy High Sheriff W. T. Rawlins asked the questions, and J. F. Hackfield and W. T. Stanley were present in the interest of the Stanford estate.

Miss Berner stated that for twenty years she had been secretary to Mrs. Stanford and that in the company of the latter she came to Honolulu on the Pacific Mail steamer Korea.

"Why did Mrs. Stanford leave for San Francisco?" asked Sheriff Rawlins.

ADVISED TO LEAVE.

"Because she was advised to do so by her brother, Charles L. Lathrop, and her attorney, Mountford Wilson," was the reply. "Her physician thought that a visit to Honolulu would be good for her health, and all agreed that it was not advisable to remain in San Francisco after the first attempt at poisoning. Mrs. Stanford said that as she could not stay in her home at San Francisco, and as she could not go to her Palo Alto residence, as the wet season was not over, she preferred to come to Honolulu, where the weather was warmer."

"Why did Mrs. Stanford conclude that she should not remain at San Francisco?" was asked.

"The attempted poisoning of January 14 was what led Mrs. Stanford to seek advice," replied Miss Berner. "On January 14 she drank some mineral water at her residence on California street at San Francisco and found

(Continued on Page 2.)

### ASSESSOR DALTON ON THE WOODEN PIPE PROPOSITION.

Says That it Will Make Bay Cities Plant Cost the City Nearly \$7,500,000.

On This Basis He Figures Out That the Bonds Will Increase the Tax-rate to Over Four Dollars Per Hundred.

Oakland, Cal., March 7th, 1905.

Messrs. J. C. Westphal, T. L. Barker, A. A. Penoyer, Geo. W. Arper, H. A. Butters, Jos. N. Ghirardelli, Chas. H. Butler, C. H. Redington, Hugh Hogan. Gentlemen: I am in receipt of your communication, and in reply will state that in a former communication I paid my respects to the managers of the Contra Costa Water Company, and that I still feel toward them as I did then; but do not think it necessary to drag any personal matter into this communication. I had intended not to express myself further on this matter, but, as you have asked me I will gladly give you my views on the questions submitted by you.

#### Wood Pipes Poor Investment.

I do not hesitate to state that I am of the opinion that wooden pipes for a permanent investment are not the best for conducting water for a large undertaking, such as furnishing water to the City of Oakland. Taking the experience of the gentlemen who have been connected with the Los Angeles Water Company, and whom you quote in your communication, and the many others I have talked with on the subject of wooden pipe for conducting large quantities of water, I do not hesitate to express myself as above. If the views of the people you quote are correct, and the wooden pipes would have to be replaced in a few years at a cost from \$1,500,000 to \$1,800,000, it would be a very heavy blow to the City of Oakland to have to go to the additional expense of replacing the wooden pipe line. It would mean an additional bond election, with an additional increase in the tax rate, and would run the cost of the water plant up to about \$7,500,000, which amount would have to be taken care of by a very heavy increase in the tax rate.

#### Tax Rate Increases Interest.

Just as sure as the tax rate is increased beyond the high tax rate we are now struggling under, the banks will necessarily have to increase the amount of interest they charge on loans. Any increase in the rate of interest by the banks will certainly be a great drawback to the commercial interests of the City of Oakland.

Should the people vote to issue bonds to purchase the Bay Cities Water Company's property the rate of taxation will be increased to such an extent that it will necessarily be very disastrous to building enterprises and the general business interests of the City of Oakland. Why do the Bay Cities Water Company propose to bring their supply of water from an elevation of 1700 feet above sea level down to an elevation of only 30 feet, and then pump it into reservoirs at an elevation great enough so that it can be delivered to the people of Oakland? Is it because the wooden pipe would not stand the pressure to deliver the water directly to the reservoirs? I think it is. Because, by delivering the water directly to the reservoirs it could be delivered from there to the people by gravity; thus savings the expense of pumping.

#### Over Four Per Cent For Taxes.

If the people vote to bond the city for \$5,750,000, it means the increasing of the tax rate this year to meet the interest and redemption on the amount of money necessary to carry the work on for the first year for construction, say \$1,750,000. With an assessed valuation of the City of Oakland, of say \$53,000,000, it would mean that TWENTY-ONE CENTS WILL HAVE TO BE ADDED TO THE EXCESSIVELY HIGH TAX RATE WE ARE ALREADY STAGGERING UNDER. Taking last year's rate as a basis, we will have a tax rate for State, county and city of \$3.10, or an increase of twenty-one cents on the \$100 valuation, which means that every property owner will be forced to pay \$2.10 more on \$1000 assessed valuation than he paid last year, besides paying the excessively high water rates he is now compelled to

pay. The second year the taxpayer will be called to pay forty-one cents more on the \$100 assessed valuation (allowing that the assessable property of the city will increase to \$55,000,000) to meet the interest and redemption on money spent for construction, making a total tax rate for State, county and city of \$3.30 on the \$100 valuation on the basis of last year's rate. This means that every property owner will have to pay \$4.10 more on every \$1000 assessed valuation, besides being compelled to pay the excessively high water rates he is now paying. It will cost to operate and maintain the proposed city's plant:

For operating expenses.....	\$ 60,000
For interest on bonds.....	226,500
For redemption fund.....	143,750

Or a total of.....\$430,250

#### City's Great Disadvantage.

Which amount must be raised by water rate tax, or by a direct tax on the property. The Contra Costa Water Company has a bonded indebtedness of \$3,500,000 at five per cent interest, and in order to maintain their plant against a water fight with the city they will have to raise from the people:

For operating expenses.....	\$ 60,000
For interest.....	175,000

Or a total of.....\$235,000

Whereas, the city will have to raise \$430,250 against \$235,000 raised by the Contra Costa Water Company, or a difference in favor of the Contra Costa Water Company of \$195,250. If the city collects the same amount on the same rate of water as the Contra Costa Water Company does, then the city will have to collect the deficit amounting to \$195,250 by a tax on the property, which will require the adding of about thirty-five cents on the \$100 assessed valuation, and every property holder will be required to pay \$3.50 more on every \$1000 assessed valuation of his property.

#### A Tax-Ridden Community.

The taxpayers of the City of Oakland are tax-ridden to the very limit at the present time, and to add an additional tax by voting bonds to acquire the Bay Cities Water Company's property as offered, without hope of relief, I do not consider it to be a very good business proposition. A very large increase in our tax rate is sure to come if the water bonds are voted under existing conditions. With a tax rate of \$3.24 on the \$100 assessed valuation, which we will be sure to have, what would a prospective investor say at such an excessive tax rate?

What would a prospective manufacturer say at this excessive tax rate?

What would a prospective home-seeker say at such an excessive tax rate?

I think one and all of them would hold up their hands in "holy horror," and say, "I will invest elsewhere."

Yours truly,

HENRY P. DALTON

County Assessor of Alameda County.

### Actress Badly Burned in Mysterious Fire.

#### Sleeps in Midst of Flames.

EDWARDSVILLE, Ill., March 7.—Victory Bateman, the well-known actress, was badly, though not seriously, burned by the unexplained fire in her room in the Leland Hotel here.

During the day she had complained of not feeling well, and had retired to her room. A messenger who opened the door found the bed clothes on fire and gave the alarm. The landlord and others rushed to her room and succeeded in rescuing the woman with difficulty, but not before she had been burned about the lower limbs.

Miss Bateman had been lying in bed with her clothes on, and the bottom of her skirts were burned in several places. She had evidently felt the fire burning her limbs and had attempted to escape, as she was found lying unconscious on the floor a short distance from the bed. A physician found that Miss Bateman was burned about the legs from foot to knee and her hands were seared. She had inhaled a great deal of smoke and did not recover consciousness for a considerable time.

How the fire originated Miss Bateman was unable to state and it is not known by any one else, as she was alone in the room.

### IMPOSTERS ARE AT WORK

Chas. J. Harrington, worthy president of the Oakland Aerie No. 7, Fraternal Order of Eagles, has been informed that parties have been soliciting money from merchants of this city, claiming to be authorized by him, to do so, for the purpose of giving a large banquet by the Fraternal Order of Eagles.

### SHERIFF AUCTION

On Wednesday, March 8, 11 a. m., at corner of Shattuck avenue and University avenue, Berkeley, the entire stock of Furniture, Carpets, etc., of store formerly conducted by Elmer & Russell, comprising in part grand concert piano, organ, solid oak, walnut and maple bedroom suits, chiffoniers, folding beds, handbags, iron and brass bedsteads, parlor upholstery, finest of hair beds, couches, three sewing machines, elegant ranges, imported rugs, Moquet and body Brussels carpets, dining room furniture, hat racks, dressing tables, mirrors, odd rockers and chairs, etc., etc.

# DEFEAT SEEMS FATE OF RUSSIA

## RUSSIAN CENTER IS BROKEN

## AWAIT ORDER TO RETREAT

ST. PETERSBURG, March 7, 7:10 p. m.—A very specific report is circulating in exceedingly well-informed quarters that the day has gone badly with General Kuropatkin; that the Russian center is broken, and that thirteen heavy siege guns have been captured by the Japanese.

If this is true, it is pointed out here, the battle is lost.

ST. PETERSBURG, March 7, 1:59 p. m.—All hope that General Kuropatkin will be able to turn defeat into victory is rapidly vanishing.

The position of the Russian army has been growing increasingly desperate during the last twenty-four hours.

The gravest danger is from the Japanese left, which has been pushed northward on the Sinminin road to a point eight miles northwest of Mukden, where it has joined a flanking column from the west around the village of Tatchekiao, which is located at this point.

The battle raged with terrible bitterness throughout yesterday, with all the reserves hurrying to the scene to block the stroke at the Russian line of communications.

Baron Kaulbars, who is defending this wing, is only able to hold his own. On account of the desperate situation there General Kuropatkin has not attempted to drive home his counterstroke at the Japanese center and his offensive, which was abortive, has been abandoned.

At the same time encouraged by the progress of the main turning movement west General Kuropatkin again pressed forward from the east yesterday against Linévitch, forcing the Russians to give ground.

It is rumored that Kuropatkin has already given the order to retreat and that he is gradually withdrawing forces from the center, but experts declare that he has waited too long; that he must fight it out in his present position, and that it is impossible to extricate more than the remnants of his army.

## Japanese Tell of Victory

TOKIO, March 7, 5 p. m.—The following dispatch was received today from the headquarters of the Japanese armies in the field:

"In the Singking (Yenden) direction the enemy in the neighborhood of Tiets made several counter attacks Monday, which were repulsed. Our attacks against Muchuntan, despite the obstinate resistance, proceed. Gradually part of our force at 8 o'clock Monday night occupied the northeastern heights of Huantan, about four miles south of Muchuntan. In the Bentislupitz direction on Monday afternoon our force occupied a line of heights at Paltzunkou, seven miles south of Ma Chuntan. The enemy retreated towards Sanghlatzu, three miles southwest of Muchuntan. On Sunday night the enemy counter-attacked on our front near Sautai Pass, but was repulsed.

"In the Shakhe river direction, east of here, Sunday night, an enemy coun-

ter-attacked north of Tunghalhan, but was repulsed. Otherwise the situation is unchanged. West of the railroad our force is now engaging the enemy, occupying positions east of Manchou-pao and Erbitaltzu. The enemy is retreating stubbornly.

"On the right of the Hun river Monday morning one division of the enemy with seventy guns counter-attacked the vicinity of Tatchekiao, ten miles northwest of Mukden, but was repulsed."

## Heavy Loses on Both Sides

GENERAL RENNENKAMPFF'S HEADQUARTERS, Oubenzpu, Monday, March 6, midnight.—Events took an unfavorable turn for the Russians this evening.

After a day of marked succession of determined attacks the Japanese ousted the Russians from an important position on the left center of the eastern army. The Japanese are also pressing the right center hard.

The Russians have been ordered to re-take the position at any cost. There were heavy losses today on both sides.

## PHYSICIAN HOLD OT POISON

(Continued From Page 1.)

that it was bitter. She was made sick by the effect that the alleged attempted poisoning had on Mrs. Stanford and what the mental condition of the latter was after coming to Honolulu.

"While we were on the steamer coming from San Francisco to Honolulu," said Miss Berner, "Mrs. Stanford appeared to be sad and troubled in mind; but after our arrival here she recovered her spirits and seemed about as cheerful as usual. We took numerous drives and she seemed to enjoy them very much."

On the day of her death, according to the witness, Mrs. Stanford seemed to be in exceptionally good spirits. On the picnic drive Mrs. Stanford sang a little song and told the driver to proceed slowly, so as to make the drive last as long as possible. As she related this Miss Berner showed much emotion and came near breaking down. She recovered, however, and told about the luncheon of which Mrs. Stanford partook at the picnic. The luncheon lasted from 1 until 1:30 o'clock and after that the little party started on the drive back to Honolulu.

ORDERS ABOUT COSTUME.  
Mrs. Stanford ordered the carriage to stop at a store before she reached the Moana Hotel, and orders were given there in regard to a costume which Mrs. Stanford wanted. The hotel was reached at 4 o'clock. Mrs.

Stanford then went directly to her room for the night before the dinner hour. "When did you next see Mrs. Stanford?" Sheriff Rawlins questioned. "I next saw Mrs. Stanford at 7:30 o'clock when she came to my room dressed as ready for dinner," said Miss Berner. "On the way to the dining-room we stopped at the room of Mrs. M. S. Grinbaum, to whom Mrs. Stanford spoke about the day's outing and remarked how much she had enjoyed it."

At the table Mrs. Stanford told the waiter that the soup would be sufficient for her, as she had eaten a heavy lunch and was not hungry. From the dining room Mrs. Stanford went directly to her own apartment. She asked Miss Berner to get her medicine ready for her. Miss Berner obtained a glass of the Poland water and placed it on the table. Then she got half a teaspoonful of bicarbonate of soda and a laxative tablet and placed them on the table beside the mineral water. That was at 8:15 o'clock, and when the medicine had been prepared Miss Berner left Mrs. Stanford for the night and went to her own room.

"How long before that time was it that Mrs. Stanford had last used the bicarbonate of soda from the same bottle," Rawlins inquired. "The last time, to my knowledge," replied Miss Berner, "was the week after New Year's. I used it at the same time myself. The bottle was in a trunk which Mrs. Stanford took to San Jose. This trunk was sent to San Francisco on January 23d. The bottle was taken from the trunk at the California street residence. It was kept in a room to which the servants had access, but the room was locked at night. When we were getting ready for the Honolulu trip I packed the bottle in a telescopic basket and this basket was placed in Mrs. Stanford's stateroom. May Hunt, the maid, occupied the stateroom with Mrs. Stanford two days after the sailing of the Korea from San Francisco, sleeping on a lounge, and then she became ill and I changed places with her. So far as I know the bicarbonate of soda was not used by Mrs. Stanford or the voyage from San Francisco to Honolulu."

Then the fatal illness at the Moana Hotel was reached by the questioner, and Miss Berner was called upon to describe the recent incidents of the famous woman's death.

HEARD NAME CALLED.  
"Some time after Mrs. Stanford had retired to the right of the dining room," said Miss Berner, "I was awakened from sleep by hearing my name called. I recognized the voice of Mrs. Stanford, and was startled. She said, 'May! May! I am so sick!' were the first words I heard."

"I rushed out and found Miss Hunt hurrying to the room at the same time. We found Mrs. Stanford clinging to the case which she carried with her. 'Bertha, run for a doctor,' exclaimed Mrs. Stanford. Then she walked a couple of steps toward me and said, 'Bertha, I am so sick!'"

"Mrs. Stanford placed one arm around my shoulder, leaning on me, and then I led her back into the room, trying to induce her to sit down."

Miss Berner was very much agitated and it was some time before she could get her wits about her. She told her to talk. Deputy Sheriff Rawlins asked her what next happened and what Mrs. Stanford said. When Mrs. Stanford said, 'I have no control of my body and I think I am poisoned,' I rushed to get a doctor. I called for Dr. Humphris and he came within five minutes. Mrs. Stanford was lying on the floor, and I was holding her head. Dr. Humphris took her to his room and she died there."

CALLS FOR STOMACH PUMP.  
"Yes, she said, 'I think I am poisoned. Won't you get me a stomach pump?'" she said. She said, 'Bertha, tell the doctor what happened before.' She referred to the alleged attempted poisoning on January 14 and so I explained to Dr. Humphris about the first attempt at poisoning, and asked the doctor for some medicine. He said to inject me with the heart, and tried to comfort Mrs. Stanford by telling her not to be afraid. Sunday Mrs. Stanford said, 'What is coming?' Then she uttered the words which were her last. Evidently realizing that her death was close at hand, she exclaimed:

"My soul is prepared. I go to meet my dear ones. Oh, God, forgive me my sins!"

"Then her muscles became rigid. There was a profuse perspiration. I followed by a violent spasm, and Mrs. Stanford died."

Attorney General Andrews questioned Miss Berner in regard to the alleged poisoning of Mrs. Stanford. The witness said that Mrs. Stanford's custom to take the soda water was to take it as a tonic. "I am aware by myself," said Miss Berner, "that Mrs. Stanford's death was a tragedy. When questioned by Deputy Sheriff Rawlins as to whether she thought Mrs. Stanford had committed suicide, Miss Berner said she could only pity anybody who had reached such a conclusion."

"I have not read the newspaper articles in regard to the case, because they would distress me," she added. "Mrs. Stanford on a few occasions has said that she hoped to some day return to her son and her husband, to whose memory she was always devoted, but this was not a frequent subject of conversation with her."

Dr. C. W. Wood, one of the autopsy surgeons, testified that the symptoms indicated by him and the other doctors indicated that Mrs. Stanford's death had been caused by strychnine poisoning. No other cause of death except that indicated by the doctors was discovered. The body had the appearance of that of a woman about sixty-five years of age, and in good health.

"Do you think that death was caused by strychnine poisoning?" asked Deputy Sheriff Rawlins.

"The post-mortem appearances," replied Dr. Wood, "indicated that strychnine poisoning had caused death. The body had committed suicide. Miss Berner said she could only pity anybody who had reached such a conclusion."

"I have not read the newspaper articles in regard to the case, because they would distress me," she added. "Mrs. Stanford on a few occasions has said that she hoped to some day return to her son and her husband, to whose memory she was always devoted, but this was not a frequent subject of conversation with her."

No other cause of death except that indicated by the doctors was discovered. The body had the appearance of that of a woman about sixty-five years of age, and in good health.

"Do you think that death was caused by strychnine poisoning?" asked Deputy Sheriff Rawlins.

## CHINESE DEMANDED MONEY

Insane Chink Wanted  
\$30,000 From Mrs.  
Stanford.

SAN FRANCISCO, March 7.—It has been learned today that Mrs. Stanford had been pestered for a number of weeks before the attempt was made to poison her on January 14 by an insane Chinese named Wong Toy Wong.

The fellow wrote her a letter, in which he demanded that she give him \$30,000, which he said he had on deposit in the Leland Stanford Jr. University Trust Bank, a mythical institution.

The man hung around the Stanford residence until he was arrested by Detective Cleary of the Morse Detective Agency.

He was sent to an insane asylum on February 9.

Both the Morse detectives and the local police deny they ever suspected this Chinese of poisoning Mrs. Stanford.

It is known, however, that they spent considerable time in tracing his movements.

Up to the present time the chemists have found no strychnine in any of the organs of Mrs. Stanford examined by them. It is further stated that if the chemists testify today at the Coroner's inquest they will testify to this effect, unless further tests to be made reveal the presence of strychnine.

Thus far it is said careful experiments fail to show a trace of it, but it is believed that this statement does not apply to the bottle of bicarbonate from which Mrs. Stanford took a portion of the time before her death.

The statement that Miss Berner was under arrest is absolutely denied. She has never been under arrest or even held on suspicion.

## SPLendid PLAY AT LIBERTY

"OLD HEIDELBERG" ONE OF THE  
CLEVEREST PRODUCTIONS  
EVER SEEN.

One of the most complete and artistic productions that has ever been seen in a local theater is being presented at the Liberty Playhouse this week. It is the "Old Heidelberg" version of "Old Heidelberg," that delightful story of student life in Germany, and is easily the best thing in every respect that has yet been produced at the Liberty. The cast was selected from thirty-three players, with respect to their particular ability to portray certain roles, with the result that it is the most perfect and perfect thing seen here of late. Scientifically nothing is lacking and the intention of the producers and the company, but particularly good is the work of Jane Kelton as Kathie and of Landers Stens as the Prince. George Woodward, Harry Sawyer, Oran Humphrey and Elmer Booth also play their roles splendidly.

## THIEF CAUGHT IN THE ACT

SAN FRANCISCO, March 7.—After several days and nights of watching on the part of a detective, the thief who has been robbing the register of Selby Brothers' store at 118 Market street, in this city, for some time past, was caught in the act this morning at 7 o'clock.

The thief is George Horezer, aged 21, and he had been taken into custody on charge of burglary.

Selby Brothers also have a store in Oakland and have on previous occasions been victimized by either thieves or swindlers.

## COTTON BROS. GET NEW TRIAL

DAMAGE CASE BROUGHT BY  
TERRITORY WILL BE HEARD  
AGAIN.

HONOLULU, March 7.—A decision by cable has been received from Circuit Judge George D. Gear, who is in San Francisco and has been in a sanitarium suffering from an operation.

His term as judge is about to expire and several matters remain undecided which were argued before him and submitted.

The cable decision is in the case of the territory against Cotton Brothers, in which a verdict awarding the territory \$25,000 damages was given for the loss of a dredge, used by Cotton Brothers at Pearl Harbor and rented by the firm from the territory.

Judge Gear called granting the company's motion for a new trial, and the territory of the long distance decision is questioned.

## Loses His Wife, Also His Bank Roll

Coin Went Away in Her Dress

Alleging that he has been cruelly deceived by his wife, Frank D. Cruess began an action of divorce against Elsie L. Cruess this morning on a charge of cruelty. He states that while he has conducted himself as a faithful and loving husband, his wife has been conspiring against him and a few days ago deserted him, taking with her \$120 he had saved up and leaving him a note to the effect: "Don't look for her, as she would never find her."

In his tale of trouble, he says that when he married her on November 12, 1904, he thought he was the luckiest man in the world and had drawn a prize in the matrimonial lottery, but he very soon found out that his vision of happiness was not warranted and was soon dispelled by his wife's slovenliness and vulgarity.

But that was not all. He was trying to save his money, and to this end was about to put it in a bank, but his wife dissuaded him from doing so and told him she would save it up in her dress and keep it for him better than a bank. When he had not together \$120, she says, she left him, taking the dress and the money along with it.

William Johnson has brought suit against Ella Johnson for divorce on the ground of desertion. He states that they were married in 1892 at San Jose and a year ago she left him.

## KINIRY PLACED ON TRIAL FOR HIS LIFE

Jurors Are Being Secured to Hear  
Evidence Against Accused  
Murderer.

The delayed trial of David Kiniry, charged with the murder of Policeman James Hymie Smith, was begun this morning before Judge Greene and a jury. The entire morning was spent in the examination of jurors to listen to the evidence in the case, and it is expected that it will take until tomorrow to secure the tale of twelve men to pass upon the guilt or innocence of the prisoner.

Seated in the court room were a large number of jurors, witnesses, officers and people interested in the proceedings, and from the present indications, the case will be watched with much interest by a crowd of persons curious to see and hear the evidence against the self-confessed, desperate young criminal.

Kiniry, hardly more than a youth, came into court, closely attended by deputy sheriffs, as it is believed, that he would not have a chance to escape pass without taking advantage of it. He was clean shaven and was dressed in his best for the occasion. He is tall and thin, with rather large, cold blue eyes. Considerable of the white show on the under side and gives the whole eye a glassy appearance. He has a few dark, curly, and is an adept at climbing a post of a porch and gaining access to the upper story of a house, and it was while waiting to rob a house while the inmates were at dinner, with his partner by the name of Goldstein, that he was placed under arrest by Policeman Smith, who was shot without warning. He returned the fire and killed Goldstein, but Kiniry escaped. The prisoner has admitted that he fired the shot, and says that Goldstein alone is responsible for the death of the policeman.

Kiniry is represented by Attorney Frick, who is prepared to make a hard struggle to save the life of his client. He has been retained by Kiniry's mother, who while not present in court this morning, is stated to be with her son when the taking of the testimony was begun. He left her when he was a lad of eleven to take care of himself and has seen little of her since but when in extremely he appealed to her and her husband raised what money they could and employed counsel to defend him. Her home since her marriage to James Watson, her present husband, has been in the East but she left her home to come out here and be with her son.

Captain Bradish of the Los Angeles police force with policeman Paul Flamm, who was lying on the operating table in the hospital by a gold tooth, which was particularly mentioned in the description made by the police, and Harrison was the policeman who shot Kiniry while making an attempt to break into a house and cause the capture of Captain Bradish. Kiniry listened the several statements made by Kiniry while under detention there.

## Will Not Be Impeached, But He is Scolded in Committee Report.

SACRAMENTO, March 7.—Superior Judge Lucas F. Smith of Santa Cruz will not be impeached in the recommendation of the committee appointed by the Assembly to investigate the charges presented against him is adopted. The committee today presented its report which was ordered printed in the Journal.

The findings of the committee, which practically exonerate Judge Smith of the allegations presented against him, cover eight legal typewritten pages. Forty-eight witnesses were examined by the Legislature and a mass of records and evidence was considered.

In regard to the charge of favoritism to have been extended to Attorney Charles M. Cassin, the report says in part:

"Judge Smith has allowed certain attorneys to appear before his court to take certain liberties in the courtroom that should not be allowed, and has severely censured other attorneys for taking liberties of less consequence."

It is declared in the report that Judge Smith committed an inexcusable error in law in striking from the files a complaint in which he was a party defendant, but that his action in this case was of sufficient to warrant impeachment.

Referring to another section of the charges presented against Judge Smith the report says:

"The evidence introduced shows that either some of the lawyers and litigants in Santa Cruz county are unruly and disrespectful to the court, or that Judge Smith, by his conduct as a judge, has in his part failed to command the respect due to the court and to uphold the dignity of the judiciary. The committee is of the opinion that the evidence further shows that he has in an unusual manner for a judge favored some attorneys to the disparagement of others, and the preponderance of the evidence in this respect is on the side of the lawyers and litigants who claim that the judge has in some instances shown unwarranted partiality."

The report is concluded by urging that no motion be made for the impeachment against Judge Smith for want of sufficient evidence to sustain the charges.

## HOTEL ARRIVALS

METROPOLE—Joseph H. Clark, San Francisco; Hubert Hartman Jr., Belleville, Illinois; Hern Hartman, Belleville, Illinois; George Thompson, Concord, New York; J. S. Hobbs, Chicago, Ill.; P. A. England, Budsfield, Michigan; Mr. and Mrs. C. E. Drayton, Denver; Mrs. G. W. Ogden, Milwaukee, Wisconsin; Miss Marie Church, San Francisco; Mr. and Mrs. J. W. Zollars, Hellsboro, Mexico; Mrs. S. J. Bisey, San Francisco; Miss Josephine Gleason, Mariborough, Massachusetts; Mrs. J. S. Hobbs, Chicago, Illinois; Mrs. M. E. Parvelli, Minto, Illinois; Mrs. V. M. England, Beesville, Michigan; Mrs. E. W. Russ, San Francisco; Mrs. W. E. Florida, Florida; Edward Rose, San Francisco; B. O. Donnell, San Francisco; Mrs. O. S. Ford, Oak Park avenue; Miss Jennie Kennedy, Denison, Texas; Mrs. J. C. ## Body is Mangled by Many Trains Man Whose Name May Have Been Stanley Killed at West Berkeley.

BERKELEY, March 7.—The mangled remains of a man whose name may have been Stanley were found this morning at Third and Virginia streets, in West Berkeley, beside the Southern Pacific tracks.

From investigation made by the authorities, the name of the deceased might have been Stanley, a recent arrival from Philadelphia and who is said to have left relatives living at Point Richmond.

The clothing of the body found, beside the tracks was torn into shreds and the remains had been so frightfully mangled that it is supposed that a dozen or more trains had passed over the body during the night.

The remains were found by Conductor Cameron and brakeman Bull of the West Berkeley local train. Disembodied portions of the body and clothing of the deceased were scattered along the tracks for many rods.

A bundle containing a clean shirt, evidently the property of the deceased, was found by the train crew.

The remains were collected and

brought to the morgue by Deputy Coroner Straight. The clothing was searched, but nothing was found by which an identification of the body could be made.

An investigation along the West Berkeley water front was made by the authorities and there it was learned that several reports that a man answering the description of the deceased had passed that way last evening.

The man was spoken of by D. V. Oser at the Chicago Hotel and to Oser the stranger stated that his name was Stanley and that he was a recent arrival from Philadelphia on his way to visit relatives at Point Richmond.

The man killed by the train was about fifty years of age, five feet ten inches in height and wore a black mustache and goatee.

Deputy Coroner Straight states that it is his opinion that the dead man and the stranger noticed on the West Berkeley water front are identical.

A search is being made at Point Richmond to locate if possible the relatives of the deceased.

already reached three figures. The club was a happy inspiration, as there had been no purely "stag" club in Richmond up to the time of its organization. Much enthusiasm is manifested by the members and a very successful future is predicted for the institution.

**WORK PROGRESSING.**  
The tracklayers on the Oakland extension of the East Shore and Suburban trolley line have reached a point opposite the Bay View Park Company's plant among the big trees, at the old dairy east of Stege. The poles are set almost that far and wiring is progressing only a short distance behind.

The Transit Company has it already in operation to the county line and has built a small shelter station at the terminus. There is only a gap of about one mile between the terminal, and if the weather remains good a few more days will see the lines joined.

It is proposed when the main line is finished to run a branch line through the Bay View Park tract, from San Pablo avenue down to the Southern Pacific station at Stege, to be operated in conjunction with the cars on the main line. This would give an outlet to the growing community growing up around the manufacturing district at that place.

**NEWS NOTES.**  
Mrs. Sydney Hulao visited friends in San Francisco recently.

Hugh Adams of Fresno is a visitor here. David Wilson, a brother of Mrs. Julius Steffert, has moved here from Healdsburg and, with his family, occupies the Falla house on Terrace avenue.

**WILL OPPOSE THE  
PROPOSED BONDS**  
Andrew Krueckel does not think Bay Cities' scheme will carry.

**Editor TRIBUNE.**—I am opposed to the proposed bonds for the acquisition of a municipal water supply because I don't think it would be good business sense to accept the Bay Cities proposition and invite competition and, therefore, costly litigation.

**ANDREW KRUECKEL,**  
1184 Washington street.

**HE LIKES THE  
BOND SCHEME**  
George Edwards thinks bonds would be a good thing.

**Editor TRIBUNE.**—I am overwhelmingly in favor of the Bay Cities project. I have read the discussions on the subject and followed the matter along in the newspapers, and I come to no other conclusion than that the project is a good one, the offer to the city is exceptionally fair and even generous, and I have no doubt that the plan will be first class. I think it is outrageous the attacks that are being made upon the proposition through the influence of the Contra Costa Water Company. But of course such were to be expected when we undertook to put this municipal plant in, and put the dollar into the hands of the municipalities. The water works in the Australian cities sell water at a profit and credit the profits to the tax rates. I think the private companies made while they were operating the water systems, and they carry the profits to the credit of the tax rates thus reducing taxation.

The case would be the same in Oakland if the city plant, instead of reducing the water rates twenty per cent when the plant starts in operation, should sell water at the same price as the Contra Costa. Costa is selling it, and credit the profits to the tax rates. This would reduce taxation, according to Mr. Tevis' letter, nearly twenty per cent on the dollar, bringing it down to the level of the dollar of which Mr. Mott speaks. Anything that would be in favor of the Bay Cities project please consider said, further words are unnecessary.

**GEORGE EDWARDS,**  
480 Seventh street, Oakland.

**BANK CLOSED.**  
YARMOUTH, N. S., March 7.—The Bank of Yarmouth has closed its doors. W. H. Redding & Sons, boot and shoe dealers, have made an assignment for the benefit of creditors, owing, it is said, \$400,000, of which \$250,000 is due to the bank.

The capital of the bank of Yarmouth is \$300,000. The last statement, issued on December 31, 1904, showed deposits of \$400,000.

**AGAINST DISARMING.**  
LONDON, March 7.—In the House of Commons in committee of supply the many estimates, George McCrea (Advanced Liberal) moved a motion regretting that the government had not entered into negotiations with foreign powers looking to a general reduction of the naval armaments.

The motion was defeated, the government majority being 55.

## JOHN L. DAVIE ANNOUNCES HIS PLATFORM

Independent Candidate for Mayor  
Issues an Address Outlining the  
Policy He Will Pursue.

JOHN L. DAVIE.

John L. Davie, independent candidate for Mayor, has issued the following:

Address to the citizens of Oakland:  
In announcing my candidacy for the office of Mayor, I deem it due to the people that I should publicly declare, before seeking their suffrages, the principles and policies which shall govern my administration. In case I am chosen as their Chief Executive at the coming election.

1st—I am an independent candidate for the office and, therefore, under no obligation or subservience to any political party, combination, or boss; but, in the performance of my duties, will, as God gives me the wisdom, act in the interests of the whole people without favor or hope of reward, except that accorded to a servant for services faithfully performed.

**WILL STAY IN HIS OFFICE.**  
2nd—"I hold these truths to be self-evident" That the city of Oakland, from every natural point of view, is the most admirably located of any city on the continent, and her climatic conditions are unsurpassed by any city on earth. It is also a self-evident truth that she is entitled to all the benefits to be derived from an active, efficient, and economical administration of the laws; that those in charge of her municipal affairs should devote their entire time and their whole energies in building up the city, and make her what Nature planned she should be, one of the beauty spots of the earth.

If elected, I promise the voters and people of this city to devote my whole time to their service and make every dollar spent count 100 cents in promoting and upbuilding the municipality of Oakland.

**FAVORS ECONOMY AND IMPROVEMENT.**  
3rd—I am not in favor of parsimony in either public or private affairs; but in public, as well as in private life, frugal economy and rigid honesty should be the watchword. This is especially true and should govern every public servant entrusted with the distribution of public funds, which are so often regarded as a sort of official prey to be dealt out to the spoilsman who have promoted the election of their friends to office and by this means seek to control their actions when elevated to power or place.

This sort of favoritism will find no lodgment in the Mayor's office, if the writer hereof is placed at the helm. I also declare that during my term of service, the rate of taxation shall not exceed the \$1.00 limit, with which tax, economically disbursed, every interest in the city would be protected, and her material development advanced, in a greater degree than has characterized the administration of her affairs for the past nine years.

**FOR PARKS AND GOOD STREETS.**  
4th—The streets of Oakland are now in such a dilapidated condition as to be a menace to human life and a disgrace to a city of even the fifth class. Instead of one which is second in the State both in point of wealth and material resources. My first attention, if elected, will be devoted to remedying this evil, which can be accomplished only by well-directed and persistent effort, which I gave to the subject during my former administration.

Public parks and places of resort for an idle hour for women and children will receive my most fostering care. The energetic promotion of the interests of the public schools, which lie at the foundation of the republic, shall ever enlist my earnest solicitation and support, and

these, together with a determined effort to render more efficient the fire and police departments of the city, shall receive every consideration at my hand.

**FAVORS MUNICIPAL WATER WORKS BUT OPPOSES GRAFTING SCHEMES.**  
Fifth—I am in favor of the municipal ownership of water and all other public utilities, when the same can be acquired at a fair price; but am opposed to any schemes or grafts by which this city would be plunged into a maze of bonded indebtedness, and therefore denounce the so-called Bay Cities water bonds as an attempt to saddle the city with a debt of six millions of dollars, which would paralyze our industries for the next fifty years.

It would drive capital and investors from Oakland as certain and effectually as though we were attacked by an epidemic of Asiatic cholera. Our taxes are already too high, and if we desire to build up the city, we must reduce instead of increase this burden. Let us first turn our attention to increasing our taxable property by inducing investors to buy property and settle here, and we can then secure water and other public utilities, without laying any embargo upon the city's growth.

**POINTS TO FORMER RECORD.**  
Sixth—I beg leave to call the attention of the voters to the following statement of facts and figures which are taken from the report of the City Auditor of Oakland, and which should be in the hands of every voter of this city.

My administration in 1895 and 1896 cost the city \$1,603,755.82.

My immediate successor, W. R. Thomas, ran up the scale to \$1,812,475.81, or \$208,721.89 in excess of my figures.

Thomas was succeeded by R. W. Snow, whose figures foot up \$1,797,151, leaving a balance in his administration in favor of mine in the sum of \$193,324.71.

Then Anson Barstow took the helm and the city paid during his stewardship \$1,893,660. As compared with my efforts, he was \$128,506.73 in excess.

**PROMISES TO STAY WITHIN THE DOLLAR LIMIT.**  
This brings us to the present incumbent, who distances all of his predecessors to the tune of \$2,082,373; in excess of my expenditures \$478,620.16.

I will here add that my administration was run on the \$1.00 limit for the first year, which was raised by the City Council to \$1.10 the second year against my veto; but my administration was even then \$394,140.60 less than my immediate predecessor.

If elected, I will reduce the present levy of \$1.25 to \$1.00, which is ample, if properly expended, to conduct the affairs of this city. I will also, as I did during my last term, devote my whole time to the city's affairs in improving her streets, parks and school houses, which have all been sadly overlooked for the last many years. Very respectfully,

**JOHN L. DAVIE.**

**THE ORIGINAL.**  
Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and in consequence of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children.

## O'ERLOOK OCEAN WAVE

New Penitentiary Will be  
Built on Island of  
Anna Cappa.

(Special to THE TRIBUNE.)

SACRAMENTO, March 7.—The first step toward the erection of a new penitentiary for the State of California has, at length been taken by the Senate, in the declaration that such an institution is necessary and the setting of a time for consideration of a resolution in appointing a committee of Senators to consider the question and report on the matter at the next Legislature.

**ON AN ISLAND.**  
The new place of punishment—because it will be, in the main, a place of punishment and not a reformatory—will, in all probability be located in the south and will be built upon novel lines. The purpose which now seems to be entertained, is to transform Folsom and San Quentin into reformatory institutions and to tenant the new penitentiary with criminals of whom there is no hope of reformation.

**THE RESOLUTION.**  
The resolution is as follows:  
"Whereas, There have been a number of bills passed by this Legislature carrying large sums of money for the purpose of enlarging and increasing the capacity of our State prisons; and, whereas, The best modern facilities of penology advise the classification of prisoners in order that reformation of convicts may be accomplished; and, whereas, Our present prison facilities do not permit of this desired reformation of persons convicted of crime; therefore be it,

"Resolved, That a committee of three hold-over Senators be appointed by the President of the Senate to act in conjunction with the State Board of Prison Directors for the purpose of considering and reporting on the matter of the construction of a new penitentiary and the election of a suitable site therefor; and that the members of said committee shall be allowed out of the contingent fund of the Senate."

The measure was introduced by Senator Belshaw and in speaking on the subject, the Senator said:

**GOOD CHANCE TO SWIM.**  
"Where will the new penitentiary be located? My idea is that it ought to be built in the southern part of the State, and that it should be made a new institution. We could thus use both Folsom and San Quentin as reformatory institutions.

"I would favor the locating of the new penitentiary on an island, one of many islands in the Santa Barbara channel. The island which would answer the purpose is that of Anna Cappa, which is located about 27 miles from shore. The prisoners could be isolated there because isolation ought to be one of the punishments of people who will not be reformed."

**CELL FOR REACH.**  
The idea of a penitentiary of the manner of that outlined by Senator Belshaw, was suggested in the report of the State Board of Charities and Corrections, which has been synopsized in this correspondence. There, too, was suggested the idea of Folsom and San Quentin being made places of reformation with a cell for each.

Isolating the proposed transformation of Folsom and San Quentin is concerned, the Legislature has already started to do its duty by passing the McKee and Coggins bills which carry an appropriation of \$500,000. This sum is to extend over six years, and it is expected that it will be the means of affording a separate cell for each prisoner.

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution. It is a simple, safe, and reliable remedy. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

**ATTRACTIONS AT  
THE THEATERS**

**THE NOVELTY.**  
The change of bill at the Novelty theater this week brings before the public some of the cleverest people in vaudeville. The moving pictures are unusually good. The Entertainment still continues to attract many amusement seekers.

**THE EMPIRE.**  
At the Empire this week the program is thoroughly interesting and the large audiences have been more than pleased. The motion pictures are very amusing, telling old story of "All Baba or the Forty Thieves."

**THE BELL.**  
The bill at the Bell theater this week is one of the best that has been seen in many months. There is a wide diversity in the acts and all are good. The moving picture "The Storyway," is something out of the ordinary.

**DR. A. S. KELLY**  
Has removed his office to the Physicians' Building, 1111 Washington street, and corner of Forty-sixth street. Office hours: 2 to 4 p. m. and 7 to 7:45 p. m., except Tuesday and Friday evenings. Phone: 6371. Office, 6371, residence, Black 371.

**Trunks Delivered Free**  
If you trade with A. B. SMITH CO., 116 Ellis street, San Francisco, you will get a trunk and most up-to-date trunk and leather goods house in Frisco.

## Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

Royal Baking Powder Co., New York.

**LAWRANCE D'ORSAY MAKES A HIT  
AT THE MACDONOUGH THEATER.**

Comedy, pure and simple, without even the semblance of a suggestive situation or line, is the best possible description that could be given of "The Earl of Pawtucket," which Lawrence D'Orsay presented at the Macdonough Theater last night.

The entire action of the play takes place in the Waldorf-Astoria Hotel in New York City, and the scenes were the acme of the scenic artist's ingenuity.

This was especially true of the final act, showing the famous Turkish room in that hotel, and was beautiful.

Charles Harford opens tomorrow night in "Don Quixote de la Mancha" and on Thursday he plays "Othello."

the money would be tied up waiting for water which could not be delivered on account of the Contra Costa litigation, notwithstanding the fact that the law says that whenever there is any litigation over water a bond may be given and the water used right along.

Then, if such a plant were put in the people would be squeezed to death by taxation because they would not take water from the municipal plant but would continue to take water from the Contra Costa plant which would have to do so. They would keep taking right along from the Contra Costa, and support the municipal plant, and their taxation which would greatly increase taxes.

And so the thing goes throughout the whole region. There is not a limb of this entire Bay Cities tree that has not got some Contra Costa buzzard in it, squaking and cawing this or that objection which when looked into is found to any amount to nothing.

I do not have to look on the Bay Cities' side of this matter to convince myself that the Bay Cities project is all right. I need only look at the objections raised against it by the Contra Costa, that satisfies me.

That is why I shall vote for the bonds.

**Choice Cut Flowers.**

**CASTORIA.**  
The Kind You Have Always Bought.  
Beware of cheap imitations.  
Signature of Dr. J. C. Schellhaas.

**WHY HE WILL  
VOTE FOR BONDS**  
J. T. MITCHELL LIKES THE  
BAY CITIES'  
PLAN.

**Editor TRIBUNE.**—I never saw any proposition so completely plastered with objections as the Bay Cities is made to appear by the Contra Costa. If one would listen to what these Contra Costa writers are saying about the Bay Cities proposition he would conclude that the Mayor, City Council and City Engineer, who are recommending this matter to the people, were either each and several insane or they are the greatest set of liars and rascals who ever got together in California.

Let us see a few of these objections as I can now remember them through reading the newspapers:  
No water to speak of falls in the mountains, consequently the Bay Cities cannot deliver twenty millions of gallons a day. The Bay Cities does not pretend to undertake to deliver water, it only delivers "capacity."

The properties of the Bay Cities Company are threatened with litigation by somebody, hence they haven't got a merchantable title.

The waters are impure and W. H. H. Hart's blue sky factory could not locate on the Oakland shore on that account.

The wood stake pipe is no good and if it is put in we will be drinking it up by the bucketful in Oakland, because the water will seep out of the inside. This proposition is advanced not by Engineer Arthur Adams of the Contra Costa, who strongly favors the wood pipe, but by Engineer John P. Irish. Mr. Irish is not much of an engineer on hydraulics, but he is great on pneumatics, especially that branch that deals with hot air.

The city would have to sell the entire bond issue at once, despite the fact that the law does not allow it to do so, and

## INSULTS WOMAN AND IS SHOT

PEARL FRISBEE OF RICHMOND  
WOUNDS MAN WHO ANNOYS  
HIS WIFE.

RICHMOND, March 7.—Edward Hall, a laborer, was shot and probably fatally wounded last evening by Pearl Frisbee, an electrician, who claims that he acted in self-defense. The shooting occurred shortly before 9 o'clock in front of the Kentucky bar on McDonald avenue. Hall was taken to his home, where he is being attended by Dr. Abbott, who states that his patient has but small chance of recovery.

Frisbee was arrested by Deputy Sheriff D. S. Eyer and taken to Point Richmond. From the best information obtainable, it appears that Hall, who was under the influence of liquor, was annoying Mrs. Frisbee, who was attempting to board a street car. The woman repelled his advances and finally went to her husband, whom she found in a neighboring saloon. Frisbee immediately hunted up Hall, whom he found in the front of the saloon, and according to his own statement he struck Hall several times, knocking him down. The latter, so Frisbee says, placed his hands on his hip pocket, and Frisbee, claiming that he feared to be shot, drew his own revolver and fired. The bullet struck Hall in the shoulder and ranged downward through the lungs. From this direction it appears that the shot was fired by Frisbee on the ground. The affair has caused much excitement in Richmond, where Frisbee has been hailed as a hero.

**PIONEER CLUB.**  
Membership in the newly organized Pioneer Club is increasing rapidly and has

**Worn Out?  
Run Down?**

I will gladly give you a full dollar's worth of my remedy to test.

Nothing to deposit. Nothing to promise. The dollar bottle is free. Your Druggist on my order, will hand you a full dollar's worth and send me the bill.

Why do you work and worry and exhaust and strain and over-indulgence break down constitutions and make men and women worn out and run down and listless and nervous and discouraged and morose? Because they weaken the tiny, tender nerves on which life itself depends.

Not the nerves you ordinarily think about—not the nerves that govern your movements and your thoughts.

It does no good to treat the ailing organ—the irregular heart—the disordered liver—the rebellious stomach—the diseased kidneys—nor to put in a foot pump. But go back to the nerves that control them. There you will find the seat of the trouble.

It does no good to take stimulants and narcotics, for these, at best, is but a temporary effect which merely postpones the final day of reckoning.

There is nothing new about this—nothing any physician would dispute. But it remained for Dr. Shoop to apply this knowledge—to put it in practical use. Dr. Shoop's Restorative is the result of a quarter century of endeavor along this very line. It does not dose the organ to deaden the pain—but it does go at once to the nerve—the inside nerve—the power nerve—and builds it up, and strengthens it, and makes it well. This is the end of all vital troubles. That is the end of sleepless nights and restless days. That is the end of "nervousness," the end of brain fog and fatigue.

If you are worn out, run down and have never tried my remedy, merely write and ask. I will send you an order on your druggist which he will accept as gladly as he would accept a dollar. He will send you for his order a standard sized bottle of my prescription, and he will send the bill to me. This office is made only to strangers to my remedy. Those who have once used the Restorative do not need this evidence. There are no conditions—no requirements. It is open and free and fair. It is the supreme test of my limitless belief. All that I ask you to do is to write—write today.

For a free order for a full bottle of my Restorative, send your name and address to Dr. Shoop, Box G-260, Racine, Wis., which book you want.

Mild cases are often cured by a single bottle. For sale at forty thousand drug stores.

**Dr. Shoop's  
Restorative**

# LADIES ARE ARGUING A SERIOUS QUESTION

Here Is an Entire Explanation of the  
Co-operative Piano Clubs  
Being Formed.

Many people do not yet understand just what these Co-operative Piano Clubs mean. Scores of inquiries are coming in every week asking if it is a lottery, asking if there is to be a drawing of pianos, and how many pianos are put up for winning numbers.

Now, if you care for music, if you ever expect to have a piano in your home, if you ever expect to be able to play, read this announcement carefully. It means money to you, it means a piano to you and best of all it means the clearing up of a whole lot of misunderstanding.

WHAT THESE CLUBS DO NOT MEAN.

First of all this Co-operative plan is not a scheme, it is a business principle. It is not a lottery, there is no drawing, there are no lucky numbers, you don't buy a ticket AND YOU DON'T PAY DUES.

WHAT THESE CLUBS DO MEAN.

The Co-operative plan is a plan formulated by the Department of the United States, John Wanamaker, John Wanamaker was selling books, wholesale. He said:

"The books that I sell to the retailer for 53 cents, he sells for \$1.50. He doesn't make 57 cents on that book. He has to spend half of that 57 cents in selling the book. Instead of selling that book to him, why can't I sell it direct to the people who will read it? Why can't I save one-half of that 57 cents and give the other half to my readers?"

WHAT JOHN WANAMAKER DID.

In one sale of the Century Dictionary, John Wanamaker sold his buyers the people—\$102,347, and he did it by the co-operative plan. Instead of selling like the retailer, one book to one person at one time, he formed book clubs, advertised them, and sold 75,000 dictionaries to 75,000 people at practically the same time.

THE CLUB PLAN IN A NUT SHELL.

That is the whole plan in a nut shell. Wanamaker sold books. We are selling pianos. It costs almost as much to sell an article as it does to make it. We are eliminating that cost of selling. We are forming four Clubs of 125 members each in order to sell pianos. We are cutting practically the same time. We are cutting out the little man who sells them.

one at a time and selling them from the factory direct to you. There was 57 cents saved on a \$1.50 book. There is as much as \$150 saved on a \$500 piano.

THINK THIS OVER.

Here is what we want you to think about: If five hundred people buy their pianos at practically the same time, it is not the same as if one person bought five hundred pianos? Do you think the man who buys 500 pianos pays as much apiece for them as you pay for yours when you buy one alone? If you and 149 other people buy pianos together, do you think you ought to get them cheaper?

YOUR ANSWER.

If you have read this far, one of two things is sure: either you have a piano, or you have been fooled so many times you can't believe that we will do what you know now that we can do—that is save you from \$50 to \$150 on every piano. Now, if you can't believe it, it will take you just half an hour to find out for sure.

HERE IS HOW TO FIND OUT.

Every piano we carry is a standard make piano. Either you or some of your friends will know the regular price of it. Come and bring them with you. It won't take you five minutes to see that we are doing what we say we are and what you know is possible for us to do on this co-operative plan.

\$5 DOWN.

The deposits on this Club plan are even lower than the regular terms. \$5 down is enough to put a fine new, high-grade piano into your home and at a guarantee saving besides of from \$50 to \$150—depending of course on the cost of the piano you buy.

THE CLUBS ARE FILLING.

These Clubs are filling rapidly. People are quick to seize an opportunity such as this. If you want a piano on this Club plan, COME NOW. Club A, the Club with the medium grade pianos at the smallest deposits is almost filled. Next week may be too late. We are open evenings during the sale. Remember the name and the number, POMMER-ELLERS MUSIC COMPANY, corner of Twelfth and Chestnut, Oakland. Twenty famous makes of pianos in this Club plan. See them. Don't delay.

## LABORATORY FOR BERKELEY DESPITE PROTEST.

Measure Proposed For the District  
Pound Which Offers a Fortune  
to Energetic Rustlers.

(Special to THE TRIBUNE.)

SACRAMENTO, March 7.—The Waste bill appropriating \$4000 for a bacteriological laboratory at Berkeley under the auspices of the State Board of Health passed the Senate, but only after a warm protest from Senator Shortridge. Senator Lukens, however, came to the rescue with successful results. In his objections, Senator Shortridge said: "Let us get all the appropriations for the University together so that we may see what they amount to and then act upon them intelligently. If the University of California needs a bacteriological laboratory, the request should come to us through the Board of Regents. This is adding more officials, and creating more expenses under a State board which has not the standing here of the Board of Regents. If they wanted this laboratory, it should have been stated by a Committee of the Institution and in a direct way from the State Board of Health. If the Medical Department of the University wants the laboratory, why doesn't it say so?"

Sensor Lukens said the bill was a good one. It came with the recommendation of a good committee, the Finance Committee of the Senate. It provided for the equipment of a laboratory in which bacteriological investigation was to be made. There was now at the University everything required for such a laboratory with the exception of the apparatus necessary to make investigation referred to. He thought the bill ought to pass.

Sensor Belsaw asked if it were not a fact the laboratory was located at the University because that was the only place in which the State Board of Health could do its work.

Sensor Lukens replied that such was the case.

Sensors Leavitt, Lukens and Simpson voted in favor of the bill. Senator Mattos was not present at the time.

LITTLE COUNTY OFFICES.

The Assembly has decided that there is no necessity for the keeping of all county offices open all day in the more sparsely settled counties of the State, and accordingly refused passage to the

McCourtney bill on the subject. Assemblyman Weyand gave notice to reconsider.

MONEY FOR STATE FAIR.

There is no doubt now that the State Agricultural Society will receive money with which to start out anew and strive to so conduct its affairs as to receive the commendation of the Legislature. The organization is expected to secure an appropriation of at least \$230,000 and some of its advocates claimed that it could not get along with anything less than that sum. Now, however, these same advocates are satisfied to receive \$60,000 which is to be expended in the preparation of grounds and erection of buildings in which the State Fair of the future are to be held. The Senate has concurred in the amendments to the McKee bill which cut the amount in one bill from \$100,000 to \$60,000. There is no doubt that the Governor will approve of the measure.

DISSATISFACTION.

Some of the Senators expressed themselves privately that they looked upon the State fair as of little use in the development of agriculture. They held that they were unable to see that anybody made a demand for this annual display save people living in and about Sacramento, and that the whole thing was simply intended to attract visitors to Sacramento at the expense of the State. These Senators also claimed that when the appropriation was referred to early in the session, it was coupled with a statement that the county of Sacramento would contribute towards the building of the fair grounds and grandstand which would be required upon the grounds. Instead, however, they say the county has not contributed a dollar to the fund; neither has it offered to do so.

ANTI-RACE-POL BILL.

The Espay bill, which passed the Assembly, and prohibits the selling of pools in race tracks, now before the Senate Committee on Public Morals.

COUNTY GOVERNMENT ACT.

The county government act, affecting Alameda county, has passed the Senate by a vote of 21 to 9, carrying with it the amendments made to it, as were shown two weeks ago in the report of the proceedings of the caucus of the State county delegation with respect to the number of employees which shall be allowed each county official and the salary

## A PLAIN STATEMENT ABOUT

# Pragers Green Trading Stamps

AND SOME OTHER THINGS

About one year ago the daily newspapers of San Francisco refused to accept advertisements containing mention of Green Trading Stamps. The reason given for that action was that the Green Trading Stamps would ultimately have the effect of cutting down the advertising bills of the firms using them. At least this was the explanation offered by the newspaper managers to Pragers, but it was well understood at the time that the true inwardness of the matter was not brought to light and this is now pretty well confirmed by indisputable evidence, herewith presented.

Although the edict was against Green Trading Stamps in general it was aimed at Pragers in particular and EMANATED not from the

newspapers but FROM

A COMBINATION OF SAN

FRANCISCO STOREKEEP-

ERS FORMED FOR THE SOLE

PURPOSE OF DEALING A

BLOW TO A RIVAL WHO

WAS EVIDENTLY MAKING

TOO MUCH HEADWAY TO

SUIT THEIR PERSONAL NO-

TIONS.

The newspapers however, permitted the advertising of trading stamps by inference and it was on this account that "Something Doing at Pragers" became household words in San Francisco. Seeing that their purpose in injuring Pragers had missed its mark and that this popular department store had actually grown to six times its original size within the short space of its two-years existence, these

The legality of the trading stamp was thoroughly gone into recently in the County Court at Denver where Judge Lindsey ruled: "There is a decided difference between a chance and a condition. The mere fact that such a condition as showed by the evidence is attached to the giving of stamps, does not make it a gift, or bring it within that element of chance necessary to exist before such business can be either called a lottery or a gift enterprise contemplated by the constitution as one which could be legitimately prohibited. We cannot see that the trading stamp business has any resemblance to a lottery."

merchants again banded themselves together for another grand effort to down a competitor whose only offense was the achievement of quick success.

They called in a body on the various newspaper managers as well as others engaged in the business of advertising and presented a signed "request" that hereafter they decline advertisements mentioning Green Trading Stamps "in whatever form couched, directly or indirectly."

Below will be found a fac-simile production of the signatures attached to the "request;" also the last few lines of the document.

You will discourage and decline such advertisements in whatever form, supplied directly or indirectly—

This presentation of facts deemed to be due to the public so that it may know why there is no mention of Green Trading Stamps in Pragers daily newspaper advertisements and for the further reason that it can always be relied upon for Fair Play.

Pragers will continue to give Green Trading Stamps notwithstanding reports to the contrary. These stamps are as good as gold and Pragers guarantees that every stamp will be redeemed as usual. Double stamp days every Tuesday and Thursday.

March 1st, 1905. PRAGER COMPANY,  
Cor. Jones, Market and McAllister, S. F.

which shall be paid both the county of

deeds and their attaches.

The bill has gone to the Assembly and will there take the place on the file occupied by an identical bill which has been introduced by Assemblyman Bates.

CHILDREN PERFORMERS.

The painful exhibitions, which threaten audiences are sometimes subjected to in the appearance on the stage of children of tender years will be prevented by the bill which Senator Lukens has passed through the Senate, which places the minimum of juvenile performers at 12 years.

THREE DOLLARS FOR JURORS.

Sensor Irish's bill, increasing the per diem of jurors from \$2 to \$3 has passed the Senate and there is reason to believe that it will also pass the Assembly.

A NEW THEORY OF SLEEP.

An interesting and novel theory of sleep has recently been put forward by Dr. Claparede, a French scientist, who holds that sleep is a positive function or an instinct designed to arrest functioning. Dr. Claparede makes the assertion that we sleep not because we are intoxicated or exhausted, but in order to avoid such conditions. Not only are there various kinds and degrees of sleep, but it does not always follow exhaustion. Furthermore, it is well known that sleep is not proportional to the degree of exhaustion, and it may be either total or partial. In measuring the profoundness of sleep various conditions are encountered which are not susceptible of explanation on the toxic theory, but which agree perfectly with the hypothesis that it is a positive nervous function. The definition of sleep, according to this new theory, is a reaction produced by various excitants, and is an inhibition which manifests itself subjectively by a lack of interest in exterior things.—Harper's Weekly.

SCARING THE CZAR.

On Sunday morning, after breakfast at Tsarskoe-Selo, the Emperor went to his writing room in the private apartments in the palace. His Majesty had to traverse several intervening rooms, and in the third salon from his writing-room he saw lying on the floor before him a letter.

The Czar picked it up and discovered that it was addressed to French to himself. He opened it and found it contained a letter, also in French, stating on together to avenge upon the Emperor's person the events of Sunday, Jan. 22.

The letter continued: "The first man of the twelve has arrived."

The discovery, I am told, has created a tremendous sensation. The palace guards have been strengthened, and the secret police have made minute inquiries as to the movements of persons within the palace and of all passengers by the Tsarskoe-Selo railway.

WHEN HYDE WAS A "HAYSEED."

(From the Boston Herald.)

TO THE PEOPLE

OF OAKLAND

Open Letter from Kind Hearted

Ohioan.

The following letter will be of great interest to our readers. It breathes the true spirit of charity, of helping others. May it do the good that Mr. Carpenter hopes for:

"To the People of Oakland:

Although I may be unknown to you, yet I hope my experience will carry the weight that earnestness always should. I believe in doing good to my fellow men, and in no way can I help them better than in pointing out the road to health.

Hyomel, the treatment that cures catarrh without stomach dosing, has done me so much good that I want everybody to know of its merits. I had a very bad case of catarrh, and Hyomel completely cured me. I have recommended it to my neighbors, and they, too, have been cured. Now I want everybody in all parts of the country to know what Hyomel has done for me."

"George W. Carpenter, Vincent, Ohio."

Hyomel contains the healing balsams that are found in the air upon the mountains, where catarrh is unknown. It destroys all catarrhal germs in the air passages of the head, throat and lungs, and makes complete cures.

A complete outfit costs but \$1, while extra bottles can be obtained for 50 cents. Ask Osgood Bros. to show you the strong guarantee under which they sell the treatment.

motion in life-insurance circles, was not always so conspicuous for his purple and fine linen as he is now. On the contrary, when he was a student at Harvard he was particularly noted for his haysed raiment. It was on this account that his nickname in college was Caleb.

A FATHER DIVIDED.

A young Mormon woman, modest and intelligent, with clear, honest gray eyes, deplored the prohibition of polygamy.

"We lost something the last generation had," she said. "Our family would have seemed lopsided with only one mother. And was it not worth something to us children that we had to divide everything—even our father?"—From Leslie's Monthly Magazine for March.

How English Statesmen Work.

Gladstone said to Peel in 1846: "I can quite assent to the proposition that no one understands the labor of your post. But then you have been Prime Minister in a sense in which no other man has been since Mr. Pitt's day."

"But Mr. Pitt got up every day at 11 o'clock and drank two bottles of port wine every night."

"And died of old age at forty-six."—From Morley's Life of Gladstone.

Returned From His Vacation.

H. Schellhaas, the furniture dealer, has returned and will give you the glad hand and a discount on any purchase you may see fit to make at his store.

## WOMAN SUICIDES

Mary Putney Takes Gas  
--No Reason is  
Given.

(From Yesterday's Last Edition.)  
Leaving no reason for her act, Mrs. Mary E. Putney, aged fifty-four years, a housekeeper for James Vignier, saloon and hotel man, committed suicide between 12 and 1 o'clock today by inhaling gas in her apartments at 551 Franklin street.

In preparing for her death, the woman had attached a rubber tube to a small gas stove in her room.

The other end of the tube she placed in her mouth and then, turning on the gas cock, waited for her end.

Inmates of the house soon noticed the smell of the escaping gas and upon investigation discovered the dead body of Mrs. Putney seated in a chair.

Although the remains were still warm, life had departed.

The body was removed to the morgue.

A search was made of the woman's apartments to discover whether or not she had left any message as to why she felt compelled to take her life, but none was found.

From an investigation made by the coroner's authorities, it is believed that despondency was the reason that prompted the woman's act.

Mrs. Putney had been employed as Vignier's housekeeper for the past eighteen years.

She was a native of San Jose, and it is said she leaves a brother living there.

## WITHDRAW GATES BILL

Dealt With Professors at  
University of  
California.

CAPITOL, Sacramento, March 6.—At the instance of Assemblyman Waste, the Gates bill 708 has been withdrawn.

It provides against professors of the University of California engaging in prejudicial interference in competitive commerce by the performance of private work for pay and using University time, supplies and apparatus for the purpose of selling certificates of purity to various articles of trade.

The subject will be referred to the Regents, with special reference to the first section of the bill, which prohibits professors from attaching the name of the University to any certificate given by them recommending any article of trade of one firm as against that of another. The Regents will be requested to afford desired relief in the manual.

## WYNHAM OUT

LONDON, March 6.—Premier Balfour announced in the House of Commons today that Mr. Wynham, the chief secretary for Ireland, has resigned.

## JAPANESE LABORERS ARE COMING TO COAST BY THE BOAT-LOAD.

HONOLULU, March 6.—The Japanese newspapers here contain advertisements announcing that the steamer Centennial belonging to Charles Nelson & Company of San Francisco, will leave here March 25, and the steamer Olympia, belonging to the Oriental Trading Company, on April 18, to take Japanese laborers from the Hawaiian Islands to the Pacific Coast States.

## Widow, Not Minister, May Get This Estate.

Wanted Money For the Lord.

Notwithstanding the fact that she was disinherited in the will of her late husband, Elizabeth Williams hopes to reap a considerable portion of her husband's estate through a family allowance of \$50 a month granted her this morning by Judge S. P. Hall.

When the late Aaron Williams died he left a will in which he stated that he made no provisions for his wife nor his two sons, James and John, living in Australia, for the reason that they were all well provided for, and he bequeathed his property, amounting to about \$4750, to the Rev. James Campbell.

According to law the widow is entitled to a family allowance from the estate until finally distributed. The estate of Williams is considerably involved, and be-

## STANFORD FUNERAL

State Legislature May be  
Officially Repre-  
sented.

(From Yesterday's Last Edition.)  
SACRAMENTO, March 6.—The Legislature may be officially represented at the funeral of Mrs. Jane L. Stanford. This provision is made in a concurrent resolution presented by Assemblyman Micheltree this afternoon and adopted by the House.

It is stipulated that the committee to attend the funeral is to be composed of three members from each house, and that expenses to the amount of \$250 are to be allowed.

The Speaker appointed Assemblymen Micheltree, Waste and Atkinson to be the House representatives on the committee.

## KUROPATKIN GIVES A BLOW

ST. PETERSBURG, March 6, 2:30 p. m.—The Associated Press has just learned that General Kuropatkin has launched a blow at Field Marshal Oyama's left center, just east of the railroad.

The fighting is desperate along almost the entire line. Kuropatkin's losses in killed and wounded up to last night are placed at 23,500. Oyama is thought to have almost 30,000. The Japanese, according to the prisoners, are greatly exhausted. They repeat the statement that some of General Nogai's men have not had any food for two days.

## FOUND POISON IN STOMACH

HONOLULU, March 6.—The statement is made today that the chemists have found poison in Mrs. Stanford's stomach.

## PAULINE CROWLEY IS RECOVERING

Pauline Crowley, the daughter of Dr. D. D. Crowley, the well-known physician of this city, was operated on recently at Providence Hospital for appendicitis. The operation was entirely successful and the patient is progressing nicely. Miss Crowley attends Snell's school and is very bright in her studies and popular with her classmates.

## SEATTLE ASHORE

BELLINGHAM, Wash., March 6.—The steamer City of Seattle ran ashore in the fog today on the north beach of Bellingham Bay. The passengers were landed in small boats. The officers hope the vessel on the high tide this evening.

## MISS WALSH IS APPOINTED

Miss Mabel Walsh has been appointed stenographer in the District Attorney's office vice Frank Barnett, resigned.

## FAILED TO FIND THE POISON.

Presence of Strychnine Not Devel-  
oped—Still Mrs. Stanford  
May Have Been Poisoned.

(From Saturday's Last Edition.)

HONOLULU, March 6.—There is a status of the case. It is likely that report in circulation here, which is considered to be well founded, to the effect that the chemists have failed to find strychnine in the organs of Mrs. Stanford analyzed by them, but that they have found indications of the poison and will probably so testify at the inquest, saying that while the presence of strychnine was not developed by the analysis, they are convinced of its presence.

THE INQUEST.  
High Sheriff Henry has engaged a room at the Moano Hotel, in which to hold the inquest.

There are some indications that it is the intention to hold the inquest in private, and in answer to a question the high sheriff said he was not yet certain whether the press representatives and the public would be allowed to attend.

SHERIFF IN DARK.  
After a consultation with the chemists today the high sheriff told the correspondent of the Associated Press that he knew no more than as to whether or not strychnine had been found in the organs than he did at first.

CONFERENCE WITH ATTORNEYS.  
This morning the chemists conferred with High Sheriff Henry, Judge Stanley, attorney for the Stanford interests, and J. H. Hackfield, who represents the Stanford estate here. This conference was held in the laboratory of the Board of Health.

MAIDS TO REMAIN.  
It is possible that the body of Mrs. Stanford will not leave here on the Pacific Mail Company's vessel China, as was expected, owing to the present

## J. M. J. KANE IS DEAD

WELL KNOWN OAKLAND YOUNG  
MAN PASSES  
AWAY.

(From Saturday's Last Edition.)

The well known manager of theatrical and other amusement enterprises, who for many years was a resident of Oakland will be pained to learn of his death at Tucson, Arizona.

Mr. Kane was taken suddenly ill while on his way to San Francisco, and at Tucson he was removed to St. Mary's Hospital, where he was cared for by the Sisters of St. Joseph. He lingered for a few weeks, but despite the best of medical aid he finally passed away March 3. The body is now being forwarded to Oakland, his former residence, for interment, and the funeral arrangements will be announced later.

Joseph M. J. Kane was the son of Mrs. Mary A. Kane and the late J. J. Kane, who was for many years a prominent citizen of this city. He was born in Chicago 39 years ago, and while still a child came with his parents to California. The family went first to San Francisco and later to Los Angeles, but in 1875 they came to Oakland, which has been the family home ever since.

The young man's first employment was on the Oakland TRIBUNE, where his work was so satisfactory that he rose rapidly to a position of trust and confidence. After several years spent in the business department of THE TRIBUNE, Mr. Kane who had always had a desire to engage in the theatrical business, found an opening in that field and his success from the outset was phenomenal. He has been associated in the business management with such important enterprises as Al Field's minstrels and the Forpaugh and Sells Brothers' circuses. All those who have employed him have spoken most highly of his business ability and integrity, and only a short time ago his sister received a letter from Al Fields, consoling her for her brother's illness, and stating that it was his intention to secure Mr. Kane's services, if possible, for the coming season.

While busily engaged in distracting business pursuits, Mr. Kane found time to engage in literary work of a high character, and on each successive year, no matter in what part of the country he was traveling, he was invariably called upon on May 30 to dedicate a poem to the departed soldiers for the memorial services of that date. This literary gift was also a valuable asset in his business, and not infrequently a satire from his versatile pen made a business opponent wince. He has made many hits in this manner.

Mr. Kane was an only son, but besides his mother he leaves a sister who is a religious recluse at the convent of Our Lady of the Sacred Heart. His devotion to his mother and sister was a well known trait. On his journey westward Mrs. Kane received almost daily messages telling her of his

whereabouts, and she was patiently awaiting the arrival of her beloved son when word was received of his dangerous illness. Later the news of his death was received, and she is almost prostrated by grief.

Messages of condolence have been received by Sister Barbara, sister of the deceased, from the Sisters of St. Joseph of Tucson, and before the end came they wrote Sister Barbara not to worry, as they would take her place at her brother's bedside.

The death of J. M. J. Kane will be mourned by many friends and acquaintances elsewhere, for he made warm friends wherever he went. He was whole-souled, genial and kind, and his place in the world cannot be easily filled.

## PLAN FOR FLORAL FETE DAY

TEMPORARY COMMITTEE WILL  
HOLD A MEETING TUES-  
DAY EVENING.

The temporary committee in charge of the arrangements for a Floral Fete Day is very sanguine of the success of the enterprise and will at the meeting of the committee tomorrow evening in the rooms of the Ebell Club, make a report of all that has been done.

At that meeting it will be decided whether or not a permanent organization shall be formed for the purpose of holding an annual floral fete in Oakland. If such is the vote of those present, permanent officers will be elected and committees formed for the purpose of carrying the fete this year to a successful ending.

The temporary committee will tomorrow evening present a proposition to the meeting which they feel will be acceptable to every person present and which will tend largely to the success of the day.

The secretary of the temporary committee is in receipt of the names of several committees appointed by the charity organizations and some of the clubs.

All organizations interested in charity and all clubs and mercantile associations are expected to send delegates to the meeting in Ebell Club-rooms tomorrow evening at 8 o'clock.

It is possible that some organizations have not been sent invitations, though a few of all that are known to have been addressed is at hand.

There may be, however, some that have not been reported, and they are asked, if such should be a fact, to send a committee of three.

The Southern Pacific Company has agreed to make a one and one-third rate for the round trip from any and all stations within a radius of 100 miles from Oakland, and the purchasers of such tickets will be given two or three days' stay in this city before the time limit on the low rate tickets expires.

It is expected that similar rates will be made by the Santa Fe road, and altogether the committee feels that the day will be very successful.

Wedding announcements and invitations printed in new style type at The Tribune office.

The Associated Press is the greatest news gatherer in the world. THE TRIBUNE is the only paper in Alameda county that prints its dispatches.

## PARDEE PUZZLED

Does Not Know Whether  
to Sign Atkinson  
Bill.

(From Saturday's Last Edition.)

SACRAMENTO, March 6.—Governor Pardee is in a quandary as to whether or not to sign the Atkinson bill, which provides for a raise in the minimum of money allowed for each census school children from \$6 to \$7 per annum.

Mason, the expert of the Board of Supervisors of San Francisco, which seek to save the bill from being vetoed, said the measure really raises the minimum to \$8 dollars and will compel the raising of thirty-six thousand dollars extra in taxes in Alameda county.

Roncovieri, superintendent of schools in San Francisco, favors the bill and declares it will necessitate the raising in Alameda county of only four thousand dollars extra this year.

Twenty other counties are variously affected.

Governor Pardee has instructed Superintendent of Instruction Kirk to look into Mason's and Roncovieri's figures and report to him at the earliest possible moment as to the effect of the bill on all the counties in the State.

## DIED.

COFFIN.—In Pacific Grove, Cal., March 2, 1905, Mrs. Sarah Elizabeth Coffin, mother of Mrs. Charles A. Bailey and Miss Kate Coffin, and grandmother of Core W., Raymond H. and Bryant B. Bailey, a native of Leesburgh, Va., aged 56 years and 6 months.

# BAY CITIES CAN'T GET WATER FROM ARROYO DEL VALLE.

## Landowners Along the Stream Will Fight Diversion to the Bitter End.

### They Declare All the Water is Needed to Make the Lands Productive and Not a Drop Can Be Diverted Under the Law of California.

In its plan to bring water to the City of Oakland, the Bay Cities Water Company proposes to impound the storm or flood waters of the Arroyo del Valle, a stream running from the hills, across about six miles of plain, into Pleasanton. They say they will collect the same in reservoirs in the hills and then pipe the waters so stored, into Oakland. The anti-bond committee has had an investigation made of the law and the facts, and from these reports, it is clear that under the decisions of the Supreme Court of the State of California, the Bay Cities Company cannot divert the waters of the Arroyo del Valle, as against any riparian owner below, to his injury. They can only transport elsewhere, what is known as storm or flood waters. In his recent letter, Mr. Teyls has said that the waters they intend to store are such as eventually would reach the Pacific Ocean.

This being their claim, the testimony of the farmers who own the land on both sides of the Arroyo del Valle, between Pleasanton and the hills, is important. In interviews published today, it appears that all the regular flow of the stream is entirely absorbed long before the flowing water reaches Pleasanton; that once or twice, during unusually wet winters, the water actually flows for a few hours into the town of Pleasanton, and many years it does not reach the town at all. In the early part of this month no water is in the creek two miles above Pleasanton. It appears further that all the water that comes down this stream from the hills, sinks into the gravel strata of the valley. That the well supply of this region, and the moisture necessary for the vineyards, orchards and farm use generally, comes from beneath the surface. That without such water they cannot carry on their farms or their vineyards. That the water in their wells depends upon the flow of water in the stream, all that comes down being used.

In other words, every drop of water that has thus far flowed in this year, in the Arroyo del Valle, both natural flow and that from freshets, and unusually heavy rain falls, has been needed and is necessary for the wells, the farms and vineyards of the valley, between the hills and Pleasanton; that all of it is already used and appropriated by the land owners, and therefore there are no storm or flood waters that any person or corporation can divert, without injury to these residents. The condition pertaining there is similar to that on the Santa Clara side of the mountains, where artesian wells, vineyards and orchards depend upon the underground supply, for their trees and farm use. Judge Rhodes of Santa Clara county, who was on the Supreme Bench for many years, and is now one of the leading judges in the State, has granted an injunction which is still in force, against the Bay Cities Water Company, restraining them from taking water out of and from Coyote Creek, for the reason that the water they threaten to take out would deprive the farmers of their underground flow of water. Judge Rhodes says:

"It thus appears that this case is on all fours with the Katz case, except

that here the defendants are not taking the water from the artesian stratum, but are intercepting it, and thereby preventing its entry into the artesian stratum. . . . In the very nature of things the plaintiff's rights and the effects of an invasion thereof are the same whether it be produced by the withdrawal of water from the artesian stratum or by its interception at the source of supply to the artesian stratum. This position does not seem to require argument in its support, or indeed to be open to argument."

So the law seems settled. Hence the Bay Cities Company cannot impound or take away, or bring to the City of Oakland, any water at all, from either the watershed or the creek bed of the Arroyo del Valle, and that source of supply is cut out from their proposed water system.

Isabel Creek flows into Smith Creek, and Smith Creek empties its waters into Alameda Creek, and is, as is commonly supposed, that portion of the waters of these creeks which does not flow along the surface, sinks and forms the underground supply of the Niles cone, a like condition of affairs pertains there, and until it has been clearly established that these waters can be utilized by the Bay Cities Water Company, it seems the height of folly to vote bonds as a condition prior to entering into a contract with them for a supply of which they cannot avail themselves.

### FARMERS WILL FIGHT LANDOWNERS WILL CONTEST THE BAY CITIES' CLAIM TO WATER RIGHTS.

A number of prominent land owners along the Arroyo del Valle have made the statements printed below, with a view to informing the people of Oakland as to how they regard the proposed diversion of the waters of that stream; they announce their intention of fighting the proposed diversion in the courts to the last gasp:

#### TESTIMONY OF PLEASANTON VALLEY FARMERS.

##### WHAT NELS LUND SAYS.

I own 30 acres all in vines along the Arroyo del Valle, about three miles above Pleasanton. I have a well 110 feet deep and the water in it rises and falls with the creek. There is no water flowing in the creek now. When we have heavy rains, the water comes down the creek pretty nearly to Pleasanton, and then the flow diminishes and sinks into ground gradually, until it disappears. Underneath the surface there is a stratum of gravel, and this water from the creek seeps through that and supplies all the wells in the basin and makes the ground produce better crops. It would certainly be a detriment to everybody in the basin, clear to Pleasanton, if the water was cut off above, because it would cut off all our supply for wells and farms.

##### WHAT LOU E. CRELLIN SAYS.

I have about 261 acres, mostly vineyard land, a part of which is along the Arroyo del Valle, two and one-half miles from Pleasanton, and some of which is hill land some distance from the creek. There are four wells on my place, two entirely dependent upon the

creek. In boring, we go 40 feet through the surface soil, and then strike a gravel bed. The next stratum is clay and the gravel again. There is water along my place in the creek about 35 days of each year, and it sinks down through the gravel and waters the adjacent land. The property along the creek depends altogether upon this seepage, and if the water of the creek should be impounded and diverted away from the creek further up, it would work a great hardship upon the property owners below, and deprive them of their water supply. We would, of course, resist such an effort.

The people in the center of the valley altogether depend upon the water that comes down this creek, for their water supply, and would vigorously resist any attempt to shut off this supply. One of my wells is at least 2000 feet distant from the creek, and as the creek begins to disappear, the water in my well begins to fall and goes dry in October. As soon as the water commences to run in the creek, the water begins to rise in the well. If this creek should be dammed up, and the water impounded above here, it would affect hundreds of acres of vineyard property, and we couldn't resort to artificial irrigation on account of the porous nature of the soil here, as the water would run right off. I am opposed to any attempt to divert this water from its present uses.

##### WHAT CARL HOLM SAYS.

I have lived here on the road between Pleasanton and Livermore about 30 years. My land is about a mile from the Arroyo del Valle. I have two wells, each about 100 feet deep, and during the time there is water in the creek, the water in my wells rises. I know the water comes from the creek and feeds my wells, because, for the last six or seven years we have not had rain enough for the top and bottom moistures to meet, but as soon as the water comes down in the creek, the water in my wells rises. The rise and fall of the water in my wells corresponds to the rise and fall of the water in the creek, and if the water was stopped above here, it would shut off the water from my wells. I have been here for thirty-two years, and I think the creek has run every year except 1877 and 1893. In 1893 the water in the wells must have been 100 feet from the surface, as it got muddy and there couldn't have been more than three feet of water in the wells. In boring my wells, I didn't strike any rock at all. The strata was clay and gravel.

##### WHAT REIMER, STEVENS SAYS.

I have lived near the Arroyo del Valle about three miles above Pleasanton, for 19 years. I have 253 acres of land, about thirty-five acres of which is creek bottom land. My well is 72 feet deep, and it is about 45 feet from the surface down to the water now. The creek has only run as far as my place one day this season. In boring my well, we went through 25 feet of black loam and then found a strata of gravel and then went down to 73 feet in depth and found another gravel bed and stopped. The nearest portion of my land to the creek is about 100 yards. I think if the water in the creek was dammed up above me,

and piped away, my wells would go dry, and I could not raise a crop. I am opposed to damming the water up and will fight such a proposition as hard as I can. We would have to fight it in order to protect ourselves and our land. The water in the wells about the 1st of January, averages about 40 feet from the surface, and in July it is about 50 feet from the surface. In November it is a little lower. I know my property would depreciate in value very much, if the water in the creek should be taken away.

##### WHAT A. B. MEZZA SAYS.

I have lived on the Arroyo del Valle, about two miles from Pleasanton, six years. When the creek is full of water, the water in my wells comes up to within two or three feet from the surface. The water rises to about the level of the creek. There is no water in the creek at all now; it is dry. The water in the creek sinks down through the bed of the creek to the gravel, and then spreads out and waters the land underneath and causes good crops. If it was dammed up and the water taken away from the creek above, it would hurt my lands very much, as the roots of my vines reach down to the water that seeps through from the creek. I depend entirely upon the water that comes from the creek, for my water supply, and if it should be stopped, I would have to move away, as I couldn't make anything on the land. The water this year ran in the creek about a week, as far as the brickyard, almost two miles from Pleasanton, where it stopped and commenced to seep into the bed of the creek. I don't think that it ran as far as Pleasanton, more than one day this year. In 1896, when we had a dry year, my well ran dry.

##### WHAT ERNEST SCHEWEN SAYS.

I have resided in Pleasanton about 40 years. I own about 400 acres along the Arroyo del Valle, and I think the whole town of Pleasanton, and the whole valley, would be affected if the waters of the Arroyo del Valle were impounded above here and piped to other places. It is a dry creek. The water during the winter months sometimes runs down as far as Pleasanton, but seldom for more than a day, and is immediately absorbed by the gravel at the bed of the creek, and sinks down to the lower gravel bed and spreads out and moistens all the adjacent land, and supplies the wells, not only along the banks of the creek, but also in the town of Pleasanton. If it should be taken away, it would depreciate all of that land adjoining it, for crop producing purposes. Every well in Pleasanton would be affected by it, and I shall certainly resist every effort to divert the waters of that creek from their present uses. Right here in Pleasanton the water in the wells will rise from 40 to 50 feet to within 10 feet of the surface, when the creek commences to flow in the wet seasons.

I have taken a lot of interest in this matter, and have had considerable experience with my own wells, and their relation to this creek. The creek has run down here only two or three days at the most this year, and the water all seeped down to the lower levels.

In digging a well, we have to go down to the gravel and then we strike the stratum of clay and there are strata of gravel and clay all through this valley, and the water from the creek spreads out through that. I shall go to law if it is necessary to keep the water of this creek as it is now, for I know that if it should be diverted from its present use, my property adjacent to the creek would greatly depreciate in value.

### WATER CANNOT BE LEGALLY DIVERTED

Editor TRIBUNE—I have been requested to express an opinion as to whether or not any water can be legally diverted from the Arroyo del Valle in the Livermore mountains for use of the City of Oakland, and its inhabitants. The solution of this question must depend largely upon the

facts as well as upon the law.

Having resided at Livermore in this county within three miles of the Arroyo del Valle for twenty-three years, I have had an opportunity to observe some of the conditions of that stream relative to the quantity of water, the period during which it flows and the nature and conditions of the land adjacent thereto.

The Livermore valley on an average is about eight miles wide and about twenty miles long, and is surrounded by a range of mountains from one hundred to twenty-five hundred feet high. Evidently the valley has sometime been a lake which has been partly filled with mass of gravel, rocks and pulverized and decomposed rock and other materials washed from the mountains to a depth of over one hundred and fifty feet. Dug and bored wells indicate these conditions and that the valley land thus constituted forms a great reservoir for water.

This mass of gravel absorbs water like a sponge and any ordinary amount of water falling gradually on the surface immediately sinks to the water level in the ground until the whole body of gravel is filled to the surface.

The rainfall of the valley is very light, perhaps one-half that of Oakland and it immediately sinks into this gravel bed. Were it not for the storm waters from the mountains the largest portion of which flows down the Arroyo del Valle, permeating the valley lands, there would not be sufficient moisture to produce any considerable amount of crops. This is manifest from the fact that when there is a series of years without any flood water in the stream sufficient to raise the water level in the ground to meet the surface moisture crops, vines and fruit trees thereby are affected.

This stream flows northwesterly across the valley to Pleasanton a distance of about eight miles, and ceases to flow on the surface beyond its entrance to the valley from the mountains in the spring, and until the following rainy season does not flow in any portion of the valley more than six weeks or two months in the year, but the water percolates into this gravel bed for several miles across the valley.

The storms which are sufficient to fill the land of the valley with water from this creek and other sources, so that any considerable quantity of water will flow beyond Pleasanton occur only about once every ten years on an average. In 1892 there was such a storm and there has not been any considerable waste or surplus water since that year. The water of this stream readily affects the water level in the ground, and the wells in the entire of the valley.

During long periods of light rainfall the water of this stream, when it flows at all, is usually absorbed by the time it reaches Pleasanton. It permeates this great gravel bed and supplies most of the sub-irrigation of the lands and the water in the wells by percolation.

Under these facts and conditions it is my opinion that none of the water of the Arroyo del Valle can be diverted from its natural course beyond the Livermore valley, and it is based upon the following and other authorities:

In *Lux vs. Haggis* 69 Cal. 255 our Supreme Court held that the right of the riparian proprietors to the natural and usual flow of all the water in a stream except as it has been diminished by the reasonable use of other riparian owners is a right annexed to the soil.

In the case of the City of Los Angeles vs. Pomeroy 124 Cal. 621 the same court held that sub-surface water is a part of a stream whether it comes to the surface or not. The right of the riparian owners to the sub-surface portion of the stream is identical to the surface flow and is entitled to the same protection.

In *Katz vs. Walkinshaw* 141 Cal. 116 the facts in part, are, that the territory in question is a large accumulation of earth upon the base of a mountain and is composed of loose uncompacted fragment of rock and other materials with no regular stratification. The land is saturated or fed by the under-flow of numerous ravines and streams which enter the valley from mountains and by rain and flood water absorbed upon the slope of the mountain. The flow to this underground body of water is by percolation. And the percolating water is the main source of supply for domestic uses and for irrigation. Speculators were seeking to appropriate the percolated water by getting title to some part of a water-bed and running tunnels to obtain the water for sale. The court held that the owners were entitled to an injunction to prevent the diversion of this percolated water.

This case is practically on all fours with the conditions surrounding the Arroyo del Valle.

The right to divert water from the riparian owners or to divert percolated water from non-riparian owners by all the authorities and decisions in this State, is limited to the surplus water; that is, such water as is not used or needed by the owners below the point of diversion and which could be diverted without injury to such owners.

This principle is also announced in the case of *Piffeld vs. Spring Valley Water Works* 130 Cal. 552.

## Roll of Bank Notes Stolen

Taken from a Bureau Drawer While the Family was at Dinner.

During the past few days the newspapers of California have published many stories of losses of money, jewelry and other valuable things. In nearly all cases the articles were deposited in desks, bureaus, closets, and in one case five hundred dollars in gold was hidden in a sauce pan in the kitchen. In no case were the stolen articles recovered. Doubtless there are in Oakland thousands of people who are thoughtlessly imperiling articles of value and vertu which they consider priceless, because they could not be duplicated. Is it wise to tempt thieves to your house by the knowledge that such things are handy? Would it not be much wiser and as a business proposition much more economical to rent a box in the magnificent safe deposit vaults of the Central Bank, than to run any such risk? In the incident above referred to, where five hundred dollars in gold was stolen, we would emphasize the fact that had its owner expended four dollars a year in renting a safety box, she would now be \$496 to the good.

These ideas are worth thinking about—and acting upon.

## THE MEDICINE FOR YOU

Wine of Cardui is the best medicine for mothers to take. It is a never-failing tonic upon which any woman can lean for support during the trial of childbirth.

Wine of Cardui cures disordered menstruation and bearing down pains. It drives out all weaknesses which are very distressing and often fatal to women in delicate condition.

Wine of Cardui reinforces the organs upon which the strain bears the heaviest, and after the ordeal is over it helps her to a speedy recovery.

Mrs. Ponliot's experience is the same as that of hundreds of thousands of women who declare that Wine of Cardui robs child-bearing of its terrors. You can secure the same immunity by taking Wine of Cardui in your home.

Wine of Cardui cures barrenness and makes child-birth easy. Your druggist will sell you a \$1.00 bottle.

## WINE OF CARDUI

I have taken Wine of Cardui for female weakness, both before and after my baby was born, and have found it the best medicine I ever tried, and am certainly in better health now than I have been for years, which I feel is due to your medicine. I was in very poor health before my first baby was born, had headaches and backaches and general weariness, but taking Wine of Cardui for five months really made a new woman of me, and I certainly feel that any woman can take it and will not fail to be benefited.

## Mott's Demand For Good Streets.

Frank K. Mott's pointed remarks about the condition of the streets, and his pledge to exert his authority to the full extent to have them properly cared for in case he is elected Mayor points the way to similar declarations on the part of candidates for the Council and for the other ex-officio members of the Board of Public Works.

The people of Oakland will be glad to hear from them. The care of the streets has become an important issue in Oakland because of the lack of care bestowed on them during the last seven or eight years. With the growth of business and the increase of population the traffic on the principal thoroughfares has enormously increased of late, particularly within the last two years. Yet today the streets are in a worse condition than they were six years ago, with a few insignificant exceptions. Telegraph avenue has been paved, it is true, but the paving was paid for by the property owners, and hence cannot be credited to the city authorities.

Notwithstanding the street cleaning crusade inaugurated at the Ebell Club by Mayor Olney two years ago, the gutters and highways are as dirty now as they were then. The whole business appears to have gone the route of many good intentions.

What we want is men in office with a knowledge of conditions, a sincere desire to better them and the energy and decision to push matters to a prompt conclusion. The way to clean the streets is clean them. If Oakland is to have good streets they must be kept in constant repair, not left to deteriorate till the pavements wear full of holes. Whenever a hole makes its appearance in an asphalt or bituminized pavement it should be promptly filled up in good shape. If that be done a pavement will last longer and cost much less than if left uncared for till its condition gets so bad as to compel attention.

Mr. Mott wants more money spent on the streets, but the Council's consent must be had to that proposition. That is precisely why we should like to hear candidates for the Council speak out and to the point on the question of street improvement. A change of method as well as a change of policy is needed. We want more system, more energy, more vigilance—more of the quality laconically described by the frontiersman as "savvy." Mr. Mott has struck the right note and it will be pleasing to the public ear to hear others take it up.

If Senator Kriox should be dying of Bright's disease we shall see once more exemplified the old adage that dead men's shoes soon wear out.

The dispatches describe the inaugural ceremonies at Washington at great length and with close attention to detail, but they are incomplete in one important particular. There was not a word about Benjamin Ide Wheeler, President of the University of California, who went to Washington on purpose to see that nothing was lacking to make the occasion a memorable one. We were told about the Rough Riders in the parade and the colored people at the Inaugural Ball, but for some reason the chief figure of the whole show—the first walking gentleman of the play—was ignored as completely as if he had been Sancho Panga's ass. It is all a vast mystery how modest worth and transcendent merit came to be overlooked in this peculiar way. Somebody ought to call "low ball!" on the press dispatcher.

## Duty of Republican Voters.

When they go to the polls next Monday the Republican voters will have no excuse whatever for failing to vote for any of the nominees on their ticket. Indeed, if they desire capable men and efficient, economical administration the obvious way to achieve the desired ends is to vote the ticket straight from top to bottom. It is a ticket that commands party loyalty in every respect, for the nominees represent what is best in the political life of the community and stand for policies which merit the approval of the progressive and taxpaying elements of the city. There should be harmony in the Board of Public Works and harmony in the Council, for harmony is a necessary precedent to unity of action. The Republican administrative and Councilmanic candidates are unexceptionable, personally and politically, and well deserve the claim they have on the support of their party associates in the ranks. They stand for the principles set forth in the party platform and represent the collective choice of the party voters. Therefore every Republican should vote his ticket straight at the forthcoming Municipal election.

The news that the army of the Republic of Panama has gone to work on the canal will give satisfaction and relieve a dismal apprehension. There have been intimations that the said army contemplated licking the United States. We are glad to see the trouble compromised by giving the army a job on the canal. It would cost something to keep it in the calaboose.

It may be taken for granted that Kuropatkin will warmly endorse the Chronicle's picture of the evils of the Japanese invasion.

How is Andrew Carnegie to ever die poor if he always keeps \$10,000,000 in cash on hand? But perhaps he thinks a little sum like that is only one remove from extreme poverty.

Exit Bard. It is Senator Flint now. Some changes are welcome.

The original manuscript of a short poem by Edgar Allan Poe was recently sold at auction for \$1,000. Poe sold the poem to the publisher for \$10. Such is fame! A collector pays one hundred times more for the poem than the poet brought as literature. Fame makes the difference. O barren, inhospitable mistress! to starve your favorites while living to give them a glorious memory when dead!

The railroad attorneys in the Senate appear to be anxious to take the control of the Panama canal out of the President's hands. Wonder why?

## The New Reclamation Bill.

The new reclamation bill prepared as a substitute for the one that provoked so much opposition from certain large landed interests affected by it has passed the Assembly by a practically unanimous vote. It is a great improvement over the old measure. It provides for the formation of an immense reclamation district embracing more than one million acres lying in the lowlands along the Sacramento river and its lower affluents, but leaves much to be provided for by future legislation. The bill contains no provision for State aid, but is so drawn as to permit the granting of State aid hereafter. This is as it should be. The extent and form of State aid, however, should depend upon circumstances—the necessity for it, and the amount of work that has preceded the application for it.

In its general features the bill is a long step forward, but some of its advocates are not as wise as serpents or as discreet in their talk as they might be. For example, one of them says, in a way strikingly suggestive of Colonel Mulberry Sellers, that the project embodied in the bill "will increase the value of 250,000 acres of land from \$2 to \$200 an acre." The alleged increase in values only amounts to the trifling total of \$49,500,000. The reclamation involves an expenditure of less than half that sum.

Such extravagant expressions, if accepted at their face, are a con-

vincing proof that State aid should not be asked for or extended. If the profits of the swamp land owners are so certain and so tremendous, why should they ask help from any one? If they can get a return of three or four dollars in value for every one expended they require no help and should receive none. But this species of rhodomontade is far from stating the case or giving a correct indication of the situation. It is in the nature of an idle boast when the intelligent, thoughtful people of the State desire to be made acquainted with the plain facts. The swamp lands must be reclaimed and the channels rectified, but the tall talk about making land now worth \$2 an acre worth \$200 an acre is likely to induce the average citizen to say, "Well, you had better do your own reclaiming at your own expense." The fool friend is a bad friend to river improvement.

## CHIPS FROM OTHER BLOCKS.

Miny a mon wud stand well amoong 's fellow min if ut wasn't fr their gittin' acquainted wid 'im.—Baltimore American.

An Eastern pastor favors the use of gowns in the pulpit. And yet the use of attractive and convincing eloquence would appear to be a good deal more to the purpose.—Cleveland Plain Dealer.

Panama engineers want a sea level canal. President Roosevelt also wants the canal to be on the level.—York Dispatch.

The exclusion of opium from the Philippines should be a reminder to the heathen that the only dissipation tolerated by civilization are rum and tobacco.—Washington Star.

Over in Baku, they burned a petroleum millionaire with his wife and children and his servants. Baku, however, is a long way from the headquarters of the Standard Oil.—San Bernardino Times-Index.

The University of Pennsylvania made the Kaiser an LL.D., as well as the President. Doc Hohenzollern and Doc Roosevelt make a pretty good pair to tie to in case of international sickness.—Minneapolis Journal.

## A BLADE OF GRASS.

Harry T. Fee of Stockton in "Western Field."

Where the hills caress the sky,  
And the peaceful valleys lie;  
Where the silence lightly broods  
O'er enchanted solitudes;  
Close beside a silver stream,  
Midst the rapture of a dream,  
In time's course I came to pass—  
Just a simple blade of grass.

In the rosy morning's light,  
In the silences of night  
Where no strife the spirit mars  
But the glimmer of the stars,  
Through the night winds, softly stirred  
Echoings of love I heard  
In the silence; and I knew  
All the secret of the dew.

All the gleaming mountain's night,  
All the valleys bathed in light;  
All the sunlight's golden gleams,  
And the murmuring of the streams;  
Soft winds gleaming beauty's store  
Wafted to my woodland door;  
And my tendrils in the sod  
Knew the whisperings of God.

## SOME PASSING JESTS.

Socrates drained the goblet at a draught, then he made a wry face. "Gosh! All hemlock!" said he. That was the way the exclamation originated.—Houston Post.

Pompous Waiter—Have you ordered, miss?  
Timid Little Girl (taking her first meal at a restaurant)—N-no, sir; but I've requested.—Chicago Tribune.

"It's really very kind of you, Mr. Dumley to give me your seat," said Miss Koy.  
"Not all all," replied Dumley. "We men are getting very tired of being accused of giving up our seats only to pretty girls."—Philadelphia Ledger.

The Bad Dancer—One more turn and I would have lost my breath entirely.  
The Victim—Just one more turn, please, Mr. Ponsonby.—Cleveland Plain Dealer.

Harold, aged five, had met with an accident.  
"I'm afraid," said the doctor, "that a permanent scar will remain on your chin."  
"Oh, my whiskers will soon cover it up," answered the small optimist.—Chicago News.

Jinks—What were you doing in that pawnshop?  
Binks—Oh, just passing away my time.—Cleveland Leader.

## AGE IS OPPORTUNITY, EH, OSLER?

Cato learned Greek at eighty; Sophocles wrote his grand "Oedipus," and Simonides bore off the prize of verse from his competitors. When each had numbered more than fourscore years, And Theophrastus, at fourscore and ten, Had but begun his "Characters of Men." Chaucer at Woodstock with his nightingales At sixty wrote the "Canterbury Tales"; Goethe at Weimar, toiling to the last, Completed "Faust" when eighty years had past. Something remains for us to do or dare; Even the oldest tree some fruit may bear. For age is opportunity no less Than youth itself, tho' in another dress.

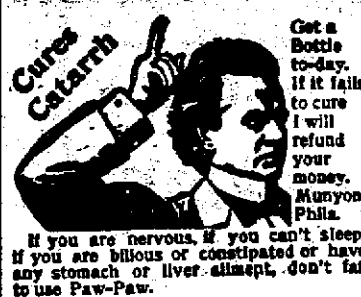

—Longfellow.

Guner—I wonder what will be the future of that great diamond discovered the other day?  
Guyer—Oh, I suppose some Chicago alderman will buy it to wear in his shirt front.

Do not worry over coal  
Or the gouging plumber;  
Be in time, it always pays,  
Study up these winter days  
"Where to go next summer."  
—Chicago News.

Girls are true friends only when they cry together in sympathy.

## MUNYON'S PAW-PAW

Get a Bottle today. If it fails to cure I will refund your money. Munyon, Phila.

## Hints for the Ladies

New corsets have high busts, and curve at the sides, but the straight front line is still preserved.

Sofa cushions in embossed or burned leather are among the handsome showings in house-furnishings.

The February birthstone is the amethyst and these stones are now shown set in silver and are wonderfully attractive.

Black nets with pink or blue flower designs make pretty separate waists and just now this material is reduced in price.

Giant safety pins now used for hats and holding veils in place are called automobile hat pins. They come in silver or gilt and are often set with jewels.

Jardiniere stands of bamboo are in exceedingly odd designs and very substantially made. One is octagonal, with an inch-wide railing around the top.

The cross is modish just now as an ornament for the long chain and among the pretty ones displayed is one of rubies that is wonderfully beautiful.

A white satin tea cozy is elaborately embroidered with gold thread and white silk, the design being a cluster of grapes with many leaves clinging to it. It is finished with a gold and silk twisted cord.

If pads made of cotton batting, covered with cheesecloth and having lavender flowers and a little orris powder spread between the layers of batting, are placed in the closet of drawers in which bed linen is kept, the linen will always retain a delicate and fragrant odor.

There is a noticeable return to fashion's favor of the very wide girldie known to some as the "peasant's bodice." One of these, made of the thin, supple velvets, soft silks or flowered ribbon and accompanied by a guimpe to match, can be made to quite transform a simple frock.

A favorite trimming of net skirts is ruches of the net edged on either side with a narrow Valenciennes lace or ruches of silk in a course at the bottom. One such skirt had five ruches of a very thin taffeta, ranging from deep rose to the faintest pink, almost white. The ruches were cut on the bias and the edges frayed, and were set about four inches apart; the effect was extremely dainty, and it is just such simple touches as these that the best effects of the season are being achieved.

Foot cushions are among the necessary luxuries for my lady's hours of ease. They are, thick, oblong affairs of velvet, very much adorned with embroidered, gold lace and gold corner tassels. These luxurious pads are placed on a low wicker stand, so that the whole is just high enough to support the pampered woman's tiny feet when she reclines by the fireside. Her couch cushions are of most dainty and perishable fabrics—embroidered linen lawn, lace, mousseline and palest satin, touched up perhaps by tiny lines and bow-knots of fur. These pretty cushions are among favorite gifts of women to women, and are made and decorated to fit the environment for which they are destined.

## SENATOR ALLISON'S RECORD.

Senator Allison now holds the record of records for membership in Congress. He has served the longest continuous term ever served by any one senator. He has served longer in the Senate than anyone else, whether continuously or not. He has served more years in Congress, reckoning both branches together, than any other man. With the end of the present session next week Senator Allison will have completed his fortieth year in Congress, having been eight years in the House, from 1868 to 1871, and thirty-two years in the Senate, from 1873 to date. There have been a number of "thirties" in the history of Congress, service, including old "Tom" Benton and Senator Cockrell. But the record for continuous service in the Senate has been heretofore held by Senator Morrill of Vermont, who died December 21, 1894, within three months of the completion of his thirty-second year. The record for broken service in the Senate belonged to Senator Sherman of Ohio, who had twice gone temporarily into private life, only to be quickly returned to the Senate. Last Sun-

day, however, Senator Allison surpassed even this record of Senator Sherman's. If he lives to the end of his present term, in 1909 he will complete his forty-fourth year of service, within a day or two of the celebration of his eightieth birthday. For more than a third of the life-history of our nation Senator Allison has been influential in its greatest affairs. His is a name which will be remembered for a century, more than that length of service; unique though that is.—Chicago Record-Herald.

## GORKY'S REBUKE.

Anecdotes of Maxim Gorky are on the wing. Here is one they tell in Paris. He went to the theater at Moscow one evening to see a play by a popular writer. Instead of paying attention to the stage, the entire audience rose and greeted Gorky with prodigious acclamation. Then he delivered this address: "What on earth are you staring at me for? I am not a dancing girl, nor the Venus of Milo, nor a drunkard just picked out of the river! I write stories; and I am glad of it. That is no reason why you should keep on staring. We have come here to see a charming play. Be good enough to attend to that, and leave me alone." More delighted than ever, the audience shouted with joy. "Perhaps they thought they would get another speech, but Gorky jumped out of his seat and left the theater in disgust."—London Chronicle.

## INTERESTING BITS.

Builders are at work on a stone viaduct at Plauen, Saxony, over the River Byra. It contains the longest masonry arch in the world. Its length being 255 feet 2 inches, measured horizontally from base to base. The Luxembourg bridge across the river at Plauen, which was completed a few months ago, has a span of 277 feet. The next longest masonry arch is the Cabin John bridge, near Washington, D. C. The length of its span is 205 feet.

Removing snow in New York City is a large item in the city's annual bill of expenses. It costs about \$25,000 for every inch of recorded snowfall. The average fall in New York is thirty inches, but this winter they have had more than that. The cost this season promises to reach considerably over \$1,000,000.

IN WONDERFUL JAPAN. There is said to be no real destitution in Japan. Though some are very poor, yet all seem to be well fed, clothed and housed and are invariably cheerful, and what is more surprising, invariably clean.

## THE DAYLIGHT STORE

**H.C. Cahwell Co.**  
THE LACE HOUSE  
127th AND WASHINGTON STS.

## EACH DAY BRINGS US NEARER SUMMER

—but so complete are our preparations for the summer business that the Lace House looks like May already. We may get an hour or so of fog in the early morning, but look at the beautiful days we are enjoying. Last Sunday's display of new wearables in our parks and on our streets, made possible by our delightful climate, would, if all the world knew of it, make all the world want to come to Alameda county, California.

### Exclusive Importations in Wash Goods

Novelties indeed are these—in weave and design. Exclusive too, for you'll find them in no other store in this locality. Beautifully-finished voile with silk stripes; large checks, mottled grounds with green, lavender, pink or pale blue dominant shade. .60c yd. Black novelty—resembling the highest grade of grenadine—with silk embroidered stripes and narrow stripes of white with a delicate Dresden pattern. .60c yd. Soft white fabric, delicately self-patterned in small or large designs; looks like a beautiful Sicilian alpaca; a wide choice. .60c and 65c yd. A selection of novelties in white goods—all new effects and richly finished—the kind that offers a splendid substitute for silk. .25c, 30c, 35c and 50c yd. Novelties, closely resembling those described in the preceding items, also come in champagne shades. .35c, 40c and 50c yd. Complete display of new white piques. .20c, 25c to 50c yd. Needless to say that the more moderate priced wash goods are here in great abundance and variety.

### The Lining Section

is thoroughly prepared to attend to all the Spring and Summer necessities. Much of the effect of your new dress depends upon the linings. In our many lines will be found the correct linings for any dress you may anticipate making. Among many other superior linings, we would mention the "Samson Silk," every yard of which is stamped "Samson, wear guaranteed" .58c yd.

### Dress Shields of Merit

We know of no case where Kleiner's Double Gem Dress Shields were used that they did not afford absolute protection. Besides the shield can be washed and ironed and will retain its shape and be as good as new. Prices, No. 2, 22¢/4; Nos. 3 and 4 25¢.

### "O. H. S." Neckwear

A new lot of "O. H. S." Neckwear has just come in and every student of Oakland's noble educational institution should wear one. Long, narrow, four-in-hands—dark blue with "O. H. S." neatly embroidered in white on the end. .25c

### MILLINERY OPENING

will take place Thursday, Friday and Saturday, March 9th, 10th and 11th.

### Pretty Display of Spring Hats

One of the most attractive sights in this city today is the display of Spring Hats in the Washington street frontage. Since it was first put in there has always been an assemblage of admiring ladies, looking at it.

And yet it's only a glimpse of what is to come—not a hundredth part of the beautiful and artistic millinery that clever minds and deft fingers have prepared and are preparing for our opening display.

We'll let the hats speak for themselves—but if you wish to be your own milliner, don't miss the elegant exhibition of trimmings in the Millinery Department. Our experts will cheerfully give you all necessary advice about hat architecture.

### New Sateen Petticoats

The manufacturers have made such progress in the finish of the goods and the quality of the workmanship of sateen petticoats that they are leading the real silk garments a merry race.

Sateen Petticoat prices begin at 90c, but today we will touch on three good styles that are priced at \$1.25.

AT \$1.25—Black Sateen Petticoat, sensibly shaped, fitted hips, deep plaited flounce.

AT \$1.25—Black Sateen Petticoat, neatly finished with 2 ruffles and three stitched straps.

AT \$1.25—A third style has three ruffles with hemstitching—a very showy effect. Black Sateen Petticoats are priced up to \$3.50; Colored Sateen Petticoats at \$1.50 and \$1.75.

### Spring's Ribbed Underwear

There is no excuse for any woman or child wearing an unshapely or ill-fitting suit of underwear, when for a reasonable price, seasonable weight, ribbed Underwear, which does fit, can be obtained at The Lace House.

For years we have been perfecting this department until today it offers the best fitting, best-wearing, best feeling underwear made.

White, medium-weight Vests; low neck with no sleeves or short sleeves; also pants to match. .25c garment

Ladies' mercerized Vests with low neck and no sleeves, white, extra quality. .3 for \$1.00

Ladies' lace-trimmed Drawers, umbrella style; white, fine cotton ribbed. .25c

Fine lisle thread. .50c

## ROUTINE WORK OF THE CITY COUNCIL

### MATTERS OF INTEREST TO THE TAXPAYERS HANDLED LAST NIGHT.

At the meeting of the City Council last night there were present Councilmen Aitken, Baccus, Covelier, Elliot, Fitzgerald, Howard, Meese, Peniston, McAdam, Wallace and President Dornin.

#### HOWARD WANTS HYDRANTS.

Councilman Howard moved after the ordinance establishing water rates had been passed that the Chief of the Fire Department be requested to furnish at once a list of all the hydrants owned by the city and all of the hydrants owned by the Water Company. The motion was carried.

"It is my purpose to move as soon as we have determined the ownership of these hydrants that the city acquire them all."

City Clerk Thompson was requested to notify the fire chief of the wishes of the Council.

#### FRANCHISE FOR S. P.

The ordinance granting to the Southern Pacific permission to run a spur track through from the Berkeley line to Stanford Avenue was adopted.

All the former protests were withdrawn by Attorney William R. Davis, representing the protestants.

#### REPORTS.

City Treasurer Taylor reported that the total amount of cash on hand was \$123,507.

Chief of Police Hodgkins reported that the cost of feeding horses for the month of February was \$182.43, or 10¢ per day.

The poundmaster reported there were 232 dogs impounded for the month. The total cash receipts were \$170.

The Chief of Police also reported that there were 251 saloons running in the city at the present time.

#### EMERGENCY FUND.

A resolution appropriating \$150 to secure evidence against poiseillers and violators of the liquor ordinance was passed under suspension of the rules.

#### RESOLUTIONS.

Resolutions were disposed of as follows: Granting J. J. Johnson permission to construct a sewer in East Ninth street from Fifth avenue to a point 100 feet westerly. Adopted.

Giving twenty days' notice to property owners to sidewalk north side of Santa Clara avenue, between Vernon street and Oakland avenue and Thirty-sixth street from Telegraph avenue to Grove street. Adopted.

Sewer Fifty-fifth street from 140 feet west of Grove street to eastern line of Grove street. Adopted.

Overruling protest against improvement of East Eleventh street from Second avenue to Fourth avenue. Adopted.

Rejecting proposals for paving portions of Telegraph avenue between Twentieth and Thirty-sixth street. Adopted.

Appropriating \$499 from Street Fund to pay cost of constructing concrete culvert on Eleventh avenue. Adopted.

Granting permission to John Treadwell to construct sewer in center line of Broadway from Clifton street to Butler street. Adopted.

Granting Blake and Bilger permission to construct an eight-inch sewer in center of Broadway between Madison and McAdam street and Butler street. Adopted.

Recommending that a concrete culvert be constructed over east branch of Cemetery Creek across avenue. Referred to Street Committee.

Authorizing Board of Public Works to construct culvert on east branch of Cemetery Creek. Adopted.

Establishing grades on Forty-sixth street between Madison and Madison avenue. Referred to Street Committee.

Granting Mary Hayes permission to raise building on Tenth street. Adopted.

Appropriating \$100 to employ extra policeman on duty. Adopted.

Giving twenty days' notice of sidewalking Grove street between Thirty-eighth and Thirty-ninth street. Referred to Street Committee.

Granting George W. Kelly sixty days' extension of time to macadamize Eleventh avenue from Forty-first street to Johns street. Adopted.

Grading, curbing and macadamizing Jackson street between First and Third streets. Adopted.

#### ORDINANCES.

Ordinances were disposed of as follows: Accepting Twelfth street from Easterly line of Harrison street to Easterly line of Webster street. Passed to print.

Authorizing the closing of Second avenue near East Sixteenth street. Referred to Ordinance and Judiciary Committee.

#### PETITIONS.

Petitions and protests were disposed of as follows: From property owners to have grade established on Sixty-sixth street between Shattuck and Webster street. Referred to Street Committee.

From H. Beal relative to garbage. Referred to Board of Health.

Withdrawing names from protests license for saloon at Eleventh and Adeline street. Referred to Board of Health.

Granting Schottenburg and Dempsey license for saloon at Eleventh and Adeline street. Referred to Board of Health.

For change of grade on East Twenty-seventh street between Twenty-seventh and Eastern boundary of the city. Referred to Street Committee.

From Golden State Bank to hold concert in City Hall Park. Referred to Board of Public Works.

Diamond Park. Referred to Street Committee.

#### LIQUOR LICENSES.

The following liquor licenses were granted: Ruth & Cartasso, 623 Broadway; M. Roberts, 1788 Seventh street; James Corley, 801 Webster street; F. J. Thomas, 356 Twelfth street; G. Brause, 558 Telegraph avenue; W. F. Mall, 1007 Broadway; Dan J. Quinn, 124 Twelfth street; F. W. Cooper, 420 Seventh street; Jerry Wells, 719 Clay street; James Butler, 718 Broadway; C. Cuneo, 3735 Eleventh street; John Coyne, 164 Franklin street; Josef Vinter, 561 Franklin street. Adjudged.

#### LIQUOR BONDS.

The following liquor bonds were approved: W. F. Hall, 801 Broadway; John Corley, 801 Webster street; F. J. Thomas, 356 Twelfth street; G. Brause, 558 Telegraph avenue; W. F. Mall, 1007 Broadway; Dan J. Quinn, 124 Twelfth street; F. W. Cooper, 420 Seventh street; Jerry Wells, 719 Clay street; James Butler, 718 Broadway; C. Cuneo, 3735 Eleventh street; John Coyne, 164 Franklin street; Josef Vinter, 561 Franklin street. Adjudged.

#### VOLCANIC ISLANDS.

Since the beginning of last century no fewer than fifty-two volcanic islands have risen out of the sea. Nineteen have disappeared and ten are now inhabited.

A Superb showing of the best efforts of Parisian Modistes selected with great care. Marvelous productions of the world's foremost designers, shown together with beautiful conceptions from our own expert milliners—thus portraying exquisite millinery beauty of two hemispheres.

## WILL BE STRICT ABOUT BONDS

### BOARD OF EDUCATION SIGNIFIES INTENTION OF SCRUTINIZING CONTRACTORS' BONDS.

The Grand Jury was heard from by the Board of Education last night in a communication received from that body in regard to the keeping of data in regard to the building work now being done by the board. The communication is as follows:

"Oakland, Alameda county, Cal., March 1, 1905. Board of Education of the City of Oakland—Dear Sirs: Learning from a report of its committee that the original plans and specifications which were offered in competition September 30, 1904, for the construction of new school buildings and the alteration of old school buildings in the City of Oakland, and upon which premiums were awarded to various architects, are not at present on file in the office of your board, the Grand Jury of this county, in the line of its duty, deems it incumbent upon it to call your attention to this matter, and it was ordered at its last regular session that it be respectfully suggested to you that such original plans and specifications should be kept on file in your office and that the same should be properly endorsed as the original plans and specifications on which such premiums were awarded. Yours truly,

"H. B. BELDEN, Secretary.

"H. N. GARD, Chairman. In reply to this, Secretary McClymonds stated to the board that when a committee of the Grand Jury called at his office to inspect certain plans he was absent and the committee was told that the plans were on exhibition at the sub-office at the High School, and that when the committee went there it was unable to find what it wanted. As a matter of fact, the architects had some of the plans and in conjunction with the superintendent of the works, were making some drawings from them. The plans, he stated, however, would be returned in a day or two.

On account of illness, Miss Eva A. Fulton, a teacher in the public schools, was granted a leave of absence until May 1.

The Judiciary Committee reported favorably on the bonds of D. E. Brown, Charles and Arlet and E. H. Dahms, contractors, engaged in doing work on the foundations of the new school buildings.

The approval of the bonds led to an objection being made by Director Cliff, who stated that he believed that in some way bondsmen should qualify before the board, as they would in court. The mere swearing before a notary that they were worth certain sums of money was not businesslike. The board took this view of the matter, and hereafter bondsmen for any contractor must be able to show to the secretary sufficient property to make his statement good.

Director Isaac reported in regard to alternative plans submitted by Stone & Smith for floors and parts of the Franklin school, that he could not approve them without a more careful study than he had time to make.

The board finally decided to give the committee further time to report on the alternative plans, with a view of trying them on some other building than the Franklin if they are found to be all right; it is too late now to prepare to receive bids on them next Monday night.

The committee on schoolhouses and sites reported that the curb and gutter

have not been put in at the Piedmont avenue school because the street is not yet macadamized.

The Audubon Society was granted permission to hold a meeting in the Chabot assembly hall to organize a society in Oakland for the purpose of fostering the life of birds. Mr. Keller and Prof. Bade are to be speakers. Owing to the fact that there would be certain contracts to be awarded next Monday night, an adjournment was taken until that night.

Forced to Starve. E. F. Leek of Concord, Ky., says "For twenty years I suffered agonies with a sore on my upper lip, so painful sometimes, that I could not eat. After vainly trying everything else, I cured it with Burkle's Arnica Salve. It's great for burns, cuts and wounds. At Osgood's drug stores, Seventh and Broadway and Twelfth and Washington Only 25c."

Piedmont Baths, Hammam Baths. Finest service on the Coast; experienced attendants. Also swimming tank for ladies and gentlemen. Take Piedmont car to Twenty-fourth street.

Positively One Store Only. No branch. Go direct to corner 11th and Franklin streets. H. Schellhaas' Furniture Store.

opened at 1160 Broadway. Maps, Facts and Figures on the Water Question for the Voters and Taxpayers.

## PROPOSED LAW FAVORED

### BARBERS' UNION WANT EXAMINATION AND LICENSE MEASURE PASSED.

At the meeting of the Oakland Barbers' Union, No. 134, last night, in California Hall, there was present a delegation from the San Francisco local, No. 143. The delegates, Brothers Corning and Tetraharn, reported favorably on the law now pending at Sacramento requiring the examination and licensing of barbers. They spoke of the work of a legislative agent at the Capitol, saying that he was doing all in his power to promote the passage of the bill.

It was moved and carried that the executive board be authorized to prepare and circulate a petition addressed to Governor Pardee, requesting his signature if the measure passes the Legislature.

A committee was appointed, consisting of C. F. Burkhardt, chairman, F. P. McDonald, H. L. Littenstein, to draw up resolution of condolence for the recent death of J. R. Phillips, an esteemed member. It was also ordered that Secretary Littenstein draw the charter of the local for a period of thirty days.

Three trustees, whose election had been postponed, were chosen last night. They were F. P. McDonald, F. B. Perry and M. Bonin.

Communication was received from the Commissioner of the Bureau of Labor and Statistics requesting information regarding the industrial conditions of the craft. Secretary Littenstein was in-

structed to reply to the letter, giving the desired information.

### PASSES RESOLUTION.

C. W. Petry and R. Wiand introduced a resolution at the meeting of the Central Labor Council of Alameda county last night. The document was adopted in the following form:

"Whereas, It has developed that McKeown, late defaulting secretary of the State University, spent considerable of his time and the State's money at the Emeryville race track; and

Whereas, The Rev. Charles Thomas Watkins and the Rev. D. C. Brown have used their influence among the people to the end that the intended floral fête for charitable purposes shall not be held at the said race track, and such degraded surroundings; therefore be it

Resolved, That the Central Labor Council commands both reverend gentlemen for the enabling stand they have taken, thereby setting a good example for others to follow, and be it further

Resolved, That a copy of these resolutions be handed to both gentlemen and address the meeting. Before the press.

Signed "CHARLES W. PETRY, "R. WIAND."

It was reported at the meeting that the submarine shipways be built for the United Engineering Company in the reservoir on the Alameda side, east of the Alice street bridge, were being constructed by a contractor, M. W. Misgravy, with non-union labor. As the United Engineering Company is a unionized shipbuilding firm, the council will investigate the charges through its executive board.

A delegate from the Cooks and Waiters' Alliance, No. 81 was seated at the meeting. His name was O. A. Hamblin.

### SEVENTH WARD MEETING

There will be a grand rally of the Republicans of the Seventh Ward at Cameron Hall, corner Thirteenth avenue and East Sixteenth street, to-morrow at eight o'clock. Frank K. Mott and all the Republican candidates will be present and address the meeting. Before the meeting there will be a display of fireworks in front of the hall and a brass band will enliven the occasion with patriotic airs. It is expected that will be one of the most successful meetings conducted by the Republican City Central Committee.

## DAIRY LAW WAS INVALID

### CITY ATTORNEY M'ELROY REPORTS PROPOSED MEASURE WAS DEFECTIVE.

City Attorney McElroy reported last night to the Council that in his opinion the proposed dairy ordinance which limits the number of cows that can be kept in certain districts and defines the boundaries where dairies may be run, was illegal. He said: "That provisions discriminating as to persons of a class in an ordinance imposing a license would invalidate the ordinance."

The effect of this opinion will be to destroy the work of the Board of Health and others to obtain better conditions.

The ordinance deemed by the City Attorney to be defective was re-referred to the Board of Health where the objections to the ordinance may be remedied if possible.

### REV. VAN DYKE TO LECTURE.

PRINCETON, N. J., March 7.—Rev. Henry Van Dyke announces that he has arranged an extended Western lecture tour to last a month. His dates include the following: March 23d, founders' address, University of California; March 24th, Stanford University; March 30th, April 11th, series of lectures on English literature at University of California.

### BROKE HER WRIST.

Yesterday, while Miss Beasie, the twelve-year-old daughter of Mr. and Mrs. Roger Bennett of Bigboth and Linden streets, was trying to jump over a lawn tennis railing, tripped and fell and broke her arm near the wrist. Dr. C. J. Shandick was called and rendered the necessary surgical assistance.

## A cough medicine over sixty years old

This must mean merit, solid, genuine merit. It certainly must be true that Ayer's Cherry Pectoral cures coughs, colds, croup, bronchitis, asthma. Ask your own doctor to explain why it strengthens weak throats and heals inflamed lungs. J. C. Ayer & Co., Lowell, Mass.

## TODAY'S SPORTING NEWS

POOR SHOWING OF  
JOCKEY BONNERBOY RIDES LIKE A NOVICE IN  
YESTERDAY'S  
RACE.

The racing at Emeryville yesterday was unsatisfactory to say the least. Those who stacked up their coin behind the colored boy, Bonner, were short-ended, for his riding was unspeakably bad. His first shortcoming was the loss of place on Bell Reed in the third race, but this was excusable in the face of his startling exhibition of poor riding on the favorite Ray Dare in the fourth. If he tried to win, he certainly made a poor first of it, for he took the heavily-backed horse up to the leaders and back again after the fashion of a novice.

Bonner finished fifth with Expedient, taking him into every pocket he could find. Expedient is fond of a fast track and always shows speed in the stretch, but with Bonner up, he was not much better than the also rans.

It is to be hoped that Bonner will improve in his riding hereafter.

In the initial event, Avonlaks was brought home by McBride. Sabau took the place from the favorite, Mary F. 5 third. The other starters were Kitten, Semilune, First Apple, Lady Catherine, Dora Gentry, Frank, Isadora, Canapa, scratched. Soledad, time 42.

Second race, five furlongs—Cideres 11 to 5 won; Pauline, 7 to 5 second; Ethel, 10 to 1 third. The other starters were Douse Cafe, Duplex, Corlie, Rubiquet, Neva Lee, San Jose, Harlem, Subur, Budget, scratched. Komoko, Lampona, Angella, Rosbourne, time 1:30.

Third race, five furlongs—Glendenning 6 to 5 won; Sir Preston 7, second; Bell Reed 14 to 5 third; the other starters were Rollock, Geisha Girl, Pomona, Edinborough, Smelter, Altay, Paramount, Annie Marie, scratched. Revolt, F. E. Shaw, Buelcie, Yellowstone, time 1:00.

Fourth race, one mile and 50 yards—Harry Beck 18 to 5 won; Redwald 10 second; Silurian 25 third; the other starters were Badly Used, Claws, Ray Dare, Mitters, Daughter, scratched. Profitable, The Gaddy, Peter J., Hugh McGowan, Frank Pearce, Jack Little, time 1:34.

Fifth race, one mile and a furlong—Sunshine 15 won; Fling 5 to 2 second; The Trotter 8 third; the other starters were The Lieutenant, Melbessinger, Hellas, Sunbeam Queen, time 1:54.

Sixth race, one mile—Downpatrick 1 to 2 won; Rockaway 18 to 5 second; Toledo 11 to 5 third; the other starters were Squire Johnson and Handy Bill; time 1:40 1-4.

HOW THE RAN.

First race, three and a half furlongs—Avonlaks 6 won; Isabella 3 second; Mary F. 5 third. The other starters were Kitten, Semilune, First Apple, Lady Catherine, Dora Gentry, Frank, Isadora, Canapa, scratched. Soledad, time 42.

Second race, five furlongs—Cideres 11 to 5 won; Pauline, 7 to 5 second; Ethel, 10 to 1 third. The other starters were Douse Cafe, Duplex, Corlie, Rubiquet, Neva Lee, San Jose, Harlem, Subur, Budget, scratched. Komoko, Lampona, Angella, Rosbourne, time 1:30.

Third race, five furlongs—Glendenning 6 to 5 won; Sir Preston 7, second; Bell Reed 14 to 5 third; the other starters were Rollock, Geisha Girl, Pomona, Edinborough, Smelter, Altay, Paramount, Annie Marie, scratched. Revolt, F. E. Shaw, Buelcie, Yellowstone, time 1:00.

Fourth race, one mile and 50 yards—Harry Beck 18 to 5 won; Redwald 10 second; Silurian 25 third; the other starters were Badly Used, Claws, Ray Dare, Mitters, Daughter, scratched. Profitable, The Gaddy, Peter J., Hugh McGowan, Frank Pearce, Jack Little, time 1:34.

Fifth race, one mile and a furlong—Sunshine 15 won; Fling 5 to 2 second; The Trotter 8 third; the other starters were The Lieutenant, Melbessinger, Hellas, Sunbeam Queen, time 1:54.

Sixth race, one mile—Downpatrick 1 to 2 won; Rockaway 18 to 5 second; Toledo 11 to 5 third; the other starters were Squire Johnson and Handy Bill; time 1:40 1-4.

TRAVELS FROM THE EAST TO  
FIGHT HIM, DOES BILL  
RICKARD.

The probable outcome of the Ralston anti-fight bill, which is having its turn among the law-makers at Sacramento, seems to worry Alex Greggan very little, if at all. He has imported a man from Chicago to take part in his next "amateur" show on March 15. Bill Rickards is the name of the gentleman from the windy city, and he is a great, strapping heavyweight, calculated to knock several varieties of spots out of the "Tattered Idol, Sam Berger, whom he will meet at the coming show.

Rickards arrived today, accompanied by his trainer, Dick Green, who is not as green as his name would imply, for he has done the fight stunt himself on numerous occasions.

Friends of Bill Rickards who reside in the village by the lakes, are predicting a magnificent future for him. He, in their estimation, is the boy who will gently remove the laurels from the brow of Champion Jeffries to decorate his own forehead.

This, of course, is in the dim and misty future, when Big Bill has accumulated enough of that much-needed attribute, experience. Berger is expected to help him to that end.

Rickards is well known in Chicago and is said to display some cleverness.

DANDRUFF DON'T WASH OUT.

The Germ That Causes It Has to Be Destroyed, to Cure Dandruff.

Many a woman spends an hour twice a week scouring her scalp, thinking that by scrubbing off the scurf she will cure the dandruff. Two hours a week at the age of 40 years, she has spent 260 days of 12 hours each, or two-thirds of a year of her life, in that vain hope: vain because you can't cure dandruff without killing the dandruff germ, and the only way to kill the dandruff germ is to use the Herpelcine Company's sample to The Herpelcine Company, Detroit, Michigan, Bowman & Company, special agent.

Seven Good Goes  
Are Promised.FRANK MAYFIELD, WHO FIGHTS BEFORE THE HAYES  
VALLEY CLUB FRIDAY NIGHT.Championship Battle to Take  
Place Before Hayes  
Valley Club.

A good bunch of amateurs have been signed up to meet before Morris Levy's Hayes Valley Club next Friday evening in Woodward's Pavilion. In all there are seven battles on the program. The main event is between Lew Powell and "Young" Chyonski, the latter being the amateur lightweight champion of the coast, he having won the title away from Powell.

There are six other good battles on the program, the most notable being that between Teddy Wolff and Frank Mayfield, two well-known welterweights, who have fought their way to the top of the amateur ranks. Abe Label and South Side Jack O'Brien were specially matched and should put up a fast fight. Jim Ford will meet Joe McBride at 110 pounds and Pierpont Ordway and Tanglefoot McGovern are to meet in a return match. These boys had a warm time last month and Ordway lost the decision by a close margin. Nobby Otts, brother of Billy Otts, is to go against Mike Syny, the only Greek fighter before the public today.

Jimmy McDevitt will referee the bouts and J. Arthur Johnson, colored, and Joe Gans, also colored, will be the judges.

Cricket Clubs  
Elect Officers.

## California Association Meets.

At the annual meeting of the California Cricket Association held last night in San Francisco delegates were present from the Alameda, Pacific, San Francisco County, Sacramento and Santa Cruz Cricket clubs. The annual report of the secretary-treasurer was read and showed the affairs of the association to be in a satisfactory condition.

The following officers were chosen to serve for the coming twelve months: Henry Ward, president; Captain John Metcalfe, T. W. Beakbane, L. W. Robitaille, E. F. Hilton and T. J. A. Tiedemann, vice presidents; Arthur Inkersley, secretary and treasurer.

E. H. M. Lannowe of the Pacific Cricket Club, F. J. Croll of the Alameda Cricket Club and Henry Roberts of the San Francisco County Cricket Club were appointed a committee to prepare a schedule of matches to be played for the championship of 1905.

'VARSITY DEFEATS  
BOONE'S TEAM.  
Win Game in Ninth Inning

BERKELEY, March 7.—Yesterday afternoon on the diamond the Varsity defeated Boone's Academic team in one of the most exciting games of the season. The preparatory school team put up a star game, both in the field and at the bat, and had the Varsity beaten up to the start of the ninth inning, when, with one man on base, two men out and two strikes, Causey knocked a home run, winning the game.

Boone's scored in the second inning on a hit and an error. California did not get a hit or run until the sixth inning, when Causey knocked a two-bagger and scored on Gunn's out. Boone's scored once in the seventh and both teams scored in the eighth.

Heitmuller started the game, but retired in the fourth in favor of Newman. Randolph pitched a remarkable game for a preparatory school pitcher, duplicating his performance of the week before by striking out eight men. The score by innings:

California	0	0	0	0	1	0	1	2	4
Base hits	0	0	0	0	1	0	1	2	4
Boone's	0	1	0	0	0	1	1	0	3
Base hits	0	1	0	0	1	1	0	1	3
Boone's	0	1	1	0	0	1	3	0	8

Boone's—Edwards, C. F.; Stow, 2b; Randolph, p.; Ray, 3b; Cox, c. s.; Bruntash, 1b; Ramos, c. Siles, r. f.; Rose, l. f.

California—Bliss, c.; Heitmuller, Newman, p.; Graham, 1b; Gillis, 2b; Gausley, s. s.; Gunn, 3b; Jordan, Butler, l. f.; Sweet, Shaffer, c. f.; Reed, r. f.

FEATHERS TAKE  
TWO GAMESDEFEAT THE SYNDICATES IN A  
TOURNAMENT CON-  
TEST.

In the tournament game at the Syndicate Alleys last night, between the Syndicate and Bernstein Feathers, the latter team won two games, although the total score for the three games was very close, here being a difference of only ten pins in favor of the Feathers. Scores follow:

BURNSTEIN FEATHERS.

	Totals
Brown	153 187 139 440
Eden	112 108 95 376
H. Brickell	135 148 105 388
Holmes	134 122 175 432
Kunhardt	142 187 120 440
Handicap	75 76 76
Totals	812 797 710 2319

At the Syndicate Alleys last night high scores in ten pins were made by: Carson, 205, 224; Davis, 211; Gregg, 208, 203; Brown, 204.

Duck plus—Brown, 104; Dunn, 102; Fitzmaurice, 117; Proctor, 108; Thomas, 114; Adams, 103.

To-night the Oakland Wheelmen and Buffaloes will try conclusions on the Syndicate Alleys.

NOVICE TEAM IS  
CHOSENEDEN-WHEELMEN SELECT TEAM  
FOR THE RELAY  
RACE.

HAYWARDS, March 7.—Members of the novice team were selected last night at a special meeting of the Eden Wheelmen. They were J. Angous, "Ponjo" Tott, Joe Furtado, Frank Nunes, J. Mendoza, and Frank Mendoza. Each is to wear the ensign of the club once around the San Leandro triangle in the relay race of fifty miles next Sunday. Teams from the Oakland Wheelmen, New Century Wheelmen, California Cycling Club, and Bay Cities Wheelmen will also compete for the trophy.

The race can be entered only by novice riders who have never competed for prizes.

A tryout on the triangle last Sunday decided upon the members of the team. The six chosen were those who rode the best time among the novices. In this class also were John Chyonski, Manuel Valente, who did not do so well.

Last night preliminary arrangements were made for a team to represent the Eden Wheelmen in a pursuit race to be held at San Jose March 26. The members will in all probability be chosen from the following: Allen, Everett, J. Silva, M. Joseph, Peter Borrie, F. Ashford and Manuel Mendoza, these made the best time in another tryout last Sunday which was open to all the club members. Everett went around the triangle in the shortest time, and is the best rider in the club.

In the pursuit race there will be teams from the Oakland Wheelmen, Garden City Wheelmen, California Cycling Club, Eden Wheelmen, and Bay Cities Wheelmen. Five new members were initiated at the club meeting last night. There will be others at the next session.

SULLIVAN AND  
TOM BURNSSCHEDULED TO FIGHT IN TOWN  
OF TACOMA THIS  
EVENING.

Tommy Burns, the Los Angeles boxer, together with his manager, Leroy McKenna, is in Tacoma, ready for the scrum with "Twin" Sullivan scheduled to take place this evening.

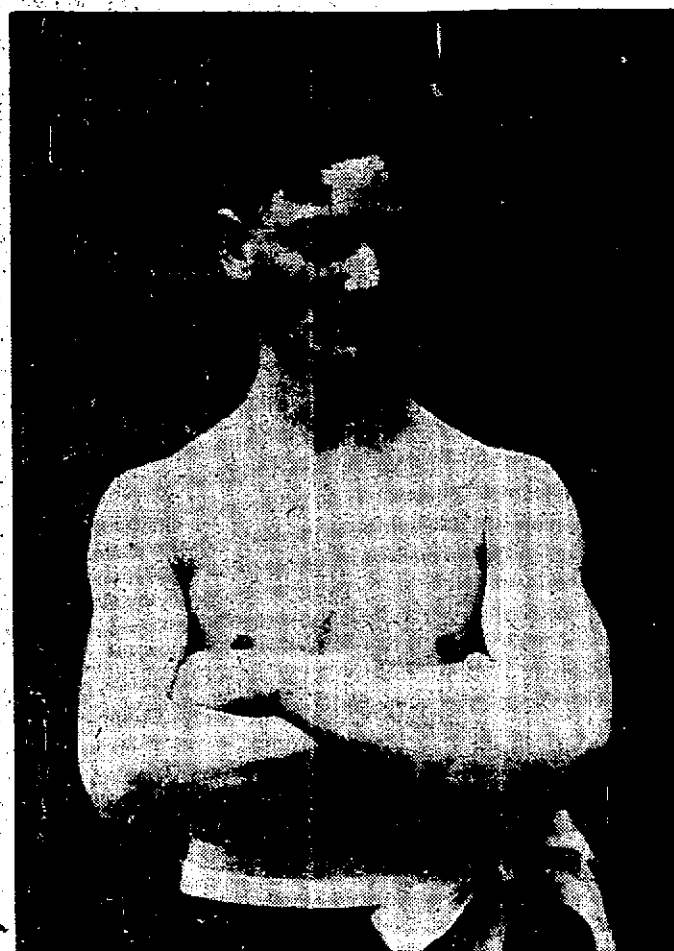

Sullivan has many friends in Tacoma and at least a hundred people from Portland will witness the go and much interest is displayed in the event.

STRENGTH TESTS  
ARE TAKENBOATING CREW OF CALIFORNIA  
MAKE A GOOD  
SHOWING.

BERKELEY, March 7.—Seven candidates for the Varsity crew took the strength tests last week, all of whom made very creditable showings. Coach Garnett is well pleased with the material which he has and thinks that both the Varsity and Freshman crews will be stronger than last year. The opponent of both crews is as yet entirely undecided.

A Surprise Party.

A pleasant surprise party may be given to your stomach and liver by taking a medicine which will relieve their pain and discomfort, viz. Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation. 25c. at Osmonds' drug stores, Seventh and Broadway and Twelfth and Washington.

Roche Selected  
As the Referee.BOBBY JOHNSON, WHO FIGHTS SNAILHAM AT VALLEJO  
FRIDAY NIGHT.Johnson and Snailham Scheduled to Meet at  
Vallejo Friday.

Billy Roche has been selected to referee the Johnson-Snailham battle, which is scheduled to take place at Vallejo next Friday evening. The little fellows will meet before the Vallejo Athletic Club and that organization will have a chartered train to carry the sports from San Francisco and vicinity to the scene of the battle.

Johnson is doing his preparatory work at Blaken's, while Snailham is putting on the finishing touches at Vallejo.

Benefit Game  
to Be Played.

## Occidentals Will Be in Contest.

The Occidental association football team will line up against the Independents or the Vampires in a benefit game next Sunday, March 12th, at the Presidio Athletic Grounds, beginning at 3 p. m.

The proceeds of the affair will go toward helping pay the expenses of Alex. Mathieson, the crack right-half of the Occidental team, who had his left foot badly crushed in an elevator shaft about two weeks ago.

The contest between the above teams should be very keen, as the Occidentals have been training for the past three weeks for the coming five-a-side match to be held at the Mechanics' Pavilion in April during the fish, game and forest exhibit.

"I'LL BAT THUS"  
SAY BALL PLAYERS.

## How to Increase Averages.

There was very little batting done in any of the leagues last season, and the exultant pitchers had things pretty much their own way from start to finish. The averages began to drop within a month after the campaign commenced, and kept right on dropping till the close. And even this did not satisfy the victorious slabmen. As soon as the season ended, they began to plan up new and frightful curves for the war of 1906, until, at the present hour, every pitcher has an assortment of shoots, drifts and shunts, many of them opposed to all laws of geometry and gravity, and all of them opposed to the batting averages.

It is generally realized by the rank and file of the profession—the plain everyday batmen—that the pitchers are having things entirely too much the way they want. Craft must be met with craft. The long head and science of the pitcher must be resisted and overcome by skill, science and determination. Hence the wiser batmen in the big leagues have begun to practice new tricks in hitting and when the song rings in April at Osmonds' drug stores, Seventh and Broadway and Twelfth and Washington, there will be a set of batting maneuvers calculated to scare the general run of the Washington home.

Correspondence or personal interviews with the sluggers show that many of them have inventions which really ought to overpower the pitchers and scatter their curves all over the ball parks.

Following are a few of the schemes which the boys have planned:

Truck Egan—There is nothing in the statutes showing how many bats a man may use. I shall tie three bats together and swat the spit ball with the combination. One good whack from my triple bat ought to send the leather out of that little lot in Tacoma every time.

Russ Hall—I shall try facial contortion. Just as the pitcher starts to deliver the ball, I will screw up my features into the close semblance of 3 cents' worth of dog meat. This will unnerve the pitcher, and he will send over four wild ones.

Geo. Hildebrand—I am having a bat made of dogwood. This will bark at the ball and frighten it into submission.

Mike Lynch—I shall trust to moral suasion. As I face the pitcher, I shall

BASEBALL GAMES  
SCHEDULEDLOHMAN'S LADS TO PLAY ON  
SATURDAY AND  
SUNDAY.

Local fans will have a chance to see the Oakland team in action for arrangements have been made for a game between Lohman's lads and the Spaulding team to be played at More Park next Saturday afternoon. Game will be called at 2:30 p. m. The admission to this game will be free—all fans are welcome.

On next Sunday afternoon at 2:30 o'clock on the More diamond the Oakland team will clash with the Stockton aggregation. Emerson, who came very near being signed by Lohman, will be in the points for the visitors. There will be a small admission charged to the Sunday game.

These games will be the first of the season on the local baseball grounds and no doubt the fans will respond to the invitation of the management.

\*\*\*\*\*

remark in a soft and soothing voice: "Say, you thick-headed lump of nothingness, I'm your friend. See? But if you throw anything I can't hit, I'll go out there and I'll kick the wadding out of you, bing, see?" And I think my batting average will be over .400.

"Busher" Cravath—A great deal can be done by getting hit with pitched balls. Prof. Schuetz von Hochenstein, a Cincinnati chemist, has perfected a magnet which will attract leather. I will wear one of these magnets in the section of my uniform where a wallop will hurt the least. This will draw the ball against me, and I will get my base that way four times a game.

Frank Dillon—I will simply reverse my usual tactics. I have always said: "Hit 'em where they ain't." This year I will hit 'em where they are. The fielders will be surprised at seeing the ball come right to them and they will make wild throws, and I will get two bases where I formerly made but one.

Ed McKee—I shall try the new up-percut method of batting. No uppercut the ball you hold the bat way low and behind you. As the ball comes you swing the bat parallel with yourself, bringing the end of the stick against the under side of the leather. This will lift the ball, and it will come between the in and out fields, just where no one can get it.

Tommy Sheehan—I shall try pool shots on the ball and believe they will work. When the ball approaches, make pool. When the ball doctors I will poke it with the tip of the bat, holding the bat like a cue. This will inevitably result in a bunt which can't be handled in time to head me off at first.

FOOTBALL COACH  
WRITES A STORY

BERKELEY, March 7.—James Hopper, last year's football coach, has a story in McClure's Magazine for March, entitled "The Maestro of Balangiang." It is the story of a California graduate teaching school in the Philippines and tells how the flying wedge and the Oski Wove served to suppress a native insurrection.

Sent Her Double.

"I knew no one for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., and when I got better, although I had on doctors, I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful. Guaranteed to cure stomach, liver and kidney disorders. At Osmonds' drug stores, Seventh and Broadway, and Twelfth and Washington; price 50c.

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Chas. H. Fletcher*

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 N. MURRAY STREET, NEW YORK CITY.

# LANGUAGE CAUSE OF TROUBLE

## Hungarian Nation and Crown Prince May Have Conflict.

VIENNA, March 7.—Judging by reports received from Budapest, a conflict between the crown and the Hungarian nation appears possible and even probable. The contending interests cannot agree on the matter of military reform and particularly on the military Hungarian army as the language of command. Hungarians declaring that this reform must be instituted and the Emperor, on the other hand, insisting that the side of the crown must be maintained. This question of language or command is more pregnant of danger today than ever before.

Six out of sixteen Hungarian political leaders have already been received in audience with the Emperor. They and others who were received in audience before these six were called to Vienna, have made it known that the Emperor declares that the military demands of the united opposition parties are inadmissible, characterizing them as meddling and an intrusion upon his prerogatives.

In these interviews, the Emperor spoke feelingly of his conviction of the necessity of an undivided and strong army always ready for battle. He quoted examples from history in support of his statements, and declared decisively that the organization of the army was absolutely a personal matter with himself. He said he could not permit existing conditions in the army to be altered, and asked the politicians with whom he conferred to use their efforts to procure the united opposition to exclude the demands for military reforms from their program. This opposition shows no signs of wanting to do so, on the contrary, the parties in opposition insist that the decision as to what language shall be used in the Hungarian army is not the exclusive right of the crown, and say that the Emperor's attitude and declarations remove even the expectation that his Majesty eventually will respect the wishes of the Hungarian people regarding the proposed military reforms. One side or the other must make radical concessions, but both show signs of being very stiff-necked.

It is a contest for principles which on the one side the Emperor declares he will not recognize and which on the other side the opposition insists shall be conceded. As a result of the serious outlook arising from the knowledge of the Emperor's declaration, the interest concerning the outcome of the remaining audiences with Hungarian political leaders is disappearing among the Hungarians, who are heatedly discussing eventualities. These questions of military reform and the language of command reached an acute stage in 1903, when Count Tisza was made Premier. At that time Emperor Francis Joseph made at the last moment certain concessions to the Hungarians which even yet are adversely criticized in Austria. The opposition is actually in the minority, while now it is the majority.

## SAYS HER ARREST WAS SPITE WORK

As a result of a neighborhood quarrel at Melrose Mrs. Laura Stokney has been sought for \$10,000 damages against J. F. Brevoort for causing her arrest on a charge of insanity. She says she was subjected to the humiliation of arrest and kept in confinement for twenty-four hours at the Receiving Hospital. The arrest took place just a year ago, but since then the ill feeling has been kept alive, according to her, by neighborhood gossip and the remarks of her neighbors. Now she intends to take steps that she believes will gain her a hearing. At the time her examination was being made, Melvin commented strongly on Brevoort's action in causing her arrest upon such a charge.

## M'NEIL OBJECTED.

LONDON, March 7.—In the House of Commons Swift McNeil (Irish Nationalist) moved the adjournment of the House to call attention to the appointment of Lord Selborne as High Commissioner in South Africa, he having filled the post of Honor Secretary of the Colonies at the time of the Jameson raid and during the friction with the Transvaal prior to the Boer war. Mr. McNeil's motion was defeated, the government majority being 68.

# THEY NEVER FAIL

THAT IS WHAT THEY SAY ABOUT THEM IN OAKLAND, AND IT IS, THEREFORE, RELIABLE.

Another proof, some more evidence, of advocates who endorse the old Quaker remedy, Doan's Kidney Pills. Read this convincing endorsement of the claims made for that remarkable preparation:

J. J. Lawrence, miner, of 160 Seventh street, says: "Lameness and pain across the small of a mine-hack today prevents a man from performing work, and even when the backache is not so pronounced as to prevent working, it certainly is an aggravating annoyance. When in Ecuador, South America, I first noticed that in some way my kidneys were not performing their function properly and feeling across the loins ensued. Since then other attacks have occurred and I was suffering from one when I noticed Doan's Kidney Pills advertised in our Oakland papers and procured a box. The first had not helped me, and I never would have bought a second, and if the second had not brought greater relief I never would have continued the treatment. You can say for me that Doan's Kidney Pills can be depended upon to do exactly as stated. For sale by all dealers. Price, 50 cents. A. J. McNeil, Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other."

# WINDOW DISPLAY AN ART

IMPROVEMENT IN SHOW SPACE OF TAFT & PENNOYER MARKS ADVANCE.

The improvement just made in the windows of the firm of Taft & Pennoyer at Broadway and Fourteenth street at a great cost is the beginning of the metropolitan arrangement of goods in show windows and marks an advance in the trade of the city.

It is the abandonment of the old style window extending to the ceiling for one-roofed and enclosed in handsome paneled back ground.

The extent of the window space in this particular establishment makes this change particularly noticeable and is a standard for the city. Few windows in San Francisco can now surpass the showing made by Oakland's foremost department store.

Extending along on Broadway and on Fourteenth street the windows of this progressive firm have been enclosed in with polished redwood and mahogany, while from the window roofing, frosted electric lights at night throw their subdued rays on expensive and handsome fabrics with their rich background of rare woods.

This change in arrangement is more real than apparent. At first glance, but a comparison of the old style window with the new quickly demonstrates to the observer the advantages and the improvement in the evolution of this particular part of the trade industry.

# WOULD STOP THE RACES

RESOLUTION INTRODUCED REQUESTING SENATORS TO STAND BY ESPEY BILL.

Countdown Pendleton introduced a resolution last night requesting the local legislators now in Sacramento to work for the bill introduced by Assemblyman R. H. E. Espey prohibiting the selling of pools in the State on horse races.

Pendleton stated that the race track was a corrupting influence which should be removed from the community. Fitzgerald said that he did not think it would be in his taste to attempt to tell the Senators before whom the bill is now pending.

"We would not like the legislature sending us instruction on the water question," said Fitzgerald.

Bacuss agreed with Fitzgerald that it would be in his taste to attempt to tell the Senators before whom the bill is now pending.

Councilman Elliot saw no harm in passing the resolution.

"When the matter came to a vote Pendleton's resolution carried by the following vote:

Ayes—Atkins, Cuvillier, Elliot, Pendleton, Meese, McAdam, Wallace and President Dorrin.

Nays—Bacuss, Fitzgerald.

The resolution is as follows: "Whereas, Assembly bill 260 introduced by R. H. E. Espey of this city, the purpose of which is to prohibit pool selling, bookmaking and other forms of gambling on horse racing is now before the State Senate and

"Whereas, the City Council of the City of Oakland, do recognize the pernicious influence of the race track and its attendant evils, and

"Whereas, we believe that much of the crime committed within our borders is directly attributable to the influence of the race track; Therefore be it

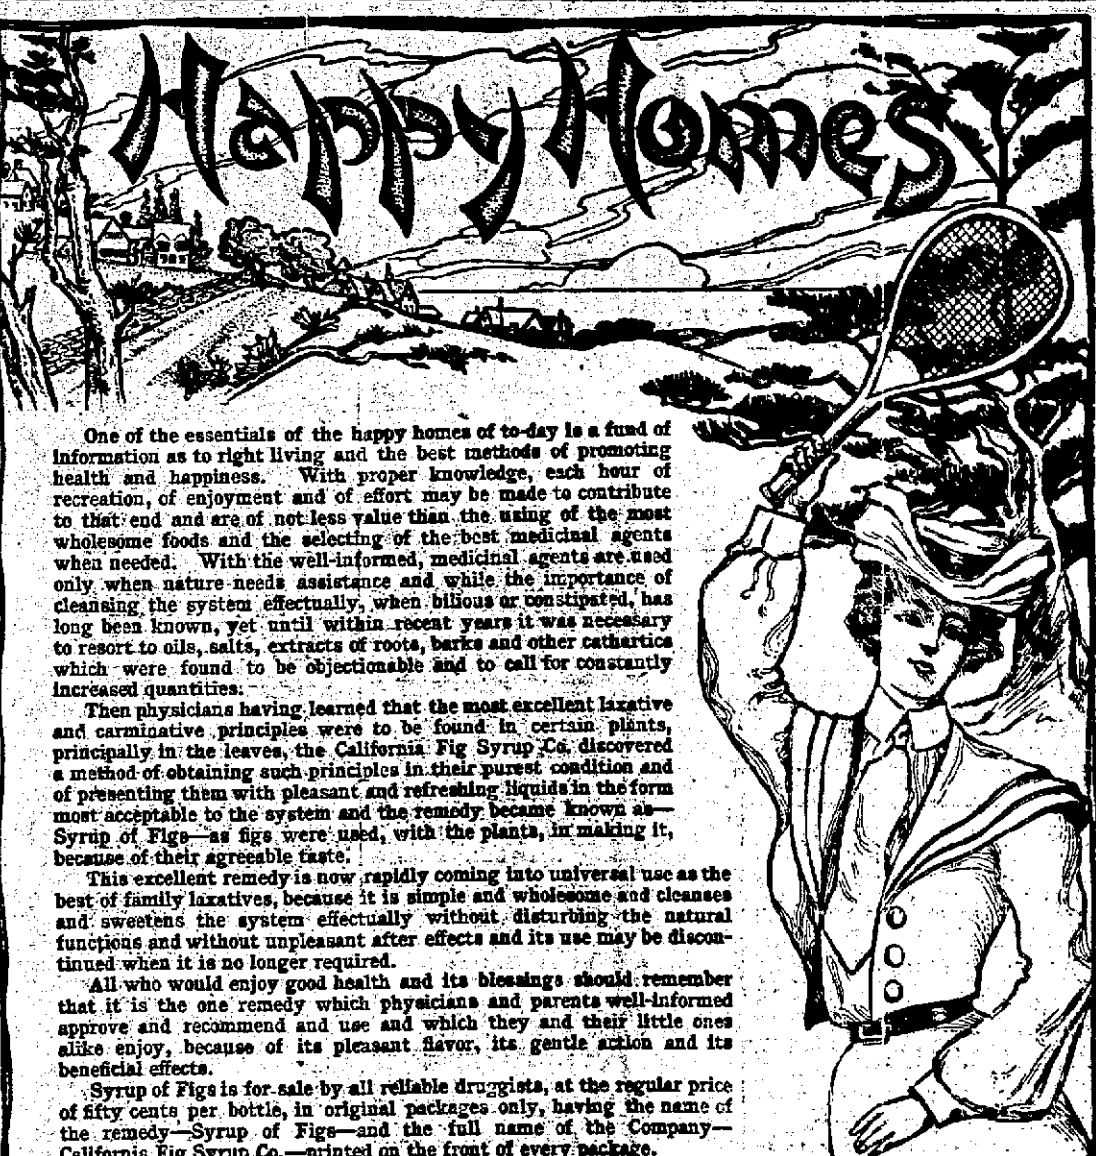

"Resolved, That we do highly commend the act of R. H. E. Espey in introducing and successfully promoting the said bill in the Assembly and we urge the Senators representing this county and all members of the Senate, to do everything possible to secure the passage of this bill at present session of the Legislature."

# PURCHASES PART OF WATER FRONT

Nearly thirty acres of water front land in East Oakland, known as Sessions Basin, has been purchased by the American Magnesia Company, which owns the Red Mountain mines south of Livermore, for a factory site. Construction of the plant will commence immediately. The property was owned by J. S. Deament. The purchase price has not been announced.

The property has a long frontage upon the East Oakland basin, and is directly on the line of the new work that is being continued by the Federal Government and for which the last Congress has appropriated \$250,000. There is ample area for the different plants that will be erected by the Magnesia Company for the handling of the ore. One plant will be for the manufacture of fire brick, another for the manufacture of a patent building material, a third for the manufacture of ceramic and glass, and in addition there will be wharves and bunkers for the shipping of their ore to Eastern and foreign markets.

The deal will mean the employment of many men in Oakland, and many more in the Livermore district, from which point the ore will be shipped to Oakland.

One of the essentials of the happy homes of to-day is a fund of information as to right living and the best methods of promoting health and happiness. With proper knowledge, each hour of recreation, of enjoyment and of effort may be made to contribute to that end and are of not less value than the using of the most wholesome foods and the selecting of the best medicinal agents when needed. With the well-informed, medicinal agents are used only when nature needs assistance and while the importance of cleansing the system effectually, when bilious or constipated, has long been known, yet until within recent years it was necessary to resort to oils, salts, extracts of roots, barks and other cathartics which were found to be objectionable and to call for constantly increased quantities.

Then physicians having learned that the most excellent laxative and carminative principles were to be found in certain plants, principally in the leaves, the California Fig Syrup Co. discovered a method of obtaining such principles in their purest condition and of presenting them with pleasant and refreshing liquids in the form most acceptable to the system and the remedy became known as Syrup of Figs—as figs were used, with the plants, in making it, because of their agreeable taste.

This excellent remedy is now rapidly coming into universal use as the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually without disturbing the natural functions and without unpleasant after effects and its use may be discontinued when it is no longer required.

All who would enjoy good health and its blessings should remember that it is the one remedy which physicians and parents well-informed approve and recommend and use and which they and their little ones alike enjoy, because of its pleasant flavor, its gentle action and its beneficial effects.

Syrup of Figs is for sale by all reliable druggists, at the regular price of fifty cents per bottle, in original packages only, having the name of the remedy—Syrup of Figs—and the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

# DENOUNCED KANSAS

STATE DOES NOT LIKE REPORT OF COMMISSIONER IN BEEF INQUIRY.

TOPEKA, March 7.—The Kansas Senate has passed a resolution denouncing the report of Commissioner Garfield in the beef investigation and requesting the President of the United States to "reject this report and appoint some man with experience, independence and nerve that shall qualify for the task of investigating this gang of commercial highwaymen; known as the Beef Trust, to the end that the public may be fully informed as to the sources of their enormous profits and the foundations of their colossal fortunes and the means, instruments and agreements by which for a generation they have robbed both the purchaser and the consumer, to the end that legislation protecting both may be intelligently devised, and that the light of publicity, that light that is destructive of all trusts and combinations may be thrown upon the operations of this vicious and iniquitous conspiracy."

# BIG DEMAND FOR TRAINED BOTANISTS

BERKELEY, March 7.—The botany department of the University of California reports an utter inability to fill the positions which are open to graduates in the Philippines and on the Pacific Coast. Applications are continually being received for competent persons, but the supply does not nearly equal the demand.

# BUFFALO BILL NOT POOR.

OMAHA, March 7.—Colonel William Cody asks the Associated Press to deny a statement to the effect that his financial affairs are unclouded. Cody states that there is no word of truth in the story, and that his Western interests and those of his business were never in better condition. He also states that his health was never better. His irrigation interests in the big Horn Basin, he says, have been brought to completion. Cody will leave for New York today, and will sail for Paris next Saturday.

# LEAPS FROM WINDOW.

CHICAGO, March 7.—James McGordon, aged 40, an agricultural expert and specialist in the growing of celery, has committed suicide by leaping from the fourth floor of McCoy's Hotel to the street. He had shown signs of insanity while on a train with his wife coming from California. He went to live in land, met reverses, and worry from this cause is said to have brought on his insanity.

# Acids of Wheat

keep it sweet and preserve all its flavor and nutrition. In making California Wheatine all the moisture as well as the hull is removed, leaving only the meaty kernel. Flaked wheat food for breakfast. All good grocers. Pacific Cereal Association, San Francisco

# BY SNELL LADIES IN ORGANIZATION

GRADUATES OF SEMINARY FORM UNION FOR SOCIAL INTERCOURSE.

BERKELEY, March 7.—A number of ladies, representing the graduates of Snell Seminary have completed an organization of the Snell Seminary Alumnae. The object of the Snell Seminary Alumnae Association seems to be to promote social intercourse among its members and to keep alive their love and loyalty for their alma mater.

The following officers were elected: President, Mrs. Walter Henry; vice-president, Mrs. H. N. Bullock and Mrs. E. F. Gaudin; secretary, Miss Margaret S. Smith; treasurer, Miss S. Livingston. Among those present were: Mrs. E. F. Gerald, Mrs. James MacIsaac, Mrs. James M. Torrey, Miss Mary Carrol, Miss Emma L. Roberts, Mrs. H. A. Carlton, Mrs. T. M. Robinson, Miss Alice M. Flint, Mrs. Douglas Keith, Mrs. E. G. Poulting, Mrs. S. F. Griffin, Miss May L. Baldwin, Miss M. E. Ferry, Mrs. G. A. Barton, Mrs. Thomas M. Jones, Elmer E. Childs, Mrs. James S. Jenks, Mrs. Estelle D. Brown, Mrs. David James, Miss Maud Edith Pone, Miss G. W. Burrell, Mrs. C. M. H. Miller, Miss E. M. Finster, Miss G. S. Sperry, Miss Miss A. E. Cochran, Mrs. Charles E. Kelly, Mrs. E. S. Phleger, Miss M. H. Powell, Mrs. Walter Henry, Miss Arni B. Jones.

# CONDUCTOR BONES IS PROMOTED

Samuel West Bones, son of the late Senator Bones of Alameda, and who has been a conductor on the Seventh street local train for thirty-two years, has been promoted to the Berkeley run. Mr. Bones is fifty-eight years of age but the oldest inhabitant would say that he looks as young as he did thirty years ago. He is one of the most popular railroad men in the West and it may be said without exaggeration, that he knows by sight, at least, every man, woman or child who travels back and forth between Oakland and San Francisco. Mr. Bones, who has resided in California for fifty-two years, is a life member of the Olympic Club. He has always been very popular, and his courteous manner has won him many friends who will miss his genial countenance on the Seventh street line, although they are pleased at his promotion.

# MOTHER'S CONGRESS.

WASHINGTON, March 7.—Delegates from Mothers' Congresses in twenty States of the Union are expected to attend the thirteenth National Congress of Mothers, which will open in Washington March 10th. The address of President Roosevelt before the Congress will be delivered Monday evening, March 13th. The Menace of Mormonism, is the subject for Tuesday evening, March 14th, when Mrs. Margaret Dye, of the national superintendent of legislation for the W. C. T. U., and Senator Dubois of Idaho will be chief speakers. Mrs. Roosevelt will receive the delegates and visitors at the White House Tuesday afternoon, March 14th.

# TROUBLE FOR SYRIANS.

PORT AU PRINCE, Hayti, March 7.—The American Minister, Mr. Powell, having been informed that the Haytian government had decided to immediately expel all Syrians from the Republic, requested President Nord to grant them a delay of three months. The President accordingly postponed the expulsion of the Syrians until June 1st. There is a very bitter and constant increasing feeling here against the Syrians owing to their alleged unfair competition in business, which might bring about serious complications.

## TODAY'S SUBURBAN NEWS

## BIG PATRONAGE FOR NEW PUBLIC LIBRARY.

Reports to Trustees Indicate That Berkeley Institution is on Very Solid Footing.

BERKELEY, March 7.—That the public library in the new Carnegie library building of Berkeley promises to be very popular was shown at last night's meeting of the Board of Library Trustees when Librarian Moore reported that on the first day the library rooms were open 400 books were issued to borrowers. If this rate continues it means a monthly circulation of from 12,000 to 14,000. The attendance in the juvenile room and the reading room was reported as excellent.

**NEW FURNITURE RECEIVED.**  
Librarian Moore stated to the board that all the new furniture had been received and was being rapidly installed. Owing to its being put in place the library had been closed Sunday and Monday. The furniture which was designed and built especially for this library by the library bureau, is of solid oak golden in tint to match the finishing of the building and of most artistic and useful style. It is said to be the finest furniture in any public building in the West.

Librarian Moore's complete report was as follows:

**LIBRARY IS QUICKLY MOVED.**  
The moving of the library to its new quarters in the Carnegie building was completed on the second day of February at noon the operation having occupied three and one-half days. On account of the strong probability of the city government renting the rooms vacated for city offices, window blinds, stove, glass partition and linoleum on the floor were left as they were placed, as they could not be utilized in the new building.

**WAITED FOR FURNITURE.**  
As the books were moved in classes a few days sufficed to get them placed on the shelves but as the furniture intended for the new building was expected to be on hand any day it was thought the best of whom not to open until it was in place. However as the furniture did not come, some of the old furniture, with several tables rented from Durgin & Blakeley, were placed in the rooms and the library opened for giving out cards to those who held unexpired cards on February 27. On the next day February 28, we began loaning books.

**BOOKS LOANED OUT FIRST DAY.**  
The circulation on February 28th was as follows: Direct from library—Adult, 112; juvenile, 78; total 190. Through Librarian Moore's office, 98 in all 548.

As our change in the charging system necessitated a much smaller

borrower's card than the one heretofore in use new cards were written for all those who held cards which were unexpired. These cards were prepared before moving. The cards in force by actual count on March 1, 1905, were 3,852.

**MANY BOOKS RECEIVED.**  
Number of books purchased, 94; number of books donated, including 21 number of books donated, including 670 volumes received on dedication night 676 total, 791. Visitors to branch reading room—South Berkeley, daily average, 127 1/2; West Berkeley, 3100 daily average, 114 22-27.

**LAWYER FOR FRONT OF LIBRARY.**  
After some discussion, it was decided that the ground in front of the library building should be devoted to a lawn. Robert J. Carver's bid of \$108 for putting in the lawn removing six large stumps in the rear of grounds breaking up the ground in the rear of the building and building walks and driving around the building was accepted.

The illuminated sign in front of the old library building will be removed and hung from the windows of the South Berkeley Reading Room which at present has no sign.

**BILLS ORDERED PAID.**  
The finance committee made the following report, which was accepted and warrants ordered drawn for the payment of the claims: F. E. Sadler, \$149.59; \$24.50 R. A. Berry Co. \$20.20; Schmidt & Zehner, \$24.55; London & Lancashire Insurance Company, \$60; P. H. Mills \$50; William Chapman, \$3; H. Borkheim \$43; John M. Foy, \$15; Adam Guehrer \$17; F. W. Foss Company, \$17; Cohn Jewelry Company, \$15.50; C. G. Simonds \$27; Pavot Upholstery Company, \$10.50; J. M. McNamara, \$4; D. R. Moore \$125; Percival Steadman, \$40; C. Pederson, \$5; W. R. Dickerson, \$50; A. G. Weinberg, \$3; Joshua Cole, \$50; Mrs. Alice G. Whitbeck, \$50; Miss Mabel Weed, \$6; Miss Gertrude W. Littlejohn, \$50; Miss Jess Shaw, \$25; John E. Boyd, \$17; Contra Costa Construction Company \$68; Judd Judd Company \$41.29; Mrs. E. C. Heister, \$17.55; Contra Costa Water & Electric Light Company \$26; Durgin & Blakeley \$28.50; \$9.20; \$26.25; \$29.30.

Out of the Carnegie fund, a bill of \$60.50 was paid for the rubber mats on the stairs.  
At 4:45 o'clock on Wednesday March 15th the board will hold a special meeting to finish up the business connected with the building of the new library.

## OAK LEAVES FOR GEODETIC WORK HIS SUBJECT FORAGE

AGRICULTURAL EXPERT DE-CLARES LIVESTOCK ARE FOND OF THE VEGETATION.

BERKELEY, March 7.—A bulletin entitled "The Value of Oak Leaves for Forage" by V. W. Mackie, O. S. published by the experimental station Berkeley has been republished by the United States department of Agriculture in recognition of its worth. While expelling a forest reserve in the summer and fall of 1901, Mr. Mackie noticed with surprise the eagerness with which the leaves of certain oaks were eaten by livestock. He made extended observations on the extent to which such species were eaten. Cattle and later undertook a chemical analysis of six species of oaks and one of poison oak to determine the real value of these forage. His bulletin comprises the results of his investigations. Mr. Mackie is present engaged in a soil survey in the Sacramento valley under the direction of the Government.

## NANCE MAKES ANNOUNCEMENT

BERKELEY, March 7.—Captain Nance has announced that under the provisions of paragraph 134 of the regulations of the military department, written examinations for promotion for the ensuing year will be held on Saturday, April 1, 1905 commencing at 1:30 p. m. All freshmen in the course military 1, are eligible to take the examination for corporal all sophomores for sergeant, all juniors for commissioned officer.

The Adored—That hateful Gussie Ricketts didn't send me an invitation to her party.

The Adored—Well don't, I don't want to be the prettiest one there.

**Woman's Nature**  
Mother's Friend, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.  
THE BRADFIELD REGULATOR CO., Atlanta, Ga.

**BERKELEY, March 7.**—The work of the Coast and Geodetic Survey was the subject of a lecture delivered yesterday afternoon before the City Engineering Association by Professor George Davidson of the geography department of the University. The speaker was thoroughly acquainted with his subject having been connected with the geodetic survey service for forty years. Five of them on this coast from 1888 to 1895 he had charge of the work being done here. He experienced himself more with details and experiences than with the generalities of the service work thus adding a personal interest to his remarks. He showed the differences between the old and the new methods in surveying and dwelt upon the advantages the latter possessed by the more modern practices. Illustrations and accounts of wonderfully accurate measurements made by himself were freely given. One of the greatest advantages possessed by the geodesy of today is the improved type of instrument known as the geodetic level. It is a measure what you cannot see or to see what you cannot measure. Horizontal refraction is a phenomenon whose existence is doubted by length Professor Davidson gave instances where otherwise accurate work had been spoiled by this bothersome detail. Great stress was also laid on the necessity for the observer telling the truth and recording in his notes exactly the values read with any explanatory information which he may deem advisable.

**A QUEEN ON "SOCIETY."**  
The late Queen Victoria once said to an archbishop: "As I get older I cannot understand the world. I cannot comprehend its littleness. When I look at the favorites and littleness it sends me to me as if they were all a little bit."

**Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. It prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.**

## BANKING BUSINESS

University Students Told About it By Wells-Fargo President.

BERKELEY, March 7.—"The Banking Business and the Requirements for a Successful Career in It" was the subject discussed before the College of Commerce yesterday afternoon by Mr. F. L. Lipman, president of the Wells Fargo Company of San Francisco. Mr. Lipman said in part: "No matter whether one enters the service of a bank with the education in English, mathematics and other subjects absolutely indispensable to his work or whether he comes fully trained from college it is a fact that he begins, so far as banking is concerned, at the bottom of the ladder. If he advances it can only be through hard, consistent work, much of which must be done outside of the bank. In practice, too many men fail to heed the necessity of this outside work. It is a necessity which applies to college trained men as well as those not enjoying such educational advantages, but with it the college man should very much more than overtake his competitors. The main point is that a man must be always ready for his opportunity."

Absolute honor, courtesy and a consistent willingness to put yourself in the other fellow's place are the prime qualities necessary for success as a bank clerk. The first and foremost he must know his own job no matter what it is and know the work of all holding positions lower than his. "But the real part of banking is done in the bank office. There the great principles which govern the business come into play. If a man works up to the top he must master these principles. This is education in the true sense education which means acquiring ability, knowledge and power and if faithfully striven for its reward is sure and liberal."

## "MIKADO" GOING TO SACRAMENTO

UNIVERSITY PRODUCTION OF OPERA TO BE MADE AT THE CAPITOL CITY.

BERKELEY, March 7.—"The Mikado" which was so successfully presented by student talent recently at the Macdougall theater in Oakland, will probably be put on in Sacramento in the near future.

In pursuance of an invitation by the Tuesday Club, one of the most exclusive social organizations of the capital city Mervyn Samuels, '05 manager of the company, went to Sacramento to confer with the officers of the club. As a result the club will vote definitely on the proposition tomorrow night and the cast will meet on Wednesday night at 8 o'clock in Hearst Hall for a rehearsal and to discuss the trip. It is probable that the entire cast who took part in the first production will take advantage of the opportunity offered to go to Sacramento, and an even better production of the play will be given there, as all weaknesses which manifested themselves at the former performance will be corrected.

## GYPSY TRIBE EXPELLED

CONSTABLE CRAMER DRIVES WANDERERS AWAY—FRUITVALE NOTES.

**FRUITVALE, March 7.**—Constable Harry Cramer, of Fitchburg, has finally succeeded in expelling the gypsy tribe which made a settlement on Seminary avenue early last week. Last Wednesday the officer gave the wanderers notice to leave within twenty-four hours but allowed them to stay a few days on account of the serious illness of an old woman of the tribe. Yesterday, however, he judged that she was sufficiently recovered to travel and insisted on the departure of the camp. His mandate was complied with, though unwillingly. The gypsies did not leave their destination, but started in a southerly direction. All the arrangements will probably be completed within a month.

The lodge was founded less than three years ago, but has a large membership, principally of women. Nearly every other similar organization in Fruitvale and Elmhurst is a benefit lodge, and the members have decided to come into line.

**KING GREETS DAVIS.**  
LONDON, March 7.—As Rear Admiral Charles H. Davis, the American member of the international commission on the Hull incident was embarking at Dover Saturday a letter was handed him from King Edward

## WHEELER APPROVES

Plan to Make Hospital of President's Mansion Has His Sanction.

BERKELEY, March 7.—Informal approval has been given by President Benjamin Ide Wheeler of the plan to make a university hospital of the unfinished mansion built for his use by the Regents, but never occupied by him. The president has forwarded to Assemblyman Philip M. Walsh, of Oakland, now at Sacramento, a letter to Wheeler by Dr. Reinhardt, university physician and also health officer of Berkeley, in which Dr. Reinhardt shows how the mansion that was to be President Wheeler's could be fitted up for hospital purposes and made self supporting.

Dr. Reinhardt takes into consideration the fact that the Legislature has agreed to appropriate \$15,000 with which to complete the big stone house on the hill. The money could be spent, Dr. Reinhardt says, in making the building a first class hospital. There are 3000 persons in and about the university, the physician argues, who would be eligible to admission to the place when ill, and an annual fee from them of \$2 each would provide \$6000, sufficient to support the institution, with other contributions that might be made. In a satisfactory manner. There is now in the Regents' hands, it is said, several thousands of dollars that might be used for this hospital. The money referred to represents property once owned by the Berkeley Hospital Association, a university adjunct that once sought to establish a hospital in Berkeley.

The project failed because of the opposition of the property owners who objected to locating the proposed hospital near their residences. The property of the association was then sold and the proceeds given to the Regents with the understanding that it would be applied to the securing of beds in a hospital for the university. It is said that President Wheeler would favor using the uncompleted mansion on the hill as his own residence, instead of for a hospital, if the Regents would agree to give him in his new mansion the money now paid for the rental of his present home. This, however, the Regents have shown no signs of desiring to do, and accordingly the hospital project is expected to be indicated into the final solution of the problem presented by the "white elephant" in the shape of a big stone house on the hill.

## CANDIDATES ARE INITIATED

SUCCESSFUL ENTERTAINMENT BY LODGE—HAYWARDS NEWS NOTES.

**HAYWARDS, March 7.**—Ten candidates were initiated last night by Haywards Camp, No. 80, Macabees of the World. A banquet, speeches, and the evening's pleasure now paid for the rental of his present home. This, however, the Regents have shown no signs of desiring to do, and accordingly the hospital project is expected to be indicated into the final solution of the problem presented by the "white elephant" in the shape of a big stone house on the hill.

The supper, which was served immediately afterward, was prepared by the following committee: Elmer Gale, J. MacIntosh and Thomas Gibson. Hendry Garth acted as toastmaster. A speech of welcome was made by Jos. Silver, the Haywards commander, which was given in response by Commander Viera, of San Leandro. Sergeant King and others, of the latter town proposed toasts.

Several hands of whist and five-hundred concluded the evening. While the play was going on W. T. Lemons favored the company with piano solos.

**LOCAL ITEMS.**  
M. E. Mattos returned to Haywards yesterday after a month's residence in Oakland. He is an old resident here, and expects to remain permanently.

J. Harry Silver and J. Albert Woods made a pleasure trip to Centerville Sunday. They drove "Emma D," a race horse belonging to Dr. Dickinson.

The U. P. E. C. entertained several grand officers at its meeting Sunday afternoon. A very enjoyable time was spent a banquet being served and a program given. The guests of the evening were the guests of Mr. and Mrs. Jesse Woods over Sunday.

congratulating him upon the success of the commission and regretting that time did not permit of Admiral Davis passing through London.

## "STAND PAT"

Editor Loeb's Advice to Students Who Kick at Architect's Bill.

BERKELEY, March 7.—The students of the university who refuse to pay Architect Howard's bill of \$1,063 for work on the football field, receive editorial backing today from Joseph Loeb, who in an editorial in the Daily Californian, says:

"The disagreement between the executive committee and the university over the architect's fees is a source of instruction to those of us who are interestedly watching the drama from the outside. In the first place, there is the architect's claim that he ought not to be asked to bear the cost of actual expenditures. If such expenditures were authorized by the executive committee the claim is undoubtedly just. On the other hand, if the architect's claim is not to be asked to bear the cost of actual expenditures, it is not more than \$250, and asked him to proceed with the work on that understanding, there is no reason why the student body should be called upon to pay 'for' any unauthorized expenditures. If the architect exceeded his instructions it is unfortunate, but obviously the loss should fall upon the person who made the mistake, not upon the Associated Students. We are glad that the executive committee has stood pat and refused to pay the immense sum demanded. The real moral to be drawn from the incident is simple—within the university great things are often attempted with very little business methods. Of course, Professor Howard was donating his personal services gratis, and it would not have been delicate to ask him to draw up a contract limiting his expenses. But if this had been done both Professor Howard and the executive committee would regard each other with much more kindness than they now do."

## GUESTS AT PRETTY LUNCHEON

MISS FANNY PRAY ENTERTAINS YOUNG LADIES AT THE BERKELEY INN.

BERKELEY, March 7.—Miss Bertha Goodrich was the guest of honor at a very pretty luncheon given last Friday at the Berkeley Inn by Miss Fanny Pray to fourteen young ladies of Berkeley. The handsome dining-room presented most attractive appearance, while the table was a mass of beauty with fruit blossoms and dainty dishes. The name cards at each plate had fruit blossoms painted on them the work of Miss Pray's fair hands. It was one of the prettiest and most successful luncheons given this season in Berkeley, and Miss Goodrich was given a warm welcome.

The young ladies who were so fortunate as to be Miss Pray's luncheon were: Miss Goodrich, Miss Kelsey Patterson, the Misses Wilcox, Miss Harry Anthony, Miss Aspland, Miss Milton Pray of San Francisco, Miss Carol Day, Miss Edna Orr, Miss Viola Brainerd, Miss Catherine Sherman, Miss Mary Thomas and Miss Rising.

## FRESHMEN READY FOR DANCE

OTIS HILL HURT IN AN ACCIDENT—SAN LEANDRO PERSONALS.

BERKELEY, March 7.—This evening the men of the freshman class will give in Harmon gymnasium a dance to the women of '05. It will be given as a return dance to the girls for the reception they gave the men last September in Hearst Hall.

The reception committee has secured the following patrons and patronesses: President and Mrs. Benjamin Ide Wheeler, Professor and Mrs. C. C. Gayley, Captain and Mrs. J. T. Nance, Professor and Mrs. G. C. Edwards, Professor and Mrs. L. J. Richardson, Professor and Mrs. W. C. Morgan, Professor and Mrs. E. Booth, Professor and Mrs. W. E. Magee, Professor and Mrs. C. D. Von Neumann, Professor and Mrs. J. H. Whitney and Professor and Mrs. J. H. Senger.

## SALT RHEUM ON HANDS

Suffered Agency and Had to Wear Bandages All the Time.

Another cure by Cuticura is told of by Mrs. Caroline Cable, of Waukegan, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we could get, but nothing helped him until he used Cuticura. One set of Cuticura Soap, Ointment, and Pills cured him entirely, and his hands have been as smooth as possible ever since. I do hope this letter will be the means of helping some other sufferers."

## ARBOR DAY BEING CELEBRATED IN ALAMEDA.

Rev. C. R. Brown Addresses Citizens and Asks Support For the Adelpian Club.

ALAMEDA, March 7.—Arbor day was celebrated throughout Alameda today. It was called "Burbank Day," the birthday of Luther Burbank having been purposely selected.

The Civic Section of the Adelpian Club took the leading part in the preparation for and in carrying out the program of the day. One of its members, Mrs. T. R. McGurn, wrote a paper on Luther Burbank, telling of his work with plants and the wonderful results he had attained. The paper was in simple English, and the pupils of the grammar schools might understand it. It was read at 10:30 o'clock this morning at each of the grammar schools of the city.

The exercises at the High School commenced at 1 o'clock this afternoon, the principal speaker being Charles R. Brown of Oakland, who spoke on the ideas of Arbor Day, and asked the people to support such a movement as that of the Adelpian Club in their efforts to beautify the town.

The tree and plant setting was also appropriate to a day in honor of Luther Burbank. At each of the grammar schools a mountain ash, to be known as the Burbank ash, was planted, while seeds of the improved Shasta daisy, a creation of Mr. Burbank's, were sown in a bed at each of the schools.

A row of linden trees was planted around the High School lot, near the inner edge of the sidewalk. Last year a row of palms was planted on the outside of the walk, and it is expected that the whole will make a beautiful appearance.

The ladies have always encouraged tree planting on the streets and yards, and as a result of their agitation of this matter recently, a number of private Arbor day parties were seen about town today.

**CITY TRUSTEES MEET.**  
ALAMEDA, March 7.—The City Trustees held a short session last night for the first time in months, there being nothing of importance to come before the board.

Regular bills amounting to \$1,775.47, special bills amounting to \$117.75, and the salary roll for the month of February, amounting to \$5,198.75, were passed and ordered paid.

The fire chief reported that the regular firemen from the local fire department had been called to "cut" the fire in the fire department had left him without assistants. The assistant chiefs of the fire department, two in number, were elected by the volunteers but when they went out of existence it came down upon the legality of all officers they had elected.

Accordingly Chief Krauth asked the appointment of F. K. Millington and W. T. Steinmetz to the places, which was done.

Trustee Combs reported that the expense of the street department for February had been \$2,783.34.

A. V. Clark was granted permission to grade and macadamize a block at the foot of Park street by private contract. Mr. Clark was also given permission to do some repaving to the bulkhead at the foot.

On recommendation of City Electrician Kahn, R. M. Spence was appointed fireman in the local fire department. The board approved the awarding of the contract to pave Bay street from San Antonio avenue to the bay. This will be one of the model streets of Alameda when completed. The work now being done is by private contract. The street will have deep cement gutters, cement curb and turpined and macadamized surface.

On the request of City Health Officer Steidlman \$1000 was transferred from the general to the health fund.

A petition from eighteen residents

of Haight avenue that lights be placed on the poles that the city now putting up on that avenue was referred to the Electric Light Committee and the City Electrician with power to act being purposely selected.

Thomas Dennison was given a gratuitous license to distribute circulars in the city. D. S. McQuarrie a junk license, and I. Kowalsky a license to peddle fruit in the city.

**ADVANCEMENT CLUB.**  
ALAMEDA, March 7.—The Alameda Advancement Association has planned an elaborate program for its next open meeting which will be held March 13. Prof. Frederic I. Monson will give one of his illustrated lectures this one being on the Moquis and their snake dance, which has never before been seen in Alameda.

Prof. Monson has spent a number of years in the Southwest, studying Indian life and characteristics, and taking pictures. As a result he is one of the best informed men on the subject, and has a grand collection of stereoscopic slides he has made from photographs, showing all phases of Indian life.

A special meeting of the Association was held last night for the purpose of hearing the report of the committee on entertainment. Mr. E. E. Patten, for this committee, reported that he had secured Prof. Monson, and that the Board of Education had granted the use of the Assembly Hall of the High School.

The meeting is open to members and their families. Any citizen especially desiring to attend, may secure an invitation of any member of the board of directors of the secretary of the association. There will be no charge to anybody.

The directors of the association last night selected fifteen views of Alameda, which, with some others, will be forwarded to Chicago, to E. W. Erwin, the lecturer of the California Promotion Committee now in that city.

The next regular meeting of the association will be held next Monday, the meeting at which the lecture will be given being a special one.

## FOOLISH JOKE.

ALAMEDA, March 7.—In carrying out what he claims was a practical joke, Fred Farrar last night alarmed the whole neighborhood and the police department, and had a drugist and physician working over him for an hour.

The young man was with some companions when he announced he was tired of life and had chosen strychnine with which to end it. He poured some crystals into his hand, then swallowed them.

His friends thought him joking until he commenced writhing. He walked from the public house, in which they were, a short distance, then fell and commenced screaming as if in terrible pain.

His friends telephoned for a physician and the police, then carried him to the nearest drug store. The drugist prepared an emetic, and administered it. Farrar's protestations.

By the time the physician had arrived he was too sick to explain anything, so the stomach pump was brought into play and Farrar thoroughly flushed out.

After the excitement had subsided somewhat the young man explained that it was Epson salts he had taken and that he had done it as a joke on his friends. But he seemed to have failed to get the expected enjoyment out of his friends' alarm.

## BRIEF NOTES.

The music section of the Adelpian Club this morning arranged a program made up largely of Indian music. Mr. Blanche Ashley of San Francisco gave illustrations on the piano.

The funeral of the late Lydia Anthon was held from her residence, 1230 Central avenue, yesterday.

## NEWS NOTES FROM ELMHURST

ELMHURST, March 7.—At the weekly meeting of the Woodmen last night the delegates to the Oakland convention received their final instructions. Those selected to represent the lodge at the convention, which is to be held tomorrow, are J. A. Faulkes, Frank Storer, and N. E. Allen. Their alternates are J. D. Armstrong, A. S. Anderson and J. McDermid.

In Oakland the delegates will ballot for representatives of his part of the State at Los Angeles convention this summer.

said a blizzard might be a God-send after all, as it might keep them in the house. "I have taken some nourishment and medicine you will soon be well."

"I was afraid," said Richard soothingly, "that you might have been at present what has happened," he told himself.

Richard returned he had Mrs. Perrybreen, her husband having several other neighbors there. He would go down to see if they were removed and the friends had the house in order. The doctor done what he could for Gertrude's headache but he was not able to mention it back to her when she remained alone.

A few days had elapsed when Fanny startled his wife by saying: "Will you please come here and visit your mother, if you are strong enough."

The doctors then told him of Mr. Brown's visit.

doors, fastened the windows, and then  
bowed herself with her baby and her  
bag, and the long winter evening

"Yes," he said, "his home and everything longed to him was destroyed by Indians."

"Were any of them killed?"

"Yes," said the entire family; "also Whipple, who killed them, and their horses and barns and grain destroyed."

A strange light came into Gertrude's eyes as she said, "Why at that?"

"Are you sure I dreamed?"

"Mamma like de Injin an' de dood de dood de do, de do, de do, put in de Beth."

"Richard," said Gertrude, "do not tempt me to decry my father. He was not killed at all perfectly and I am strong enough to tell him all to you. She hid all the things that were his and she hid away when he had been away. She started to get the note for him. She could not find it."

"I am searching for

"I was looking for the note I w

With a feeble sigh, Gertrude replied, "Alas, my dear Richard, I will never stop trembling for you! But—oh! the result of overstraining the nerves! That is, I killed them and I am a murderer. Then she shook as if aague cold had been laid upon her. Richard implored you not to braid yourself, you brave, noble woman! There was never so proud of you has been. I am proud of you, you have never! Never chide yourself for tonight's work and when such things are done, you must be content that that would have been with, your destroyed like poor Albright's father."

"Why did not the marshal give the alarm? There was no sound of a gun."

The long, slow hours crept along and Gertrude felt again that dark foreboding.

the "mission field and they went East."

A few months later they came to sunny clime of California and George regained her health, but her shattered nerves never regained sufficient strength to overcome the trembling.

So now, after years, when her children notice her trembling hands, remarks very sadly, "is not old children," "is Indiana."

# THOUSANDS ATTENDING THE CHURCH MEETINGS

## CAMPAIGN AGAINST SIN IS BRINGING ABOUT GOOD RESULTS.

TUESDAY.

- 7:45 o'clock—First Congregational Church.  
J. Wilbur Chapman, Evangelist.  
Fred Butler, Soloist.  
Charles Allen, Chorister.
- 7:45 o'clock—First Presbyterian Church.  
Henry Ostrom, Evangelist.  
John P. Hillis, Soloist.
- 7:45 o'clock—Twenty-third Avenue Baptist Church.  
H. W. Stough, Evangelist.  
W. H. Collisson, Soloist.
- 7:45 o'clock—Eighth Avenue M. E. Church.  
R. A. Walton, Evangelist.  
O. F. Pugh, Soloist.
- 7:45 o'clock—Chester Street M. E. Church.  
John H. Elliott, Evangelist.  
Chas. E. Rykert, Soloist.

PROGRAM WEDNESDAY.

- 12:25—Noon meeting, S. P. R. R. Shops.
- 2:15—First Methodist Church.  
J. H. Thompson of New Zealand.  
Conducts a Personal Workers Class.
- 3 p. m.—First Methodist Church.  
Dr. J. Wilbur Chapman.  
"The Second Mile."
- 7:45 p. m.—Services in each of the five districts.

Mr. Ostrom spoke on "The Broad Religion," at the First Presbyterian Church last night. He said: "Not broader but higher is the watchword of the Twentieth century. Why not a liberalist in religion. Everywhere in the Bible man is represented great except when in contrast with Jesus. Then he is meaner than a pigmy. Man is a great creature. I think of what the martyred President Garfield said: 'When I meet a boy I feel like taking off my hat to him because I do not know the greatness that is buttoned up in his tiny jacket.'"

**MAN IS GREAT.**  
"So great is a man that he can become as pure as driven snow or lower than a beast, that his passions and moves swing like a pendulum. So great is man that the possibility of his greatness is not always manifest and when it becomes manifest it is astonishing. So great is man that he is called not the cabin, not the adobe hut, but the temple of the Holy Ghost. Man is no trifling commodity. He is like unto a continent with tall peaks and soft valleys, with rivers and lakes, with harbors and coast lines. One man is worth the whole world."

**GOD AND MAN.**  
"Do away with the contrast with God and man, and man goes so high up that he is almost God. Yet with all man is a great sinner as well. I believe in the depravity of man. The scriptures tell us we are born in sin. Even the little child needs constant watching and great cautioning. Take the babe from the best family in California, put him by himself, and he will become lower than a heathen."

"Man is an alien person from God. He will walk the streets for twelve hours and will not think of his Creator. I don't like to assail the Fatherhood of God and the Brotherhood of Man theory, but it is an overdrawn expression."

"The Fatherhood of God only comes to him who joins God's great family and himself becomes a son or a daughter. The Brotherhood of Man exists only when man accepts Jesus Christ the son of God. Man knows that he is guilty. Who would not rather be a guilty man than an innocent idiot? If they tell you there is good in every man, that you sin in ignorance and because you do not know any better you will be forgiven, they tell you a lie."

"I like the old-fashioned orthodoxy—'God sent a wonderful Savior for a big sinner.' Why freeze it with cold and heartless theory spinning?"

**OLD FASHIONED.**  
"Old fashioned orthodoxy does not need to prove its right to your endorsement and mine. When I say old fashioned, I do not mean that you must endorse every emphasis of every man who was rated orthodox a hundred years ago. I mean the old orthodox shoe. Put in larger eyelets if you

will; use red, green or blue laces if you will; put special curves on the soles and more lifts on the heels, but give us the old last fitted to the foot, the old leather, tanned to turn water, and the whole thing put together to stay."

### DR. WALTON AT 8th AVENUE METHODIST

Dr. Walton took his text last night: I John 1:7, "The blood of Jesus Christ his Son cleanseth us from all sin."

"The general theme around which the discourse seems to gather was, 'Does Salvation destroy the appetites and passions for gambling, for drink, for swearing, as well as the many intellectual difficulties with which a great many men are swamped. The position was taken that most men imagine God was required to do what he had never promised to do: That is, to grant salvation to one, and the proof of it to an individual who had really never surrendered and who down through all the love of sin had never really desired to be delivered from sin."

**CLEANSING POWER.**  
"The cleansing power of the blood of Christ is never experienced by half-hearted acceptance of the conditions on which it is promised. Many forcible illustrations were presented to prove conclusively that in the case of even the most wretched outcast, when he tired of his sin his cry for mercy was always answered. The help and deliverance which was promised came immediately. The blood covenant is God's agreement to take care of the sinner eternally when he puts his case in His hands. Faith in Jesus Christ is the one condition which binds God to save and keep."

**THE BLOOD COVENANT.**  
No part of the discourse was more interesting than the history which was given of the different covenants of scripture. The blood covenant is an inalienable agreement which binds the parties to the covenant to perform what is stipulated, and nothing which follows can annoy. The case of Jonathan and David Cataline and his conspirators, Stanley and the African chief were used to illustrate the different periods in the history of the blood covenant. Many shuddered the speaker described how each participant drew from his arm blood, which, after it was mixed, was drunk half by one and half by another. The sweetness of the communion cup, however, where the blood of Christ is typified was impressively presented.

**ILLUSTRATIONS.**  
Among the illustrations used by the speaker was that of old Colonel Atkins, who, for several years, was the

most interesting figure at the McAuley, or commonly known as the Water Street Mission, New York, and which has gained greater celebrity under the direction of Sam Hadley than possibly under Jerry McAuley.

#### GOD'S POWER.

Another very striking illustration to show God's power to deliver from the sin of swearing was an interesting case in the life of Mr. Moody. While preaching in an Illinois town during the earlier days of his career a man drove up in his carriage, and listened between the puffs of his cigar to the exhortations of the young evangelist. Mr. Moody inquired who he was. He was told that his name was Palmer, that he was the wealthiest man in the county owning almost one-third of the real estate in the town, beside large tracts of county land, but a man so given to the habit of swearing that his wife and daughters were ashamed to go out with him. Mr. Moody said, "I will go out and see him," and notwithstanding the warning that he would get nothing but a volume of oaths, the next morning quite early found him at the front door of the rich man's house. Mr. Palmer was seated on his porch and greeted Mr. Moody with the question, "What do you want?" "I wish to see Mr. Palmer," he replied. "That's my name; what have you come for?" Mr. Moody replied, that he had heard that Mr. Palmer was the richest man in the county, that God had given him friends and influence, had given him a wife and two lovely daughters, but that all that he had ever returned to God for all His goodness to him had been oaths and curses.

"Is it so?" he asked.

"It was not long before Mr. Moody was invited to pray with the swearer. In the afternoon service of that day, Mr. Palmer made an open confession of his faith in Christ, and begged his fellow citizens to forgive him for the life he had led."

Six years after this time Mr. Moody met Mr. Palmer in California. His first question was, "Mr. Palmer, how about the swearing?" "I haven't sworn since, sir; God filled me with something better," he replied.

#### AT WEST OAKLAND.

In West Oakland last night Dr. Elliott spoke in the Chester Street M. E. church on "Sympathy for Souls," from Psalm 142:4: "No man sought after my soul."—He said in part:

"How little sympathy there is in the world. No wonder some grew cynical, sour or pessimistic. When they see the common custom of forgetfulness and the habit of ignoring the rights of others. The infirm man at the pool in the time of Jesus illustrates how easy it is to despair of help or sympathy from the world and the man in the text said 'I looked on my right hand and no man regarded me, no man cared for my soul.'"

"Alas! that any in this community should point the finger at you, and say that. But why not care for your own soul. God cares, Jesus cares, and good men and women care. Why not care yourself. You care for health, wealth and other things, why not this. You care for prosperity, but 'how much better is a man than a sheep?' said Jesus."

### NEW BICYCLE ORDINANCE

#### "SCORCHERS" ARE PROHIBITED FROM RECKLESS RIDING AROUND CORNERS.

An ordinance was introduced in the City Council last night prohibiting bicyclists riding on the sidewalk, and also prescribing other regulations designed to keep the "scorcher" within bounds. There is little difference between the ordinance now in effect and the proposed ordinance. The same provisions for lights during certain hours of the night are retained. It is provided that wheelmen shall ride on the right side of the street except when turning a corner or dismounting at a desired point.

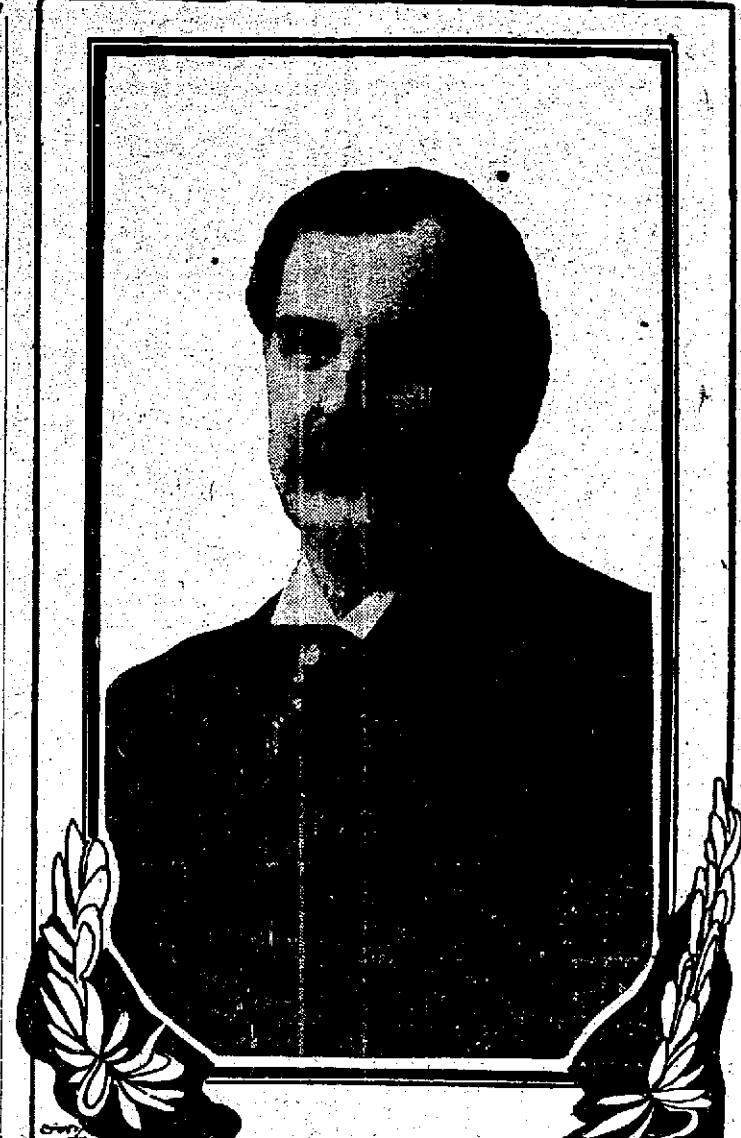

In passing crossings it is provided that the bicyclist shall not proceed at a speed to exceed eight miles an hour. This provision is to prevent persons being run down at street crossings by reckless riders.

The penalty for violating the ordinance is \$100 with the alternative of being imprisoned in the City Jail at the rate of one day for every \$2 of such fine imposed.

#### WILD BEASTS AND CATTLE.

The number of cattle reported as destroyed by wild beasts in India last year exceeded 56,000.

Fully nine-tenths of the conceal in this world is monopolized by men under 40.

O. H. PUGH, TENOR AT THE EIGHTH AVENUE M. E. CHURCH.

R. A. WALTON AT EIGHTH AVENUE M. E. CHURCH.

## WATER RATES FIXED FOR THE YEAR.

### City Council Places a Valuation of \$4,745,000 on the Water Plant.

The City Council last night passed the ordinance fixing the water rates for the next fiscal year, starting with July 1. The valuation decided on was \$4,745,000. The net amount of interest allowed on this amount was 6 per cent. The gross amount of interest, which covers necessary operating expenses, is 10 1/2. The estimated revenue is \$505,000.

Before the ordinance was passed, President Dornin read the following address, setting forth the reasons why the City Council had fixed the valuation at a lower figure than claimed by the Contra Costa Water Company for a specific purpose of the company, might be presented to the water rates might be finally fixed that evening (Monday, February 13), and that in case this was the disposition of the Council, the company desired a postponement of the final consideration of the matter until the following Monday night (February 20), as Mr. Adams, the representative of the company, was not in town. He stated that the company made a claim for increased value of the Oakland division, other than the \$46,627 shown in their construction account. In their general statement filed January 31 of this year, this amount was added to the valuation fixed by the committee last year, making a total of \$4,745,000 upon which to base the rates for the fiscal year July 1, 1905, to June 30, 1906 inclusive.

### Notice to Pile Sufferers

We Don't Ask You To Take Anyone's Word For What Pyramid Pile Cure Will Do.

You Can Have a Trial Package Free By Mail.

We receive hundreds of letters like the following: "I have been feeling so good it could hardly believe it, after suffering with piles for a year, to find that I am once more feeling like myself. I wish you could have seen me before I started using Pyramid Pile Cure and look at me now; and you would say I am not the same man. I have gained twenty pounds, and all on account of Pyramid Pile Cure." Walter Starkley, 56 Park street, Springfield, Massachusetts.

"I bought a fifty cent box of Pyramid Pile Cure and used as directed with the most unexpected results, a complete cure. I have been troubled with piles for thirty years and was in much distress and passed much blood, but at present am free from any kind of piles." R. McKay, Weaverville, Cal.

"Pyramid Pile Cure has been worth thousands of dollars to me; it cured me after using numbers of other remedies and taking medicines from doctors. It also cured my son, although he could hardly walk, eat or sleep; he is now all right." B. Stringfellow, Postmaster, Elko, South Carolina.

By the use of Pyramid Pile Cure you will avoid an unnecessary, trying and expensive examination by a physician and will rid yourself of your trouble in the privacy of your own home at trifling expense.

After using the free treatment which we mail in a perfectly plain wrapper you can secure regular full size packages from druggists at 50 cents each, or we will mail direct in plain package upon receipt of price. Pyramid Drug Company, 244 Main street, Marshall, Michigan.

The rates for one and two-story are in the same proportion. A comparative table of the rates for miscellaneous items is also attached.

"All these show plainly that the rates fixed by this Council in 1904, although some 50 per cent below the rates under which the water company is now operating, are still far in excess of the San Francisco rates."

"On behalf of the committee, I submit herewith a copy of resolution fixing the rates for the ensuing fiscal year, and would request that the foregoing statement be spread upon the minutes of this meeting. Respectfully submitted,"

GEORGE W. DORNIN,  
"Member of Committee."

**The Diamond Cure.**  
The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia it will, however, be best for you to take that great remedy mentioned by W. T. Medley of Vanlier, Tenn., which had a cough for fourteen years. Nothing helped me until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief and effected a permanent cure. "Unequaled cure for Throat and Lung Troubles, Croup, Whooping Cough, Sore Throat, Bronchitis, Asthma, Hay Fever, Eczema, Scalds, Burns, Bruises, Swellings, Rheumatism, Gout, Gravel, Piles, Hemorrhoids, Catarrhs, Strains, Sprains, Stomach Aches, Indigestion, Biliousness, Headaches, Neuralgias, Rheumatic Pains, etc., etc." Price 50c and \$1.00, guaranteed. Trial bottle free.

**PROMINENT MAN DEAD.**  
MISSOULA, Montana, March 7.—Timothy Sullivan, a wealthy hardwood lumberman of Buffalo, New York, and the senior member of the firm of T. Sullivan & Sons, died on the North Coast limited on the Northern Pacific Railroad. Deceased is said to have had a national reputation as a politician and one of his sons is T. F. Sullivan, also noted in New York politics.

**ASH WEDNESDAY SERVICES.**  
The services tomorrow at St. Paul's will begin with a celebration of the Holy Communion at half past seven. A second celebration with an address follows at 10:30. Evening prayer and sermon by rector at eight o'clock. The Lenten cards show a daily service at four o'clock and addresses will be delivered by the clergy of this parish.
